Action Memorandum

Tuesday, April 16, 2013

To: President

Through: Vice-President Student Services and Affairs ____

Through: Director of Student Life ____

Re: Student conduct and discipline policy, SSA representation on FCE

The Facilities and Campus Environment committee on the fifth day of the fourth month of two thousand and thirteen, based in part on advice from the president, recommended that student services and affairs take the lead on a complete overhaul of the student conduct and discipline section of the catalog. The section has been built in pieces over time and some portions conflict with other portions.

Both the chair of the facilities and campus environment committee and the chief of security have offered to help in the effort to redevelop the student conduct and discipline section of the catalog, developing clearer responses and decision flow charts.

The president has also recommended that student services and affairs department be represented on the facilities and campus environment committee. The chair concurred with this recommendation.

Dana Lee Ling
Chair
