Database [Version](#) [Notes](#)  
[Production](#) [1.23](#) Production database

Version 1.23 changes

- Grade-based pre-requisites
- Numerous interface bug fixes
- Section-based mailing list support

Version 1.20 changes

- Online registration

Version 1.06 changes

- Managed e-mail list support
- Comment field on account management forms
- Bug fix for unintended replacement of preferred e-mail address for people with multiple accounts

Version 1.05 changes

- This release is primarily a technology release; no significant functional changes have occurred
- IMAP integration and management have now been implemented
- Internal security structure has been improved to reduce potential spoofing-style vulnerabilities

Version 1.03 changes

- Incorporated federal school code list
- Official Transcript Requests include requesting school information
- New forms for Information Panel, news and information

Version 1.01 changes

- Searching for identity records by name or ID is now faster, and names or ID numbers that have been changed are now displayed in italics
- New A/R Control form to limit range of valid Effective Date entries on student accounts
- Deletion of the last non-printed entry from a Check Batch now marks the batch as Complete; batches without entries are no longer displayed on the Check Batch form
- Student accounts are now locked by account; only one form that allows entry may update an account simultaneously
- Selection of A/R cashiering sessions is now done by the year the session was opened; additional information about each session is displayed to better identify each session
- New faculty grade entry form in faculty portal; new control forms in SIS to control when grades may be entered and what grade codes are allowed
