Since the previous AU program review, what significant changes have occurred that impact the services of the AU?

This is the first program review of this AU; therefore, there's no precedence.

What methods are used to evaluate AU's effectiveness to the population that interacts with it?	What do the results of the above methods of evaluation indicate about the effectiveness of the AU?	How have the results of this analysis been used to make improvements to services provided by the AU?

What challenges remain to make the AU more effective?

Limited resources of tangible items and personnel and the freeze on hiring - we need to hire more one-on-one tutors and other indirect personnel which support student success.
