

FACILITIES AND CAMPUS ENVIRONMENT COMMITTEE

College of Micronesia-FSM

P.O. Box 159 Kolonia

Pohnpei FM 96941

Action Memorandum

Wednesday, March 20, 2013

To: President

Through: Vice-President Administration ____

Through: Director of Maintenance, Facilities and Security ____

Re: Betelnut policy

Whereas there is a lack of participative consensus on changes to existing policies,
Whereas students, staff, faculty, and administration disagree on policy changes even
within each group,

Whereas positions are hardened with little to no middle ground recognized,
Whereas the existing policy is deemed to be dysfunctional and ineffective,

The Facilities and Campus Environment hereby recommends that the administration
at each site move forward with the redevelopment and subsequent implementation
of betel nut and tobacco chewing policies appropriate to their own sites.

So moved by the Facilities and Campus Environment committee on the eighth day of
the third month of two thousand and thirteen.

Dana Lee Ling
Chair
