**Re:** BECA Report

---

Inasmuch as the COM-FSM Finance were planning to recommended certain energy cost saving measures beginning with a complete energy audit, we have found the BECA study has completed an in-depth study on our energy use and makes certain recommendations.

Therefore the COM-FSM Finance Committee wishes to acknowledge the BECA report and urges the college to use the applicable recommendations to enhance COM-FSM's ability to attain our goals of becoming

- Less dependent upon imported sources of energy
- Increasing energy efficiency by 50% by 2020
- A “best practices for energy conservation” model
- A developer and user of alternative sources of energy

Thank You
