Report Prepared by: Office of Institutional Research and Planning Jimmy Hicks, Director William Haglelgam, Data Researcher Francis Alex, Administrative Specialist Email: rschplanning@comfsm.fm

#### Introduction

The College of Micronesia – FSM hosted a Visioning Summit for external and internal stakeholders on August 8 & 9, 2012, at the FSM – China Friendship Sports Center on its national campus. The Visioning Summit was timed to coincide with the initial steps in developing a new five year Strategic Plan for the college.

#### **Purpose of the Visioning Summit**

The Visioning Summit was designed to:

- Review the college's existing Strategic Plan to ascertain what was accomplished and to make recommendations on aspects of the plan still relevant,
- Review the current college Mission and Values in view of changing conditions and determine what might still be pertinent in developing and/or revising the Mission and Values of the college.
- Review and make recommendations on the college's Integrated Educational Master Plan (IEMP) to better align the plan for greater impact on improving student learning and achievement, and
- Review and discuss the Assessment of the College's Communication Plan: Purposeful Dialogue at COM-FSM.

The agenda for the Visioning Summit can be found in Appendix A.

#### **Organization of the Visioning Summit**

The Visioning Summit was organized to foster purposeful dialogue and to allow participant's active engagement. Short introductions were provided for each of the major issues addressed during the Visioning Summit followed by group breakout sessions. A series of guiding questions were provided to assist with consistency of discussions, but groups were encouraged to explore areas they felt were not adequately covered. Originally, eight different groups were organized by colors, with trained facilitators to discuss and make recommendations on vital issues facing the college. In some cases, two groups were collapsed into one to facilitate discussions. Details of the groups' discussions and recommendations can be found in Appendix B (the appendix attempts as much as possible to reflect the group's responses with only minor editing, in some cases similar responses were combined. The groups also conducted a visual prioritization related to the Mission and can be viewed in Appendix C.

A number of key documents were provided to the groups to facilitate discussions. Included were:

Integrated Educational Master Plan (2012)

- College of Micronesia FSM Strategic Plan (2006 2011)
- Assessment of the 2006 2011 College of Micronesia FSM Strategic plan (2012)
- Purposeful Dialogue at COM-FSM: An Analysis of the COM-FSM Communications Plan and ACCJC Recommendation One with Recommendations (2012)
- President's White Paper COM-FSM Quality, Sustainability, and Success: A Framework for Planning and Action (2012).

The college's Institutional Research & Planning website <u>http://www.comfsm.fm/irpo/</u> provides access to the background documents for the summit.

## Participants: External and Internal

There were one hundred forty eight external and internal stakeholders participating in the college's visioning summit. External participants included department secretaries from the FSM national government, senators from the Pohnpei State Legislature, and representative of the FSM Development

Bank, FSM Congress, National Department of Education, Yap State Department of Education, SPC and Moylan's Insurance. All campuses and departments of the college were represented including student representatives from the national campus. A full listing of participants is located in Appendix D.

### Major Components of the Visioning Summit

The following is a brief summary of the discussions and recommendations of the breakout sessions. The information has been edited to reduce duplication and in some cases grouped into categories for easier reading.

### Where we are: A review of the Strategic Plan (Breakout session 1)

Commitments - The College is committed to fostering student success in academic and

technical training areas, but also must have greater focus on providing a high quality workforce for the FSM as a small island developing nation. The college is also committed to meeting the Institutional Learning Outcomes (ILOs) established for the college. To assist in meeting the college's commitments greater emphasis needs to be placed on a culture of evidence. A major commitment is to remain fully accredited and continuously improving.

**Relevance of Current Goals** – The discussion

groups generally determined that the goals of the current plan are still considered relevant, but effort needs to be taken in resource allocation against the goals and greater emphasis on implementation of the goals against Key Performance Indicators (KPI). Current strategic goals of the college are: 1) promote learning and teaching for knowledge, skills, creativity, intellect, and the abilities to seek and analyze information and to communicate effectively; 2) provide institutional support to foster student success and satisfaction; 3) create an adequate, healthy and functional learning and working environment; 4) foster effective communication; 5) invest in sufficient, qualified, and effective human resources; 6) insure sufficient and well-managed fiscal resources that maintain financial stability; 7) build a partnering and service network for community, workforce and economic development; 8) promote the uniqueness of our community, cultivate respect for individual differences and champion diversity; and 9) provide for continuous improvement of programs, services and college environment.

**Environmental Changes** – Key changes in recent years affecting the college and its planning include: changes in Pell Grant eligibility, reductions in JEMCO awarded funding from the Compact Education Sector Grant, and transformation in technology with emphasis on social networking.

#### Where we are: Mission Alignment (Breakout session 2)

What do Mission statements mean – Purpose of the college and a promise to our students.

**Unclear Terms** – Terms that need to be considered closely in revision of the Mission statement include: globally connected, uniquely Micronesian and historical diverse. Further, "assisting" and "development" can be interpreted in very broad ways – does the college interpret these terms in the same way as the FSM government?

**Issues to address**: Mission needs to directly address student learning outcomes (SLOs), accountability and increased interaction with stakeholders in determining what programs and services to offer.

#### **Mission Statement Components**

**Who are we?** – US accredited, heavily dependent on Compact funds, committed to continuous improvement, and no longer the only institution of higher education in the nation.

**Who do we serve?** – The college serves students who speak English as a foreign language, traditional high school graduates, career and technical groups, pre and in-service teachers, and specialized training groups.

What is our social political basis, mandate or need? – The college must respond to state/national needs for development, and serve as an intellectual center for the nation.

**What do we value?** – Some values that the participants thought the college should exhibit include: commitment, professionalism, integrity, teamwork, family, accountability and acceptance of diversity.

**How are we distinctive?** – We are distinctive due to our geographical location in the Western Pacific, small population spread over a vast area of ocean, and serving diverse students with diverse backgrounds, languages and cultures.

# <u>Alignment with the Integrated Educational Master Plan (IEMP) (Breakout session 3 & 5)</u>

**Comments** – Clarification on the difference between a strategic plan and the integrated education master plan were requested. The IEMP could be made stronger with greater student body and external stakeholder input.

**Recommendations** – As part of the review of the IEMP, a number of recommendations were made by the various groups. The IEMP should have greater focus on measuring and improving student learning outcomes at the institutional, program and course levels. A lead person should be identified for each activity with specific KPIs established. A tracking system for graduates needs to be established and maintained. Clearly establish program priorities. Develop mechanisms for increased student and stakeholder input. Increase the design and delivery of training programs to meet needs of the current and future FSM workforce. Improve communication on the IEMP including impact of changes resulting from implementing the plan and continual review of the plan by each division, office and campus. Make the college the first choice for higher education in the FSM.

#### What are we doing well now? (Breakout session 4)

**Note:** This section was a review of the assessment report – Purposeful Dialogue at COM-FSM: An Analysis of the COM-FSM Communications Plan and ACCJC Recommendation One with Recommendations (2012)

**Strengths** – Communication is seen as improving with increased transparency across the college, but the importance of oral communication in Micronesia needs to be recognized.

**Weakness** – There is a gap and lack of recommendations regarding improving communication with and external stakeholders.

**Recommendations** – Develop more effective and efficiency strategies for communicating priority and routine items with the college community with an emphasis on effective email communication and alternate means of communication and face to face meetings.

### **Next Steps**

This Visioning Summit is only the first step, phase I, towards developing the college's new Strategic Plan (2013 - 2017). There will be follow-up sessions at each state campus, phase II, between September and November and additional meetings with external Stakeholders to solicit their views between October and December 2012. The college's new strategic plan will be completed by January 2013.

## Appendix A – Agenda

## College of Micronesia - FSM Visioning Summit (Part I) August 8 & 9, 2012 FSM – China Friendship Sports Center

Wednesday - August 8, 2012	
Time	Activity
8:30 – 9:00 AM	Breakfast & sign in
9:00 – 9:30 AM	<ul> <li>Opening remarks</li> <li>Timeline/Map for the next 6 months</li> <li>Overview of the summit</li> </ul>
9:30 – 12:00 AM	<ul> <li>Where we are: A review of our Strategic Plan:</li> <li>Solidifying commitments in existing Strategic Plan.</li> <li>Identify components of Strategic Plan still relevant to us as a community and a college.</li> <li>Strategic Plan assessment.</li> <li>Where we want to be, grounded in reality.</li> <li>How does our Strategic Plan align with what we say we want to do?</li> </ul>
12:00 – 1:00 PM	Lunch
1:30 – 4:30 PM	<ul> <li>Where we are: Mission Alignment: <ul> <li>A promise statement.</li> <li>Does our Strategic Plan align with and support our mission: What is missing towards fulfilling our promise?</li> <li>Does our mission need to be more carefully defined: Do we need the missing components?</li> <li>Can we deliver on our promise? What are we doing well, where are the gaps?</li> </ul> </li> </ul>
4:30 – 5:00 PM	Summary Day 1

Thursday - August 9, 2012	
Time	Activity
8:30 – 9:00 AM	Breakfast & sign in
9:00 – 11:00 AM	<ul> <li>Alignment with Integrated Educational Master Plan (EMP)</li> <li>Review Integrated EMP.</li> <li>How well does our mission statement/promise statement align with our Integrated Educational Master Plan? Identify gaps.</li> </ul>
11:00 AM – 12:00 Noon	<ul> <li>What are we doing well now?</li> <li>Communication Plan assessment</li> <li>Recommendations</li> </ul>
12:00 – 1:00 PM	Lunch
1:00 - 4:30 PM	<ul> <li>Alignment with Integrated Educational Master Plan (EMP) continued</li> <li>Review Integrated EMP.</li> <li>How well does our mission statement/promise statement align with our Integrated Educational Master Plan? Identify gaps.</li> <li>SLOs, Program Assessment, Program Review</li> </ul>
4:30 – 5:00 PM	Wrap up and NEXT STEPS – Preface Visioning Part II & Part III & repetition on Yap, Kosrae, and Chuuk.

## Appendix B – Summaries of Breakout Sessions<sup>1</sup>

	parents, general community,	students should have skills and knowledge specified the
	college community,	ILOs; commitment could be improved by awareness,
	business and political	alignment and communication; management need to
	leaders, other external	improve communication on efforts for meeting strategic
	stakeholders) through the	goals; management team help with defining and
	existing strategic plan?	implementing values of the college; the college needs to
		focus on student outcomes; plans should be developed from
		ILOs (Institutional Learning Outcomes) that need to be
		turned into actual learning outcomes; STAKEHOLDERS:
		students, parents, government leaders, private sector,
		farmers, WASC, faculty, staff, politicians, US Department of
		Education/Congress, church community, IHEs, general
		public; graduate students with skills, increased knowledge,
		capacity to perform, and skills in communication.
b)	Which of the components of	Relevant goals: All goals relevant, but reallocation of
	the strategic plan are still	resources is needed to meet changing stakeholder
	relevant for the college?	expectations; goals need to link better to student success;
	What has changed since	goals are relevant, but some more important than others with
	2005 (economic,	financial, continuous improvement and quality staff leading
	accreditation, expectations	(financial with loss of \$2.8 m over 4 years); goals need to be
	of students and faculty,	reformatted to be more measureable;
	social changes, regulatory	Environmental scans: Technology changes especially
	change (PELL grant, etc.)	social networking (YouTube, Facebook, etc.) affecting
	technological changes,	connectedness; Changes in Pell grant eligibility (600% or 6
	distance learning, student	years, 67% of credits, etc.), impact certificate and college
	achievement trends, college	level students with new time constraints; college readiness of
	readiness of high school	high school graduates low; communications has improved –
	graduates, competition from	people are better informed; distance learning is having a
	other IHEs) that might affect	major impact across the world and the college needs to be
	the relevancy of different	prepared; JEMCO resolution reduces college funding from
	components of the strategic	ESG by \$2.8 million over 4 years; distance learning; need a
	plan?	tracking system (who is responsible?); job audit (reduce man
		power); Pohnpei campus LRC no changes although increase

### Breakout Session 1 SUMMARY: Where we are: A review of our Strategic Plan

<sup>&</sup>lt;sup>1</sup> This appendix attempts as much as possible to reflect the group's responses with only minor editing, in some cases similar responses were combined into one statement.

		in enrollment; track graduates versus employment in their field of study; vocational advisory group to foster support and promote linkage with work force.
<b>c</b> )	How well has the college fulfilled its commitments/promises to the various stakeholders? Are there commitments/promises that have not been fulfilled? Where are the gaps between our commitments and delivery?	Fulfilling commitments: Need data to answer question; general yes, but not well in area of recruitment of quality staff; student achievement; meeting needs of underprepared students; accreditation failings; communication with stakeholders for information, needs and evaluation; uniquely Micronesian aspect failures; we have a lack of Micronesians (college graduates) in higher positions in areas such as accounting and construction; we need to be concerned about the quality of our students; we have meet some stakeholder needs in area of nursing ,etc.; need to improve in areas such as agriculture (what is really needed); concern about expatriates versus Micronesian employees and how and why they are hired; we get into a routine and don't want to upset the balance; action on all goals but "uneven"; next plan needs to link to FSM development plan and should be specific (measurable) and reference the needs and aspiration of our students; programs work in isolation – need to work together; lack of structure in place to provide an effective process to get things done.
	Where do we want to be (in 1 year, 3years, and 5 years)? How realistic and achievable are these ideas/desires/wants?	<ul> <li>1 year: fully accredited, long term funding identified, implementation of education master plan, improve communication with stakeholders; needs and sustainability assessment; need more articulated courses and programs; full proficient in all levels and not just on the surface; maintain or increase student enrollment;</li> <li>3 years: Continuous improvement based on assessment and evaluation; improve completion rates; improve student life (clubs, improved residential, extracurricular, cafeteria, job placement); establish partnerships the community, advisory councils, workable tracking system of students; move into distance learning; maintain or increase student enrollment; need new HTM facilities and vocational building at Pohnpei campus.</li> <li>5 years: New sustainable organizational structure in place (based on needs assessment); be better able to adapt to external changes; host more BA and collaboration programs; proficient in all areas; maintain six campuses may be difficult; make COM-FSM first choice.</li> </ul>
e)	How well does our current strategic plan align with what we want to be?	Alignment: alignment OK, but implementation is an issue; reality is we are not familiar enough with the strategic plan; need evidence and data on what we are accomplishing and alignment of our work; alignment a problem because plan does not focus on SLOs; strategic goals need to be

	measureable and data driven.
--	------------------------------

## Breakout Session 2 SUMMARY: Where we are: Mission Alignment

Gu	uiding Question	Summary of Responses
1.	What does a mission	Mission Statement: The purpose of the institution; A
	statement mean in the	promise to the nation; Promise to Students, Employers,
	context of higher	Parents, and FSM Nation; What the college is to accomplish;
	education? [Terms –	Our chosen direction; A commitment; shared
	promise, contract,	purpose/understanding; commitment to achieving student
	purpose, guarantee,	learning.
	pledge, oath, vow]	
2.	How does the current	Terms that are unclear: Globally connected; technical
	strategic plan align with	education same as vocational?; Uniquely Micronesian,
	and support the mission?	historical diverse.
	Are we fulfilling the	Issues to address: mission does not directly address student
	(current) mission's	learning outcomes; lack of internal accountability; level of
	promise? What	interactivity with stakeholders; building local capacity;
	components might be	sustainability including financial stability; mission statement
	missing in fulfilling the	too broad; greater emphasis on employability skills.
	promise of the mission?	Strategic goals: Mission statement used for arriving at
		strategic goals (aligned); goals 7 & 8 need wording
		improvement.
3.	How might we better	Who are we? US accredited IHE; 95% dependent on
	define our mission and	Compact funds; no longer the sole IHE in the FSM; serve
	promise to the nation?	students of English as a foreign language and different
	What about missing	cultural backgrounds; a college in a geographically remote -
	components – how	young developing nation; public corporation; learning
	would they define the	centered; Micronesian college committed to continuous
	mission? Some clarifying	improvement; the institution of first choice for meeting
	questions that might be	training needs for the FSM (we want to be).
	considered:	Who do we serve? Speakers of English as a foreign
	a. Who are we?	language; traditional college students (open access or meets
	b. Who do we	entrance criteria); specialized training groups; career and
	serve?	technical education groups; non-traditional; adult education;
	c. What is our social	new and in-service teachers; college needs to address this
	and political	issue in terms of prioritization and resources.
	basis, mandate, or	What is our social and political basis, mandate, or need?
	need?	Need to address additional national/state issues; national
	d. How do we	development; college as an intellectual center for the
	respond to this	community; recommendation for eliminating last three words
	basis?	of the mission "for student learning"; improvement of living
	e. How do we	conditions of the population; teacher training; economic
	respond to	priorities of the nation and states; clarification of our
	stakeholders?	mandate (Title 40 etc.).
	f. What do we	What do we value? High quality education; commitment;
	value?	professionalism; integrity; teamwork; family; accountability;

g. How are we distinctive?	<ul> <li>acceptance of diversity; learning centeredness; cultural values; innovation; honesty; ethical behavior; commitment and hard work; accountability.</li> <li>How are we distinctive? Geographical location; small population spread over a vast area of ocean; diverse languages and cultures; almost 100% of students depend on PELL grant.</li> </ul>
4. How realistic and achievable are the changes to the mission we are defining? What are our strengths (what we are doing well) and weaknesses (what are the gaps from where we want to be and our current status) that will allow us to meet the mission requirements? Is this a mission we can deliver on?	Changes can be achievable as we have: Strengths: dedicated faculty and staff, our diversity, we have perseverance despite challenges; we have high demand for our services, concurrent enrollment at different sites. GAP: We need to provide more robust services to meet demand, Weakness: Graduates do not meet academic standards of other US IHE's, low graduation rates, our results from remediation programs is weak,

# Breakout Session 3 & 5 SUMMARY: Alignment with Integrated Educational Master Plan (EMP)

Assessment? Do we agree	easier to approach the big bosses in person.
with those findings?	Weaknesses: Report difficult to read without survey
c) What are the major	question; communication is uneven, important information is
recommendations of the	not communicated; time given was not enough for everyone
<b>Communications Plan</b>	to complete the survey for the communications plan review;
assessment? Do we agree	communication with stakeholders needs improvement; too
with those	much last minute communication; communication gap for
recommendations?	general community; hard for faculty to participate in
	meetings due to class schedules; TRIO programs not
	mentioned in plans; no clear recommendations on how to
	improve communication with stakeholders; concern over
	ethics and personal/professional behavior on email
	communications – personal feelings are being communicated
	to all; technology not being used to full potential and
	sometimes misused; lack of privacy on confidential issues;
	disparity of technology; committee membership and active
	committee participation.
	Recommendations: Use mass email for summaries and hard
	copies for entire report; needs a cover summary with
	highlights, graphics; continue short relevant data reports;
	continue publications in KP; consider computerized phone
	answer call center; develop a FAQ page for the college: need
	training in use of email and how to communicate effectively;
	acknowledgement of information being communicated is
	equally important; use of local language can be a sensitive
	factor/issue (e.g. Washan Kamarain); use language that can
	be understood by all; need to clarify communication
	channels; need a structure for monitoring communications;
	improve the branding of the college; develop strategies to
	make people more aware of and appreciate the college;
	promote the college's image through students/alumni;
	training in general communications; include TRIO program
	in plans to meet college objectives; develop a communication
	protocols policy book.

## Breakout Session 4 SUMMARY: How well are we doing now?

#### Appendix C – Visual Prioritization Results

#### **Visual Prioritization**

#### Whom do we serve?

Purple		Yellow		Black	
Answers	Points	Answer	Points	Answers	Points
