

Assessment: Administrative Unit Four Column

2012-2013 to 2021-2022 Annual Assessment: Student Life (Office of the DSL, the Residence Halls, Sports & Recreation, and Health Services)

C - EMSS - Student Life, Residence Halls, Health Services, Sports and Recreation

Mission Statement: [Office of the Director of Student Life]

The Office of Student Life provides COM-FSM students with a safe and enjoyable living environment conducive to academic success, community development and personal growth. Through campus collaboration, promotes scholastic achievement, encourages respect for self and others and prepares students to explore their place in the larger community.

[Health Services]

The Health Services of the Division of Student Life under the college's Department for Enrollment Management & Student Services (EMSS) is committed to providing essential basic health care services to individuals within the college community to improve their health status and promote their quality of life using integrated care including promotion of health prevention of illness and restoration of health.

[Sports and Recreation]

To enrich the educational experiences of tertiary students through sports and recreation in the FSM.

[Residence Halls]

To provide a comfortable, safe, well-maintained and enjoyable living environment that fosters respect for self and others and supports the academic and social goals of resident students. It is our aim to accomplish this mission through outstanding customer service and professional facilities management.

Administrative Unit Outcomes

Assessment Strategies

Improvements

2012-2013 Health Services Outcome 1 - Students and staff demonstrate knowledge about current health issues and problems that affect their health.

AUO Status: Inactive

AUO Assessment Cycle: 2012 - 2013

Descriptive Statistics - Ensure the currency of information in information, education, and communication materials accessible to students, faculty, and staff.

Target: 90% of clients received Information, Education, and Communication (IEC) materials.

Reporting Period: 2012 - 2013

Target Met: No

Tabulated frequency count of visits by students, faculty, and staff to the Health Service clinic during SY 2012-13 showed a total of 4, 353 visits.

Improvement: Based on the findings, the Health Services need to provide IEC materials on various health issues and ensure availability and accessibility of these materials by implementing the following:

Of this number only 80 % were provided IEC materials.

However, the established criterion for success was "90 % of

clients received IEC.” Therefore, this criterion for success was not met.

(09/17/2013)

1. Produce more copies of existing pamphlets, leaflets, etc.

2. Order/re-order of IEC materials.

3. Distribute IEC materials in the residence halls and in public areas on campus and during Health Services facilitated activities.

4. Utilize better tools to account for number of IEC materials produced and issued. (09/17/2013)

Descriptive Statistics - Provide at least seven health awareness activities/workshops for students, staff and faculty during the school year.

Provide at least five presentations about reproductive health/family planning and other subject areas to individuals or groups.

Enroll at least 250 new family planning users.

Target: 1. At least 5% increase in the number of participants in activities facilitated by the Health Services.
2. Statistically significant difference between the scores in the pre-and post-tests administered to a cohort of participants.

Reporting Period: 2012 - 2013

Target Met: Yes

Office log on registrations of participants to workshops and trainings facilitated and hosted by the Health Services during 2012-2013 shows that:

(1) In 2011-2012, the office hosted three workshops or trainings participated by 2,041 students, faculty and staff.

(2) In 2012-2013, the office hosted the same number and type of workshops and training participated by 1,910 students, faculty and staff.

(3) A negative difference of 131 participants in headcount; therefore, a decrease by 6.42% in the number of participants as compared to the prior school year. The established criterion for success was “at least 5% increase in the number of participants in activities facilitated by the Health Services.” Comparing the number of participants to workshops hosted by the Health Services during 2011-2012 and 2012-2012, a decrease in the number of participants by 6.24%. Therefore, this criterion for success was not met.

On the other hand, to measure the effectiveness of the workshop facilitated by the Health Services in terms of increased knowledge of the students about health care, and

Improvement: Based on the results, the Health Services need to improve the planning and coordination processes of all facilitated activities. The following are plans to be implemented during the academic year 2013-2014:

1. Begin the planning process of events/activities at least one or two months before scheduling date.

2. Involve more students in the planning process.

3. Coordinate with faculty, and other offices in implementation of activities.

4. Utilize better tools to assess number of participants.

5. Design and develop modules for all workshops and trainings to

the like, pre-and post tests were administered to a non-probability sample of 52 participants to the Herpes Simplex Virus Type 1 presentation. Results showed that: (1) Of the 52 participants, 45 (or 87%) scored \geq the median and 7 (13%), scored $<$ the median on the pre-test. (2) Of the 52 participants, 49 (or 94%) scored \geq the median, and only 3 (or 6%) scored $<$ the median in the post test. (3) Therefore, a positive difference of only 7% participants scoring \geq median.

ensure consistency in both content and delivery of those workshops and trainings. (09/17/2013)

(08/07/2013)

2012-2013 Health Services Outcome
2 - Continue to improve level of satisfaction with essential basic health care and preventative services provided by the health service clinic.

AUO Status: Inactive

AUO Assessment Cycle: 2012 - 2013

Start Date: 10/01/2012

Inactive Date: 09/30/2013

Survey - 1. Provide and conduct annual health screenings to include but not limited to sexually transmitted infections, diabetes, hypertension and others.

2. Coordinate and conduct special health services to include but not limited to Well Women Clinic etc.

3. Provide appropriate and efficient referral services with proper documents and follow-up adherent to established protocol.

4. Provide stock supplies of first aid kits to residence halls and other offices to ensure accessibility of treatment of common injuries and emergencies.

5. Provide safe and professional health services through continued upgrading of nursing skills and knowledge to ensure nursing practice competency.

Reporting Period: 2012 - 2013

Target Met: Yes

To determine the effectiveness of the Health Services in terms of providing the essential basic and preventive health care services based on perceptions of students, faculty and staff, a non-random sample (n) of 237 students, faculty and staff was surveyed using the Client Satisfaction Survey designed and developed by the Health Services.

The results of the survey showed 86 % (exceeds) positive rating. The established criterion for success was "80% positive rating on clients' satisfaction survey." Criterion for success had been met.

In addition, the results also showed that the Health Services received overall positive ratings with the highest rating of 90.27% on Question 1, (i.e., the staff was courteous, friendly and helpful), and lowest positive rating of 82.04% on Question 4, (i.e., the staff was sensitive to my needs and showed genuine interest). Furthermore, 85.61% of the 237 subjects expressed satisfaction with the services provided by the Health Services and only 2.52% signifying dissatisfaction. 11.87% expressed neutrality.

Additionally, tabulated frequency counts of visits (4, 353) to the Health Service clinic during SY 2012-13, showed that

Improvement: Although the unit had successfully met the established targets (criteria for success) as outlined in the results and findings of the assessment, it will continually strive at ensuring that students, faculty and staff are provided and are satisfied with the services offered. (08/09/2013)

97% of the visits received the needed treatment/services. The established criterion for success was "90% of visits received the needed treatment/services". Therefore, this criterion of success had also been met. (08/09/2013)

6. Conduct quarterly inventory of medical supplies to ensure timely procurement of medicines and other supplies to replenish depleted stock.

Target: 1. 80% positive rating on client's satisfaction survey.

2. 90% of visits to the Health Service will receive needed treatment

2012-2013 Sports and Recreation

Outcome 1 - Students will demonstrate basic skills in playing basketball and basic knowledge in officiating.

AUO Status: Active

AUO Assessment Cycle: 2012 - 2013

Reporting Period: 2012 - 2013

Target Met: No

High performance skills training is an elite skills training for competent athletes and as a result of this training, only ten or 50% of the students enrolled were competing in the higher level of competition organized by the State. The established criterion for success was "at least 70% in the number of elite participants." Therefore, this criterion for success was not met.

Improvement: Based on the results, the Sports and Recreation need to improve the planning and modify the training programs to better cater both athletes and officials. The following are plans to be implemented during the academic year 2013-2014:

1. Increase on the number of goodwill and friendship games with the local communities around the island.
2. Increase student teams in the State sport leagues and tournaments.
3. Modify the individual skills trainings to improve on beginners and elite skills.
4. Provide access and opportunities for our students to Zone Development Officers (ZDO)

Descriptive Statistics - Conduct basic fundamental skills training in basketball to twenty students on Tuesdays and Thursdays of every week in the spring semester.

Establish an individual performance rubric for participants to document progress and improvement.

Provide opportunities to all participants to access sports trainings or workshops available on campus.

Conduct five refereeing, umpiring and table officiating clinics to twenty individuals in summer.

Target: At least 70% of the students participated in the fundamental skills training gained competency and demonstrate the skills learned in a real competition match.

At least 70% of the participants build

Officiating clinic was conducted by the recreation staff in July 2013 and participants learned the common rules and were given practical hand mechanics and demonstrations as a result out of the twenty students enrolled, ten or 50% of the participants were motivated and build confident to assist in the officiating of the games. The established criterion for success was "at least 70% of the participants would build confident." Therefore, this criterion for success was not met. (09/02/2013)

confidence and assist the staff to officiate the games.

as they visit the FSM States to conduct skills training, officiating clinics and coaching courses.

- Design and develop modules for all workshops and trainings to ensure consistency in both content and delivery of those workshops and trainings. (09/02/2013)

2012-2013 Sports and Recreation Outcome 2 - Increase the level of awareness in sports and satisfaction to the college community and the local community through sports and activities.

AUO Status: Active

AUO Assessment Cycle: 2012 - 2013

Start Date: 10/01/2012

Inactive Date: 09/30/2013

Descriptive Statistics - Provide daily monitoring and mentoring to all customers utilizing our facilities and services.

Modify the programs and activities to best satisfy our students, staff and facilities and other patrons utilizing the facility.

Provide custodial services daily to foster a safe and healthy environment to all facility users.

Increase sports and activities that involve the college community and the local community to foster goodwill and friendship.

Establish code of ethics for all students participating in our sports programs and activities to foster unity.

Target: At least 80% of the participants will satisfy with the programs and services and will demonstrate unity and friendship on and off the competition grounds.

Reporting Period: 2012 - 2013

Target Met: No

Daily monitoring and mentoring facility users improved the services and contributed to the satisfaction to all patrons utilizing the facility and services.

An interview survey was conducted by the staff in the month of July 2013 to eight of the active students from the residence halls and twelve off campus students that spend lots of time utilizing the services by doing recreational sports and activities at the gym.

As a result, the off campus students responded to the three satisfaction questions "OK" whereas the residence hall students responded "only when the gym is not available for their use due to conferences".

An internal office review of the sports and activities programs was contacted by the office staff and modifications were done to cater all participants. As a result

60% of our participants understand the importance of team work and demonstrate good sportsmanship on and off the play ground. The remaining 40% were new student enrollment and were new to our program rules and regulations that pertains the code of ethics in sports. (09/02/2013)

Improvement: Based on the results, the Sports and Recreation need to do the following plans and implementations to best satisfy the students and that they demonstrate good sportsmanship in the sports competitions and beyond throughout the academic year 2013 and 2014.

- Implement additional outdoor recreational sports.
- Improve on the existing outdoor playing grounds.
- Organize more goodwill games and outreach activities that involve both the students and the local communities.
- Maximize the use of the sports facilities by turning the practice hall into a students center.
- Establish entertainment options to the inactive students to increase students participation in

the sports and activities.

(09/02/2013)

Follow-Up: Big screen movies will be available by October of 2013.
(09/02/2013)

2012-2013 Residence Hall Outcome 1
- Residents will be satisfied with the services provided at the Residence Halls.

AUO Status: Inactive

AUO Assessment Cycle: 2012 - 2013

Start Date: 09/04/2013

Survey - 1. Provide and organize at least two annual activities; residents' retreat in May and Fall kick-off in September for all residents.

2. Coordinate with Counseling office to provide tutorial services to residents.

3. Provide daily custodial services, monthly general cleanup and biweekly room inspections to ensure safety and sanitary condition of the residence halls are maintained.

4. Provide supplementary educational and learning tools to foster residents' academic access and success.

Target: 1. At least 80% positive rating on the satisfaction survey.

Related Documents:

[Copy of RH Satisfaction Survey 2013-1.xls](#)

Reporting Period: 2012 - 2013

Target Met: No

To determine the level of perceived satisfaction of resident students about the facilities and services provided by the Residence Halls, a satisfaction survey was administered to 72 residents of the men and women residence halls during Summer 2013 session. Of the 72 residents surveyed: (a) 18 (or 25%) are from Chuuk, (b) 21 (or 29 %) are from Kosrae, (c) 32 (or 44%) are from Yap, and (d) 1 (or 1%) from Japan.

Specifically, the tabulated responses of the survey are summarized, as follows:

Tabulated responses to questions with <80% positive rating
(1) Q9 (On RH visitation policy), received 76% positive rating with 18% and 6% negative and neutral ratings, respectively.

(2) Q13 (Student activities in the residence halls), received 71% positive rating as against 28% and 1% of the 72 subjects expressing dissatisfaction and neutrality, respectively.

(3) Q17 (Pest control), received 79% positive rating as against 17% signifying dissatisfaction, and 4%, neutrality.

(4) Q19 (Promptness of responses to maintenance requests), received 61% positive rating as against 38% and 1% negative and neutral ratings, respectively.

Tabulated responses to questions with >80% positive ratings:

(1) Q6 (Adherence to the rules and policies), 86% .

Improvement: Based on the results, the Residence Hall will continually strive at improving its services offered to residents and will specifically address the weaknesses as identified in Q9, Q13, Q17, and:

1. Develop and implement assessment tools for the purpose of assessing and improving the quality of services provided to residents.

2. Provide trainings to staff on Residence Hall's related policies and procedures as such that staff will be able to understand and explain clearly the rules and policies to residents, as well as how staff can improve services in an effective and efficient manner.

3. Develop a calendar of activities (educational, social and recreational) to engage the residents; as such that the outcomes will support their academic and social growth while residing in the residence hall.

4. Collaborate and coordinate with the college's division of

maintenance and facilities to specifically address Q13 (pest control). Also, Residence Hall will develop in-house routine and standard operating procedures geared toward areas such as, cleanliness and orderliness, reporting protocol, reporting protocol, and others.

Furthermore, the Residence Hall will work in collaboration with other respective divisions to especially address issues and/or activities that can't be solely addressed by the residence hall in particular, or the department, in general.

- (2) Q7 (Environment conducive to academic work), 89%.
- (3) Q8 (The level of noise), 82%.
- (4) Q10 (Relationship with my roommate), 94%.
- (5) Q11 (The cost), 86%.
- (6) Q12 (Quality of my social life in my residence hall), 94%.
- (7) Q14 (Overall experience residing in my current residence hall), 90%.
- (8) Q15 (Satisfaction with the facilities; the physical condition of the building currently residing in), 83%.
- (9) Q16 (the physical condition of my room), 86%.
- (10) Q18 (The lighting in my room), 93%. (09/24/2013)
- (11) Q20 (Satisfaction with safety and security issues on campus and in the residence hall), 86%.
- (12) Q21 (The degree which I feel safe in my residence hall), 97%.
- (13) Q22 (The degree which I feel secure to keep my belongings in my residence hall), 81%.
- (14) Q23 (The current safety and security policy in my residence hall), 86%.
- (15) Q24 (The performance of the campus security, 90%).
- (16) Q25 (The promptness of response by campus security staff), 88%. (09/04/2013)

2012-2013 Residence Hall Outcome 2 Descriptive Statistics -

- Residents will demonstrate knowledge about the rules and regulations of the Residence Halls.

AUO Status: Inactive

AUO Assessment Cycle: 2012 - 2013

Start Date: 10/01/2012

Inactive Date: 09/30/2013

Reporting Period: 2012 - 2013

Target Met: No

There was no assessment made to measure the level of knowledge about rules and policies of the residence halls. (09/08/2013)

Improvement: There was no assessment made during this reporting cycle, as such, the Residence Hall staff will develop and implement the improvement plans in the academic year 2013-2014.

1. Provide orientation and awareness sessions on rules and regulations/policy procedures for the new incoming residents.
2. Continuous monitoring and enforcing of rules and regulations in the residence halls.
3. Facilitate at least two review sessions on Residence Hall's rules and regulations during the school year 2012-2013.

4. Coordinate with Security and Safety to facilitate fire drills at least twice a semester to ensure that residents are proficient in adhering to fire and safety rules and procedures.

5. Develop and implement assessment tools to assess the residents' knowledge and compliance of rules regulations and policies.

Target: At least 90% increase in knowledge about the rules and policies of the Residence Halls.

1. Develop and implement an assessment tool to assess residents' knowledge and compliance of rules and policies of Residence Hall.

2. Residence Hall staff need to take time to explain clearly and thoroughly the rules and policies to ensure that residents' have a better understanding.

3. Residence Hall staff will facilitate at least two review sessions on rules and policies with a "pre-and posttests" during Fall semester 2013 and Spring 2014.

4. The Residence Hall will review and evaluate how effective the rules and policies are being implemented.

(09/22/2013)

2012-2013 Office of Student Life

Outcome 1 - Students will exhibit awareness of student support programs and activities.

AUO Status: Active

AUO Assessment Cycle: 2012 - 2013

Reporting Period: 2012 - 2013

Target Met: Yes

The Institutional Research and Planning office (IRPO) conducted and Orientation survey to a non-randomly selected sample of 222 students at the national Campus during Fall 2012 semester. Result of the survey specific to

Improvement: The following are plans to be implemented during academic year 2013-2014:

1. Increase the number of student clubs and organizations.

the Office of the Director of Student Life showed that 79% of the respondents expressed that they understood and are aware of the student support programs available to assist students academically and socially with 7% and 14% indicating disagreement and neutrality, respectively.

2. Continue and promote awareness of support service programs and activities facilitated by Student Life.
3. Design and develop modules for all workshops and trainings to ensure consistency in both content and delivery of those workshops and trainings.

4. Office of the Director of Student Life will be hosting and facilitating activities and events to support students, academically and socially. As such, Office of the Director of Student Life will work in collaboration with other respective divisions to either facilitate or coordinate such extra-curricular activities.
(09/16/2013)

2013-2014 Residence Halls Outcome

1 - Resident students shall signify increased level of satisfaction about the services provided by including activities facilitated by the Residence Halls

AUO Status: Active

AUO Assessment Cycle: 2013 - 2014

Survey - (A) Develop and implement assessment tools principally to assess and improve the quality of services provided by and activities facilitated by the Residence Halls.

(B) Provide trainings to staff on Residence Halls' specific and related guidelines and policies; as such, staff employees are able to understand and explain clearly these guidelines and policies to resident students as well as effectively implementing them consistent with the stipulations in the guidelines and policies.

Reporting Period: 2013 - 2014

Target Met: Yes

While resident students signified some levels of satisfactions especially with the introduced improvements (e.g., just-in-time physical maintenance, cleanliness and orderliness, social activities, others) in the college's residence halls, the residence halls recognized an overwhelming need of improvement and will strive at improving its services to satisfy the safety and well-being needs of the residents. (07/31/2014)

Improvement: The following are plans to implement during academic school year 2013-2014:

1. Coordinate and organize a variety of social, cultural, recreational and educational activities and experiences and involved residents to provide leadership to residential activities.
2. Create an incentive program that involves residents earning points/given prizes etc. for attending events and getting

<p>(C) Develop a calendar of activities (e.g., educational, social, and recreational) to engage resident students; as such that the outcomes support their academic and social growth while residing in the College's residence halls.</p>	<p>involved in the residence halls.</p> <p>3. Plan and organize daily-weekly residence halls inspections by staff and monthly inspection with maintenance staff to ensure maintenance needs are being addressed in a timely manner.</p>
<p>(D) Collaborate with the College's division of Physical Facilities, Maintenance and Campus Security especially to ensure timely responses to identified needs of the residence halls, such as but by any means not limited to facility repairs and maintenance works, security and safety, and others.</p>	<p>4. Residence halls staff to be more committed and taken an active role in understanding, explaining, enforcing and support all rules and regulations of the residence halls and ensuring the cleanliness/sanitary condition and maintenance needs of the halls is maintained etc.</p>
<p>(E) Develop in-house routine and standard operation procedures geared towards areas, such as cleanliness and orderliness, reporting protocol, and others.</p>	<p>5. Provide at least two in-service training per semester for RH staff to upgrade knowledge and skills; hence improve job performance.</p>
<p>(F) Collaborate with other AUs especially in addressing issues and/or activities that can not be solely addressed by the Residence Halls, in particular, or the department, in general.</p>	<p>6. Maintain consistency and fairness when dealing with all students in the residence halls and work with them to develop a sense of respect for self, others, and property.</p>
<p>(G) Provide trainings to staff employees as part of the initiative geared to capacity building; such as, effective customer service, housekeeping, first aid, emergency response, and others. Target: 85% positive ratings in each of the survey administered to all</p>	<p>7. Consistent communication with campus security to ensure the safety and security of all the residents. (07/31/2014)</p>

resident students during fall and spring semesters, and summer sessions.

2013-2014 Residence Halls Outcome 2 - Resident students shall demonstrate knowledge about the rules and regulations of the residence halls.

AUO Status: Inactive

AUO Assessment Cycle: 2013 - 2014

Exam/Quiz - Pre-Post - Provide orientation sessions to resident students primarily geared to awareness and understanding of the rules and regulations of the College's residence halls, the services and activities available to resident students, and others.

Target: (1) Three orientation sessions to resident students, i.e., fall and spring semesters, and summer session; and (2) a statistically significant (positive) difference between the pre- and posttest administered to all resident students

Reporting Period: 2013 - 2014

Target Met: No

There was survey or similar form of assessment conducted to no data collected to assess the level of the knowledge and about rules and policies of the residence halls. Although, statistics both maintained by the Residence Halls and that of the college's campus and security office would show a decrease in the frequency counts of cited violations especially in terms of the college's alcohol policy and other policies related to student conduct and discipline by resident students as compared to previous years. (07/31/2014)

Improvement: The following need to be implemented starting Fall 2014.

1. Develop and implement an assessment tool to assess knowledge and compliance of rules/policies and procedures.
2. The RH staff needs to take the time to explain clearly and thoroughly the policies and procedures to individual and/or groups to ensure residents to have a better understanding.
3. Facilitate at least two review sessions on rules and policies of the residence halls during the academic school year.
4. Revisit the rules/regulations and policies of the residence halls to evaluate the effectiveness and to involve inputs from the residents (07/31/2014)

2013-2014 Director of Student Life Outcome 1 - Students will demonstrate increased awareness of support programs and activities.

AUO Status: Inactive

AUO Assessment Cycle: 2013 - 2014

[Calendar of Student Activities](#)

Reporting Period: 2013 - 2014

Target Met: Yes

A. The academic school year 2012-2013 showed that thirteen (13) student clubs and organizations were officially registered. The number of registered student clubs and organizations was increased to twenty-one in 2013-2014 academic school year. An increased of eight (8) or 38% clubs from prior academic school year. In addition, four student clubs were newly registered.

B. Spring 2014, the Office of the Director of Student Life coordinated the development of a calendar of student activity for student life, which chronologically outlined the various activities and events by student services units and other offices. This calendar can be viewed and accessible at this URL:
<http://www.comfsm.fm/?q=vpss>.

The student life director collaborated with the Webmaster of the college's Information Technology division whom enabled the accessibility through the Office of the Vice President for Student Service's webpage. In addition, the Webmaster further allowed the Office of the Director for Student Life to have access to routinely updated changes and posted new activities and events.

During the reporting period of 2013-2014, the Office of the Director of Student Life organized and implemented eight (8) scheduled activities in the calendar of student activity. (07/29/2014)

Improvement: Develop and implement an assessment instrument to measure students' perception on services provided by student life (09/16/2014)

Follow-Up: A followup by October 2014 (09/16/2014)

Improvement: Provide students with up to date information about the student life programs and services on a monthly basis by using at least 2 methods of advertisement (09/16/2014)

Follow-Up: A followup should take place end of fall semester (09/16/2014)

Improvement: Facilitate monthly meetings for student delegation leaders and student council to address needs and concerns of student clubs and organizations (09/16/2014)

Follow-Up: For continuous improvement a followup will take place end of November 2014 (09/16/2014)

Improvement: Improve the timeliness in updating the online student activity calendar. (Upload information on the calendar prior to commencing of each semester) (09/30/2014)

Follow-Up: To ensure that all information on the online calendar of student activity is current and updated, a followup will take place end of each month.

(09/16/2014)

2013-2014 Health Services Outcome

1 - Students and staff will demonstrate increased awareness and knowledge of positive self-care by seeking medical services and treatment

AUO Status: Active

AUO Assessment Cycle: 2013 - 2014

Descriptive Statistics - (A) Provide acute and basic health care service with diagnosis, treatments, consultation and referrals.

(B) Provide daily and annual screening of chronic diseases including diabetes, hypertension, obesity, and others.

(C) Extend special clinic that provides care and treatment for women-specific problems.

(D) Upgrade nursing skills and maintain license current.

(E) Conduct inventory, prepare purchase orders, upack and redistribute materials and supplies to State Campus dispensaries.

Target: (1) At least 5% increase in the frequency of visits to the Health Services' clinic, and (2) At least 5% increase in the frequency of visits for preventive/prophylaxis treatments.

Reporting Period: 2013 - 2014

Target Met: Yes

1. Tabulated frequency count of visits by students, faculty, and staff to the Health Service showed that:

A. In 2012-13, the dispensary received a total of 4, 353 visits and

B. In 2013-14, the dispensary received a total of 5, 735 visits.

C. An increase of 1, 382 or 24.1% increase in the number of frequency count of visits from the prior school year.

D. The established criterion for success was "at least 5% increase in the frequency of visits to the Health Service clinic"; therefore, this criterion has been met.

Furthermore, the tabulated frequency count of visits by students, faculty, and staff to the Health Service also showed that:

A. In 2012-13, the dispensary received a total of 915 visits specifically for health maintenance/prophylaxis treatment and

B. In 2013-14, the dispensary also received a total of 1, 585 visits for the same kind of treatment.

C. An increase of 670 (or 42.3%) from prior school year.

D. The established criterion for success was "at least 5% increase in the frequency of visits to the Health Service clinic for preventive/prophylaxis treatments; therefore, this criterion has been met.

(07/29/2014)

Improvement: Based on results of Outcome 1 of the Assessment Cycle 2013-14, the Health Service plans to implement the following improvement plans:

1. Articulate one or two specific and measurable Student Learning Outcome/Outcomes for the next assessment cycle.

2. Exceed or maintain the rate of frequency counts of visits for acute and preventive/maintenance health care treatment and services.

3. Develop a better system of collecting/organizing and analyzing of data (with the assistance of other colleagues).

4. Conduct quarterly inventory of medical supplies to ensure timely procurement of medicines and other supplies and to avoid stock outs.

2013-2014 Health Services Outcome
2 - Students will demonstrate increased knowledge about current health issues and problems that affect their health.

AUO Status: Active

AUO Assessment Cycle: 2013 - 2014

Descriptive Statistics - (A) Provide health awareness workshops/activities for the College community.

(B) Provide information on health issues specifically involving college students, e.g., sexually transmitted diseases, diet, family planning and others.

(C) Provide health references to ensure a variety of updated health references are available and accessible.

Target: (1) At least 5% increase in the number of students and staff requesting IEC materials.

Reporting Period: 2013 - 2014

Target Met: Yes

1. Tabulated frequency count of visits by students, faculty, and staff to the Health Service clinic showed that:

A. In 2012-13, of the total number of frequency count of visits recorded, 2, 482 of them were provided health-related Information, Education & Counseling.

B. In 2013-14, the office log recorded a total of 4,718 visits which were also provided the health-related Information, Education & Counseling.

C. An increase of 1,236 or 26% increase in the frequency count of visits for Information, Education & Counseling from prior school year.

D. The established criterion for success was "at least 5% increase in the number of students and staff requesting Information, Education & Counseling"; therefore, this criterion has been met.

Additionally, to determine the effectiveness of the Health Fair activities hosted by the Health Service in terms of increased knowledge of the students and staff from the various health-related activities provided based on their perceptions, a survey consisted of six questions was administered to a sample of 182 non-randomly selected cohort of participants.

Basically, the results of the survey showed that 171 (or 94.47%) of the 182 subjects perceived the Health Fair as informative with only 5.52% perceived as not informative. The results also showed that 177 (or 97.26 %) of the subjects agreed that participating in the health fair has

Improvement: Based on the outcome 2 of the Assessment Cycle 2013-14, the Health Service plans to implement the following improvement plans:

1. Articulate one or two specific and measurable Student Learning Outcome/Outcomes for the next assessment cycle.

2. Exceed or maintain the rate of frequency counts of visits for Information, Education and Counseling.

3. Exceed or maintain positive rating on the results of survey administered to a cohort of participants to the health service facilitated workshops/presentations.

4. Design and develop modules/syllabus for all workshops and trainings to ensure consistency in both content and delivery of workshops and trainings.

(07/30/2014)

increased their understanding about the effects of diet and exercise in the prevention and control of diabetes and hypertension with only 2.75% (or 5 subjects) signifying disagreement.

While 180 (or 98.9%) of the 182 respondents agreed that participating in the Health Fair had motivated them to practice healthy life style, only 2 (or 1.1%) of the subjects expressed disagreement.

The result also showed that 176 (or 96.71%) of the subjects agreed that participating in the health fair had motivated them to have health screening on regular basis with only 6 (or 3.30%) subjects signifying disagreement.

The results further showed that 91 (or 50.84 %) of the 182 respondents expressed health screening to be most beneficial while 38 (or 21.23%) inclined toward the healthy food preparation and only 26 (or 14.53%) and 24 (13.41%) respondents expressed the exercise demonstration and educational information to be most beneficial respectively.

The overall result of the survey was positive with 177 (or 97.26 %) of the subjects expressed satisfaction about the health fair activities with only 5 (or 2.75%) of the subjects signifying dissatisfaction.

To further determine/measure the level of knowledge of students and staff regarding other health related issues, specifically the HIV/AIDS, a survey was administered to a sample of 101 non-randomly selected subjects from a cohort of participants to the 2013 World Aids Day. Specifically, the survey consisted of 5 questions and it was designed to measure the level of knowledge about the transmissions, prevention and common misconceptions about the HIV/AIDS.

Generally, the results of the survey showed that the subjects had some basic knowledge about the transmission of the HIV/AIDS and ways to prevent its spread as indicated in their responses to the first two questions. All of the 101

subjects (or 100 %) responded “Yes” to Question 1 “Can the risk of HIV and other Sexually Transmitted Infections transmission be reduced by having sex with only one uninfected partner who has no other sex partner?” and Question 2 “Can a person reduce the risk of getting HIV and other Sexually Transmitted Infections by using a condom every time they have sex?”.

Moreover, the subjects also seemed to have some basic knowledge about the myths or the common misconceptions about the HIV/AIDS as indicated by their responses to Questions 3, 4 and 5. All of the 101 subjects responded “Yes” to Question 3 “Can a healthy-looking person have HIV and other Sexually Transmitted Infections?” and “No” to Question 4 “Can a person get HIV and other Sexually Transmitted Infections from Mosquito bites?” However, 97 (or 96.04%) of the subjects responded “No” to Question 5, “Can a person get HIV and Sexually Transmitted Infections by sharing food with someone who is infected?” with 4 subjects (or 3.96%) responded “Yes” to Question 5. 2013-2014 Sports and Recreation

Outcome 1 - Students will exhibit knowledge and will demonstrate the skills in playing and officiating in the 2013 intramural ball games and 2014 founding day ball games.

AUO Status: Active

AUO Assessment Cycle: 2013 - 2014

Project-Group - Conduct basic fundamental skills training in basketball to twenty students on Tuesdays and Thursdays of every week in the spring semester.

Establish an individual performance rubric for participants to document progress and improvement.

Provide opportunities to all

Reporting Period: 2013 - 2014

Target Met: No

The students participated in the officiating clinics were given practical demonstrations and out of the twenty students enrolled, ten or 50% of the participants were motivated and build confident to assist in the officiating of the games. The established criterion for success was “at least 70% of the participants would build confident.” Therefore, this criterion for success was not met. (02/23/2014)

participants to access sports trainings or workshops available on campus.

Conduct five referring and table officiating clinics to twenty individuals in summer.

Target: At least 90% of the students participated in the fundamental skills training gained competency and will demonstrate the skills learned in a real competition match.

At least 80% of the participants build confidence and assist the staff to officiate the games.

Notes: First improvement action plan was delivered and conducted in the intramural games and we are still 20% short from our projection goal. Management is continuing the process in for the founding day games.

Reporting Period: 2013 - 2014

Target Met: No

The students participated in the officiating clinics were given practical demonstrations and out of the twenty students enrolled, ten or 50% of the participants were motivated and build confident to assist in the officiating of the games. The established criterion for success was “at least 70% of the participants would build confident.”

Therefore, this criterion for success was not met. (03/04/2014)

Reporting Period: 2013 - 2014

Target Met: Yes

A referee clinic was conducted in March of 2013 and 20 students signed up to pursue in officiating and out of the twenty students enrolled, ten of them continued to practice refereeing in the intramural games and other organized basketball games outside of the college. While the target of at least 90% of the participant of the training will demonstrate their acquired skills by officiating in a basketball game, one of the participant was chosen to assist as a referee in the 8th Micronesian Games specifically the men Gold Medal Game. This is a video clip of my competent student Mr. Salomon Goldman being the lead referee and assisting in a free throw.

[8th Micro Games](#)

Improvement: Based on the results, the Sports and Recreation need to improve the planning and modify the training programs to better cater both athletes and officials. The following are plans to be implemented during the academic year 2013-2014:

1. Increase on the number of goodwill and friendship games with the local communities around the island.
2. Increase student teams in the State sport leagues and tournaments.
3. Modify the individual skills trainings to improve on beginners and elite skills.
4. Provide access and opportunities for the students to Zone Development Officers (ZDO) as they visit the FSM States to conduct skills training, officiating clinics and coaching courses.

5. Design and develop modules for all workshops and trainings to ensure consistency in both content and delivery of those workshops and trainings.
6. Recruitment of volunteers to assist in the basketball tournament for the upcoming Micro Games will enhance competency of the participants through attending the clinic that Amateurs International Basketball Federation will conduct in preparation for the 8th Micro Games
(07/29/2014)

2013-2014 Sports and Recreation Outcome 2 - College community and stake holders will demonstrate awareness on the sports competitions and recreational activities organized by the Sports Division.
AUO Status: Active
AUO Assessment Cycle: 2013 - 2014
Start Date: 11/07/2013

Provide daily monitoring and mentoring to all customers utilizing the facilities and services.
Modify the programs and activities to best satisfy the students, staff and faculties and other patrons utilizing the facility.
Provide custodial services daily to foster a safe and healthy environment to all facility users.
Increase sports and activities that involve the college community and the local community to foster goodwill and friendship.
Establish code of ethics for all students participating in our sports programs and activities to foster unity.

Reporting Period: 2013 - 2014
Target Met: No

2013 intramural was ended in November and a survey was conducted none randomly inclusive of male and female participants of the 2013 intramural participants. Out of the 326 students that took part in the games 50 students were given the questioners to assess the intramural tournament that was organized by the sports office. 5 representatives from each team were given the questions to provide their views and as a result, 30 responded with satisfaction where 20 were not satisfied with how it was organized.

Additional outdoor sports facilities outreaches to the neighboring communities and as a result awareness, friendship and unity was established among the students and the local community people.
Additional full court regulation outdoor basketball court is contributing to more participants in the sport of basketball and as a result, another women team from the state of Kosrae was formed in the 2014 Founding Day basketball games.

Improvement: Based on the results, the Sports and Recreation need to do the following plans and implementations to best satisfy the students and that they demonstrate good sportsmanship in the sports competitions and beyond throughout the academic year 2013 and 2014.

1. Implement additional outdoor recreational sports.
2. Improve on the existing outdoor playing grounds.
3. Organize more goodwill games and outreach activities that involve both the students and the local communities.

4. Maximize the use of the sports facilities by turning the practice hall into a student's center.
5. Establish entertainment options to the inactive students to increase student's participation in the sports and activities. (12/06/2014)

Target: At least 80% of the participants will satisfy with the programs and services and will demonstrate unity and friendship on and off the competition grounds. (02/23/2014)

2014-2015 Residence hall outcome 1

- Strengthen the Living-Learning components in residence hall.

AUO Status: Active

AUO Assessment Cycle: 2014 - 2015

Start Date: 09/17/2014

Reporting Period: 2014 - 2015

Target Met: Yes

The purpose of the survey was to assess the responses of 50 random students living in residence hall as to their feelings regarding resident assistants (RA's), hall management and services to support academic success, facilities and quality of life in their residence halls. The survey was conducted in Summer 2014.

- (a) Strengthen the level of co-curricular activities /education to the residential hall students.
- (b) Improve staff structure, policies, and processes to enhance learning in residential hall.
- (c) Develop living and learning programs that foster student success and enhance retention.
- (d) Summarize residence hall policies and procedures to educate residents, hold students accountable and create a safe environment where students can be academically and socially successful.

Demographic Items

Representation of the total sample (50 participants from both of the residence halls) ranged from (a) 11 (or 22%) are from Kosrea, (b) 22 (or 44 %) are from Chuuk, (c) 17 (or 34%) are from Yap. There were 18 Female that made up 36% and 32 Male or 64% of the sample. Twenty two percent (11) of the participants were from Kosrea, Forty Four percent (22) came from Chuuk and Thirty four percent (17) from Yap.

Residence Assistance Related Items –

Overall and across all of the complexes, ratings regarding the availability, competency, level of caring and concern, and job performance of RA's were consistently strong and positive. Residents reported the highest frequency of being served.

Residence hall in charge Related Items

Responses to the residence hall in charge items were also consistent across all groups, although slightly lower (less strong and positive) than similar RA items. The 3 items included comfort in approach, communication, and helpfulness.

Improvement:

Even though residence hall ratings increased in terms of safety and security inside and outside the residence halls, activities/workshops, and halls being quiet enough to study, enforcement of the alcohol policy and services. Next year we plan to increase our overall rate to 10%. (10/20/2015)

Residence Hall Related Items

Residents gave strong and positive frequency of reports indicating that they would live in the residence hall if they had to do it all over again (66%). Others reported lower responses related to living in a residence hall if they had it all over again (24% respectively). Residents also gave the less rating related to returning to the residence halls for the following year.

Target: (1) at least 80% of Resident students will indicate high levels of interaction and participation in a variety of activities.(2) At least 85% of Resident students will report that their experience in the halls made them more active participants in the campus community.

Quality of Life Related Items

Feelings of safety and security both inside and outside of the residence halls were rated as quite good across all groups from all residence halls. Ratings concerning the residence halls being quiet enough to study and sleep were only slightly lower than the other quality of life items, but still favorable. Overall, satisfaction scores towards life in the residence halls were quite good and consistent across all groups.

Alcohol and Drug Related Items

Alcohol policy enforcement was reported to be good and consistent across all residence hall groups Residents indicated that they felt very strongly that the College policy on alcohol and Tobacco use enforcement in the residence halls is “too strict” (62%), while “not strict enough,” (8%). Overall, residents indicated that the College policy on alcohol and tobacco use in the residence halls is “just right” (30%).

There were more tobacco users but few non-smokers than smokers (70% versus 30%, respectively). In contrast, almost two-thirds of participants reported that they were not in favor of smoking being allowed in residence halls though betel nut users reported that chewing in the residence hall should be allowed. Overall, only 36% of participants indicated that they thought the residence halls should become “smoke-free and tobacco use free.”

Programming Related Items

Overall, participants reported that they felt a “good” (above average) sense of community between students in

the residence halls. Forty-nine percent of the participants reported that they attended some of the programs (activities and workshops) held in the residence halls. In addition, the percentage of residents who did not belong to any student organizations or clubs on campus (5%). As the percentage of residents who reported belonging an organization or club (95%).

The highest percentage of reports of positive attitudes towards diversity in their residence hall(75%) and the rest (25%) of the residents indicated having a “negative” attitude towards diversity in their respective residence halls.

Maintenance Related Items

The custodial staff in the residence halls was rated consistently and favorably across all groups. The maintenance request and repair response items were rated slightly lower on the items assessing helpfulness, courtesy, and quality of the work performed.

(10/12/2015)

2014-2015 Residence Hall outcome 2

- Residence hall will use assessment, evaluation, and implementation for continuous improvement of residence hall staff, programs/activities, facilities, and services.

AUO Status: Active

AUO Assessment Cycle: 2014 - 2015

Start Date: 09/17/2014

Reporting Period: 2014 - 2015

Target Met: Yes

Feedback from the resident students signified levels of satisfactions especially with the cleanliness and orderliness, social activities, others in the college's residence halls it's clearly recognized that there are overwhelming need of improvement and will aim to improve the services to satisfy the safety and well-being needs of the residents as a crucial step.Residence hall strive to facilitate more leisure and social activities to constitutes the first element of creating awareness living learning residence hall. (10/08/2015)

Improvement: Residence hall will continue to improve the cleanliness and orderliness in the residence hall as Increase social activities for the residents. The department will need to improve more on the services including the safety and well-being needs of the residents as a crucial step.Residence hall will strive to facilitate more leisure and social activities to constitutes the first element of creating awareness living learning residence hall. (10/20/2015)

Target: At least 90% of Resident students will report satisfaction with staff availability and responsiveness

(2) At least 90% of Resident Advisers will be well-trained and confident in their ability to address resident questions and concerns. (3) At least 85% of resident student will indicate satisfaction with programming/activities and the social environment in the halls.

2014-2015 Office of Student Life outcome1 - Students will develop an intellectual curiosity and desire for continual learning both within and beyond formal education.

AUO Status: Active

AUO Assessment Cycle: 2014 - 2015

Start Date: 09/17/2014

Survey - 1. Provide students with up to date information about the student life programs and services.

2. Promote awareness of the availability of co-curricular activities through campus wide advertisement and other methods of advertisement.

3. Develop a yearly student activity calendar in collaboration with other units to compliment students' formal learning experience.

Target: At least 70% or above will rate "strongly agreed" or "agreed" that their participation in co-curricular activities (out-of-class experiences) increase their ability to work in a team.

At least one member of student council will be placed in the appropriate standard committees to providing the student view to the college during planning and standard committee meetings and assemblies.

Conduct at least 2 focus group sessions per semester.

Reporting Period: 2014 - 2015

Target Met: No

The office of student life primarily focuses on student success, student learning outside of the classroom setting and engaging information with the students to enhance awareness and to ensure students are completing their college experiences in a timely manner. (08/31/2016)

Related Documents:

[Calendar of Student Activities](#)

Improvement: A big contributor to the low participation was that the SBA Office itself was not active and disseminating information through the SBA was not very supporting as such strengthening the SBA Office and establishing criteria and time lines could have been another approach especially when organizing an event with them that would involve all the student organizations and clubs. (09/30/2016)

Follow-Up: Continue to utilize the students organizations and clubs for better participation results (09/30/2016)

Reporting Period: 2014 - 2015

Target Met: No

Information was disseminating to the student population but very minimal engagement or participation was from the students so awareness of the programs and services of the Student Life Office was not effectively utilized by the students to help them in their college experiences here at the national campus. (09/30/2016)

2014-2015 Office of Student Life outcome2 - Students will demonstrate an increased awareness in student activity programming
AUO Status: Active
AUO Assessment Cycle: 2014 - 2015

Survey - Promote awareness of the availability of co-curricular activities and publicize the events in the student activity calendar.
 Develop an assessment tool to rate the level of awareness of the student support activity programming.

Target: Students will receive updates on student life activities at least 2 times a month.
 At least 70% or above students will rate "strongly agreed" or "agreed" to exhibit level of awareness about student activity programming.

Reporting Period: 2014 - 2015
Target Met: No
 A survey was not conducted to due there was no other co-curricular activity besides the intramural and the founding day games was created or established so only the students that were directly involved with sports were participating and the all other inactive students were only doing their routines daily. (09/30/2016)

Improvement: Provide co-curricular activities that will cater to every student on campus to help them in their stay here at the national campus and also to prepare them as they will enter the challenges beyond their experiences here at the national campus/ (09/30/2016)

Follow-Up: Continue to provide opportunities as often and as needed to assist students as they sail towards success (09/30/2016)

2014-2015 Health services PC outcome 1 - Students who receive care at Pohnpei campus health services will be able to describe self-care learning prior to the conclusion of each visit.
AUO Status: Active
AUO Assessment Cycle: 2014 - 2015

Survey - (a)
Target: At least 80% of Pohnpei campus students given instruction on self care will successfully describe specific self care skills to seek out, achieve and maintain health.

Reporting Period: 2014 - 2015
Target Met: No
 Accurate evaluation of skill and ability of self-management is crucial not only in baseline data collection but also in proving the effectiveness of intervention. The outcomes of this action provide health providers with a better understanding and a series of good choices in self-management outcome evaluation. Unfortunately, there were no surveys done to evaluate the capability of every student to manage their health issues/problems. (10/01/2015)

Improvement: provide surveys to all clients to evaluate their capability in managing their health issues/ problems. (10/01/2015)

AUO Assessment Cycle: 2014 - 2015

health assessment of common health conditions encountered in the clinic office

(B) Provide population based screening programs
Target: Conduct annual physical examination to at least 87% of student population at PC including staff and faculty

Screen at least 75% of students for physical or mental health, which are important and contribute to the overall student success.

Target Met: NO
 PC health clinic continue to provide public base- screening programs to all students of PC. unfortunately, due to misconception of some individual regarding the scheduled programs resulting to low participation therefore, the target was not met. (10/01/2015)

Improvement: (a) Develop and implement health programs syllabi to ensure content and delivery.
 (b) Plan and organise ahead of time and ensure that audiences have a clearer information on the purpose of the scheduled activity to avoid misunderstanding.
 (10/01/2015)

2014-2015 Health Services Outcome 1 - Students and staff will continue to demonstrate increased awareness and knowledge of positive self-care by seeking medical treatments and services.

AUO Assessment Cycle: 2014 - 2015

Descriptive Statistics - (A) Provide and administer the seasonal influenza vaccinations annually.

Target: (1) At least 5% increase in the number of students, faculty and staff taking the seasonal influenza vaccinations from prior academic year.

Reporting Period: 2014 - 2015

Target Met: NO
 9/22/2015 Office logs recorded that:

- A. In 2013-14, a total of 167 students, faculty and staff received the flu vaccinations.
- B. In 2014-15, only 143 students, faculty and staff received the flu vaccinations.
- C. A negative difference of 24 in headcount; therefore, a decrease by 14 % in the number of students, faculty and staff who received the flu vaccinations compared to prior academic year.
- D. The established criterion for success was “at least 5% increase” in the number of students, faculty and staff who received the seasonal influenza vaccinations from prior academic year; therefore, this criterion has not been met. (09/30/2015)

Improvement: 10/02/2015 - Based on results of Assessment Cycle 2014-15, the Health Service needs to improve the delivery of services provided. The Health Service plans to implement the following during the academic year 2015-16:

A. Exceed the present number of students, faculty and staff taking the seasonal influenza vaccination.

B. Coordinate with Pohnpei State immunization program to obtain influenza vaccinations to be given at the national campus clinic.
 (10/02/2015)

Descriptive Statistics - (A) Provide out-patient, primary care with diagnosis, treatment, and

Reporting Period: 2014 - 2015

Target Met: Yes
 9/22/2015 Tabulated frequency count of visits made by

Improvement: 10/02/2015 - Based on results of Assessment Cycle 2014-15, the Health Service

consultation on most general health care needs.
 (B) Ensure access to acute and health care prevention treatments that include but not limited to providing deworming medicines, multi-vitamin supplements, and others.
 (C) Conduct quarterly inventory of medical supplies to ensure timely procurement of medicines and other supplies.
 (D) Continually upgrade nursing skills and maintain license current

Target: (1) At least 5% increase in number of frequency counts of visits to the health service for basic acute and preventive health care treatment and services from prior year. (2) Statistically significant difference between the scores in the pre-and post-tests administered to a cohort of students participating in the sexually transmitted infections and HIV/AIDS screening activities.

students, faculty, and staff to the Health Service clinic showed that:
 A. In 2013-14, the dispensary received a total of 5, 735 visits.
 B. In 2014-15, the dispensary received a total of 3, 667 visits.
 C. A negative difference of 2, 068 visits; therefore, a decrease by 36 % in the number of visits as compared to prior academic year.
 D. The established criterion for success was “at least 5% increase” in the frequency of visits to the Health Service clinic from prior year; therefore, this criterion has not been met.

However, to determine the level of increased knowledge of students in terms of health issues, specifically the sexually transmitted infections, pre and post tests were administered to a cohort of 62 freshmen students participating in the sexually transmitted infections and HIV/AIDS screening activities. Results showed that:
 A. Of the 62 freshmen students taking the pre-tests, 40 (or 64.52%) scored >=the median and 22 (or 35.48%), scored <the median in the pre-tests.
 B. Of the 62 freshmen students taking the post-tests, 52 (or 83.87%) scored >=the median, and only 12 (19.35%) scored < the median in the post tests.
 C. Therefore, a positive difference of 19% freshmen students scoring >=median.

(10/01/2015)

2014-2015 Health Services Outcome 2 - Students and staff will continue to demonstrate increased awareness and knowledge about current health issues and problems that affect their health.
AUO Assessment Cycle: 2014 - 2015

Reporting Period: 2014 - 2015
Target Met: No

9/22/15 Office logs on registration of participants to workshops and training facilitated and hosted by the Health Services during the 2013-14 showed that:

A. In 2013-14, the office hosted four workshops or training participated by 1,852 students, faculty and staff.

needs to improve the delivery of services provided. The Health Service plans to implement the following during the academic year 2015-16:

- A. Exceed the present rate of frequency counts of visits for primary and preventive health care services & treatment.
- B. Avoid interruption of services by ensuring someone covers for the dispensary when the nurse is not available.
- C. Develop and utilize better assessment tools to evaluate the effectiveness of health services for improvement.

(10/02/2015)

Improvement: 10/01/2015 Based on results of Outcome 2 of Assessment Cycle 2014-15, the Health Service needs to improve the delivery of Health Service sponsored workshops/programs and trainings. The dispensary

the number of students participating in the Health Service facilitated workshops/programs and trainings.

plans to implement the following during academic year 2015-16

B. In 2014-15, the office hosted the same number and type of workshops and training participated by 1,356 students, faculty and staff.

A. Plan and organize activities at least one month prior to schedule date of activities to review progress and to ensure wide awareness of activities.

C. A negative difference of 496 participants in headcount; therefore, a decrease by 6% in the number of participants as compared to prior academic year.

D. The established criterion for success was "at least 5% increase" in the number of participants in activities facilitated by the Health Services. Comparing the number of participants to workshops hosted by the Health Services during 2013-2014 and 2014-2015, a decrease in the number of participants by 6%. Therefore, this criterion for success was not met.
(10/01/2015)

B. Design and develop Modules/syllabi for all Health Service sponsored workshops and trainings to ensure consistency in both content and delivery of workshops and trainings.

C. Develop and utilize better assessment tools to evaluate the effectiveness of Health Service sponsored workshops/programs and trainings.
(10/02/2015)

Descriptive Statistics - (A) Provide and facilitate at least 4 health awareness and prevention workshops/programs and trainings during the academic year.

Reporting Period: 2014 - 2015

Target Met: Yes

To determine the effectiveness of the health activities/workshops facilitated by the Health Services in terms of increased knowledge of the students, faculty and staff about health issues and problems, pre tests and post tests were administered to a non-probability sample of 157 participants to the Tuberculosis (TB) workshops/activities. Results showed that:

Improvement: 10/01/2015 Based on results of Outcome 2 of Assessment Cycle 2014-15, the Health Service needs to improve the delivery of Health Service sponsored workshops/programs and trainings. The dispensary plans to implement the following during academic year 2015-16

(B) Provide and facilitate at least 2 individual health presentations to the Residence Hall residents during the academic year.

A. Of the 157 participants, 120 (or 76 %) scored \geq the median and 40 (or 25 %) scored $<$ the median in the pre-tests.

A. Plan and organize activities at least one month prior to schedule date of activities to review progress and to ensure wide awareness of activities.

(C) Provide up to date information, education and communication (IEC) and health references for students, faculty, and staff.

B. Of the 157 participants, 154 (or 98 %) scored \geq the median, and only 6 (or 4 %) scored $<$ the median in the post test.

Target: (1) Statistically significant difference between the scores in the

pre-tests and post-tests administered to a cohort of participants to health service facilitated workshops/programs and trainings.

(2) At least 85% positive rating on the results of survey administer to a cohort of participants to the health service facilitated workshops/programs and trainings.

D. Therefore, a positive difference of 22% participants scoring >=median.

In addition a survey consisted of five questions was administered to a non-random sample (n) of 278 students participating in the World Diabetes Day activities.

Modules/syllabi for all Health Service sponsored workshops and trainings to ensure consistency in both content and delivery of workshops and trainings.

Results showed overall positive ratings with 97% of the students agreed that participating in the World Diabetes Day, not only increased their understanding about the effects of diet and exercise in the prevention and control of diabetes and hypertension, but had also motivated them to practice healthy life style, and only 3% of the students expressed disagreement. Furthermore, the results also showed that 96 % of the students agreed that participating in World Diabetes Day activities had motivated them to have health screening on regular basis with only 4% signified disagreement. While 94% of the students perceived the World Diabetes Day activities as informative, only 6% perceived as not informative. (10/02/2015)

C. Develop and utilize better assessment tools to evaluate the effectiveness of Health Service sponsored workshops/programs and trainings. (10/02/2015)

2014-2015 Sports and Recreation

Outcome 1 - Students will acquire depth of knowledge and will demonstrate a foundational understanding of the sports programs and has the commitment and skills to transfer knowledge, beliefs and values into their studies in academic year 2015 and beyond.

AUO Status: Active

AUO Assessment Cycle: 2014 - 2015

Start Date: 10/01/2014

Survey - 1.1.1 Conduct basic fundamental skills training in basketball for two hours three times a week in Spring and Summer 2016.

1.2 Conduct a training in December 2015 on documenting individual skills performance in a rubric format for participants to document progress and improvement

1.3 Provide opportunities to all interested students to access sports training or workshops available on and off campus.

1.4 Conduct refereeing and table officiating clinics at the beginning of each semester

Reporting Period: 2014 - 2015

Target Met: No

The Division of Sports and Recreation continue to provide outside the classroom educational and motivational activities for entertaining students to compliment learning. Thus the office laid out its action plan to conduct a number of fundamental skills training and officiating clinics and with respect to a training opportunity for the staffs to attend, the schedule of skills training and clinics were put on hold causing the objective not met. (10/08/2015)

Improvement: Based on the results, the Sports and Recreation is implementing these activities to improve the planning to achieve its objective,

1. Modify the training programs and dates to better cater to both student athletes and officials.
2. Increase student teams in the State sport leagues and tournaments.
3. Modify the individual skills training to address both students that are beginners and elite.
4. Provide access and opportunities for the students to Zone Development Officers (ZDO)

**Administrative Unit
Outcomes**

Assessment Strategies

Results

Improvements

Target: 1.1 90% of the students participated in the fundamental skills training will gain competence and will demonstrate the skills learned in the 2016 ball games.
1.2 70% of the students' participate in the training will be able to document their own progress and improvement by the end of fall 2016.
1.3 Collaborate with all student clubs and organizations to have representatives participate in training or workshops facilitated by the division of sports or other off island national development officers annually.
1.4 90% of the participants will demonstrate the skills by actually assisting the staff in officiating the games and operating the score board and score sheets.

Previously Directly Related - Results that were Directly Related to PSLO

Reporting Period: 2014 - 2015

Target Met: Yes

Student engagement in the programs and training were only limited to the active participants in the sports and recreation organized sports so out of the intend group only two students go beyond and was able to assist in the officiating of the 8th Micronesian Games. So as a result although there were only two students shined target would consider met. (08/31/2016)

as they visit the FSM States to conduct skills training, officiating clinics and coaching courses.
5. Design and develop modules for all workshops and training to ensure consistency and efficient in both content of the delivery and practical.
6. Recruit student volunteers and provide shadow training to assist in individual performance and mechanics of officiating.
(10/08/2015)

2014-2015 Sports and Recreation Outcome 2 - Outreach to four local communities to promote and to maximize the use of the sports facilities while catering to a strong sense of unity and integrity between

Survey - 2.1 Provide daily monitoring and mentoring to all students accessing the sports and recreation programs and services.
2.2 Provide custodial services daily to foster a safe and healthy

Reporting Period: 2014 - 2015

Target Met: No

The Division of Sports and Recreation continue to provide pathways and opportunities to outreach to the local communities to promote the sports programs and activities while engaging the students to foster friendship and unity.

Improvement: Based on the results, the Sports and Recreation need to improve the planning and modify the outreach programs to meet the objective so the following are plans to be

the students and the communities to foster friendship.
 2.3 Increase sports and activities that involve the college community and the local community to foster goodwill and friendship.
AUO Status: Active
AUO Assessment Cycle: 2014 - 2015
Start Date: 12/22/2014

Target: 1.1 80% of all students associated with the sports programs and services daily will show appreciation by following the procedures in utilizing the facility.
 1.2 Implement a maintenance and inventory program for the three custodial staffs monthly to upkeep and maintain cleanness of the sports facilities.
 1.3 Outreach to all local municipalities to take part in the college sponsored sports and activities by fall 2016.

Reporting Period: 2015 - 2016
Target Met: No

1.1 Students that regularly utilizes our services are have been following the procedures while the on and off students are yet to fully comply with the procedures in using the sports facilities.

1.2 A maintenance program for the facility is still pending awaiting for the assigned staff to fix the inventory and maintenance program for daily and monthly cleaning of the facility and as a result some items are damaged and not reported.

1.3 So far only two communities that are invited to participate in the college's sponsor sports and activities. The invitation should be communicated through the community leaders to ensure participation. (07/23/2016)

Results

As referenced to the accreditation report that the college should continue to promote public relations to outside stakeholders. The office implemented an outreach plan to invite four local communities to take part in the sports programs and very unfortunate that a training opportunity for the office staffs came about causing the plan not meeting its objective. (08/31/2015)

- 1. Increase on the number of goodwill and friendship games around the island.
- 2. Increase student teams in the State sport leagues and tournaments.
- 3. Set up meeting appointments with the local communities
- 4. Organize and host community basketball tournaments
- 5. Create a club inclusive of students and community people to do community services around the island. (08/31/2015)

Reporting Period: 2015 - 2016

Target Met: No

1.1 Students that regularly utilizes our services are have been following the procedures while the on and off students are yet to fully comply with the procedures in using the sports facilities.

1.2 A maintenance program for the facility is still pending awaiting for the assigned staff to fix the inventory and maintenance program for daily and monthly cleaning of the facility and as a result some items are damaged and not reported.

1.3 So far only two communities that are invited to participate in the college's sponsor sports and activities. The invitation should be communicated through the community leaders to ensure participation. (07/23/2016)

2015-2016 Health Services Outcome

1 - To support fostering student success, the Health Service will provide a variety of effective primary and preventive health care services to

Descriptive Statistics - 1. Continue to provide primary and out-patient care with diagnosis, treatment, and consultation on most general health care needs.

Reporting Period: 2015 - 2016

Target Met: Yes

Tabulated frequency count of visits made by students, faculty, and staff to the Health Service clinic showed that:

Improvement: Based on the results of Outcome 1, assessment 2015-2016, the Health Service needs to continue to provide health services as well as improve

Administrative Unit Outcomes

the college community; as such, students will continue to demonstrate increased awareness and knowledge of positive self-care by seeking and utilizing services provided by the college's health services clinic.

AUO Assessment Cycle: 2015 - 2016

Assessment Strategies

2. Ensure continuous access to family planning and reproductive health services including screening and testing for pregnancy as well as administration of contraceptive methods.
3. Conduct inventory of medical supplies at least quarterly to ensure timely procurement of medicines and other supplies and to avoid stock outs.

Target: 1. 1 Exceed the rate of frequency count of visits for primary and preventive health care services and treatment by at least 5% from prior year.

Results

- A. In 2014-15, the Health Service clinic received a total of 3,667 visits; and
- B. In 2015-16, it received a total of 4,142 visits.
- C. An increase of 475 visits; therefore, an increase by 11 % in the number of visits as compared to prior school year.
- D. The established criterion for success was "at least 5%" increase in the frequency counts of visits to the Health Service clinic"; therefore, this criterion has been met. (09/02/2016)

Improvements

the delivery of these services and plans the following:

1. Continue to provide basic and effective primary and out-patient health care services with diagnosis, treatment, and consultation on general and basic health care needs and to ensure these services are provided on a daily basis.
2. Exceed the rate of frequency counts of visits to the Health Service by at least 10% from prior year.
3. Provide stock supplies of first aid kits to residence halls and other offices to ensure accessibility of treatment of common minor injuries and emergencies
4. Extend special clinic that provides care and treatment for women-specific problems.
5. Ensure continuous access to family planning and reproductive health services including screening and testing for pregnancy as well as administration of contraceptive methods.
6. Ensure inventory of medical supplies are conducted at least quarterly to prevent stock outs. (09/02/2016)

Descriptive Statistics - 4. Ensure

continuous access to primary and preventive health care treatments that include but not limited to providing the seasonal influenza vaccinations, deworming medicines, multi-vitamin supplements and others.

Target: 4.1 Exceed the present number of students, faculty and staff taking the seasonal influenza vaccination by at least 5% from prior year.

Reporting Period: 2015 - 2016

Target Met: Yes

The tabulated frequency count of visits by students, faculty, and staff to the Health Service also showed that:

A. In 2014-2015, the dispensary received a total of 143 students, faculty and staff for the seasonal influenza vaccination; but

B. In 2015-2016, the dispensary received a total of 295 students, faculty and staff for the seasonal influenza vaccination.

C. An increase of 152 in headcounts; therefore, an increase by 52% in the number of students, faculty and staff who received the flu vaccinations in comparison to prior school year.

D. The established criterion for success was "exceed the number of students, faculty and staff taking the seasonal influenza vaccinations by at least 5%" from prior school year; therefore, this criterion has been met (09/02/2016)

Descriptive Statistics - 5. In

collaboration with external service programs including the sexually transmitted infections/HIV/AIDS, the non-communicable/communicable diseases etc., organize and host at least six health screening activities during the academic year.

Target: 5.1 Exceed the current number of students, faculty and staff participating in the health screenings by at least 5% from prior year.

5.2 Statistically significant difference between the scores in the pre-tests and post-tests administered to a cohort of participants.

Improvement: 1. The Health

Service will continue to coordinate with the Pohnpei State immunization program to ensure accessibility of the seasonal influenza vaccines to the college community.

2. Exceed the rate of students, faculty and staff taking the seasonal influenza vaccines by at least 35% from prior year. (10/03/2016)

Improvement: The Health Service plans to implement the following during school year 2016-2017:

1. Continue to organize and coordinate health screening activities for the college community.

2. Increase the rate of students, faculty and staff participating in the health screening activities to exceed the present rate by least 30%.

3. Encourage the participation of

D. The established criterion for success was "exceed the number of students, faculty and staff participating in the health screening activities by at least 5%" from prior school year. Comparing the number of participants to workshops hosted by the Health Services during 2014-2015 and 2015-2016, an increase in the number of participants by 24%. Therefore, this criterion for success has been met.

However, to measure the level of increased knowledge of students in terms of health issues, specifically the sexually transmitted infections, pre and post testes were administered to a cohort of 65 freshmen students participating in the sexually transmitted infections and HIV/AIDS screening activities. The results showed that:

- A. Of the 65 freshmen students taking the pre-tests, 48 (or 73.85%) scored \geq the median and 17 (or 26.15%), scored $<$ the median in the pre-tests; and
- B. Of the 65 freshmen students taking the post-tests, showed same results as that of the pre-tests; that is 48 (or 73.85%) scored \geq the median, and 17 (26.15%) scored $<$ the median.
- C. Therefore, the results showed no significant difference between the scores in the pretests and posttests administered to the sample of 65 freshmen students. (10/05/2016)

2015-2016 Health Services Outcome 2 - To support fostering student success, the Health Service will provide health education awareness and well-being programs/activities to the college community; as such, students will continue to demonstrate increased knowledge and awareness about health issues and problems that affect their health.

Descriptive Statistics - 1. In collaboration with the college's health science program including external health services providers and government agencies, continue to organize and facilitate at least four health awareness and prevention workshops/activities during the academic year.

Reporting Period: 2015 - 2016
Target Met: Yes

The office log on registration of participants to the health activities/workshops facilitated and hosted by the Health Service clinic showed that:
A. In 2014-15 the office hosted five health activities/workshops participated by 1,356 students, faculty and staff.
B. In 2015-16, the office also hosted the same number and

students, specifically the students residing the residence halls to participate in the health screening activities, especially the STIs/HIV/AIDS.

- 4. Provide and facilitate at least two presentations on STIs/HIV/AIDS and other related subject areas to individuals or groups. (10/05/2016)

Improvement: Based on the results of Outcome 2, the Health Service needs to continue to provide as well as improve the implementations of health workshop/activities held on campus. The following are planned to be implemented:

Administrative Unit Outcomes

Assessment Strategies

AUO Assessment Cycle: 2015 - 2016

2. Organize and facilitate at least two individual health presentations for the Residence Halls students during the academic year.

Target: 1.1 At least 5% increase in the number of students, faculty and staff participating in the Health Service facilitated workshops/presentations from prior year.

1.2 Statistically significant difference between the scores in the pre-tests and post-tests administered to a cohort of participants to health service facilitated presentations/workshops

Results

type of health activities/workshops, a total of 1,750 students, faculty and staff participated in these activities.

C. An increase of 394 participants in head counts; therefore, an increase by 23% in the number of participants as compared to prior year.

D. The established criterion for success was "at least 5% increase" in the number of participants in health activities facilitated by the Health Service. Comparing the number of participants to health activities/workshops hosted by the Health Service during 2014-15 and 2015-16, an increase in the number of participants by 23%; therefore, this criterion for success has been met.

Additionally, to measure the effectiveness of the workshops facilitated by the Health Services in terms of increased knowledge of participants about health care problems, specifically diabetes, pre tests and post tests were administered to a non-probability sample of 94 participants to the World Diabetes Day activities. The results showed that:

A. Of the 94 participants taking the pretests, 62 (or 66%) scored >= the median and 30 (or 33% or 32.61), scored <the median in the pre-test.

B. Of the 94 participants taking the post-tests, 76 (or 81% or 80.85% scored >=the median and 18(or 19% or 19.15% scored <the median in the post test.

C. Therefore, a positive difference of 15% participants scoring >=median. (09/02/2016)

Reporting Period: 2015 - 2016

Target Met: Yes

Tabulated frequency count of visits to the Health Service clinic showed that:

A. a total of 3,070 visits to the Health Service clinic were

Improvements

1. Encourage involvement of more students or student clubs in the planning and implementation of activities.

2. Increase the rate of students' participation in the Health Service facilitate health workshops/activities by providing incentives.

3. Continue to plan and coordinate health workshops/activities in collaboration with the college's health science program including external health services providers and government agencies.

4. Coordinate and facilitate at least three individual health presentations/training/workshops to students and staff.

5. Continue to plan and organize activities at least one month prior to schedule date of events/activities to review progress and to ensure wide awareness of events. (09/02/2016)

Improvement: The Health Service plans to implement the following:

1. Continue to update and provide current health information resources including developing

Assessment Strategies

Results

Improvements

students visiting the dispensary during the academic year will use the health information/resources available.

3. 2. At least two or three on and/or off-island workshops and conferences will be attended by the nurse

made by students.

B. Of this number, 2,703 (or 88%) were recorded to use health information/resources available in the clinic.

C. The established criterion for success was "at least 80%" of the students visiting the Health Service clinic will use the health information/resources available therefore; the criterion for success has been met.

Also, to upgrade nursing knowledge and skills and earn CE credits for license renewal, the nurse participated in one of the nursing conferences held during the school year. (09/02/2016)

and publishing the unit's IEC materials.

2. The nurse will continually participate in at least two or three on and off-island nursing/health-related workshops/conference to upgrade nursing skills and knowledge and to maintain license current to ensure safe and professional health practice and competency. (10/03/2016)

2015-2016 Student Life - Residence

hall Outcome 1 - Residence hall students shall signify increased level of satisfaction about the services provided including activities facilitated by the college's residence halls and student organizations.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Survey - (a) Develop and implement a comprehensive residence life program that promote enhanced residential life experience for resident, foster appreciation of diversity, and compliment student learning (or experience in the classrooms.

Reporting Period: 2015 - 2016

Target Met: No

In an effort to be more intentional and strategic, not every event or initiative will be assessed; rather the focus will be on those with the strongest connection to the residence hall objectives. (10/16/2016)

Improvement: In addition to specific co-curricular and extra curricular programs, it is important to review larger programs and use the resulting information to improve the overall quality of programs, as well as to ensure that they are in alignment with the College's educational objectives. (08/30/2016)

Target: At least 90% of respondents will indicate a high level of satisfaction with their personal experiences as a resident on campus, services provided and co-curricular opportunities and with student services.

Descriptive Statistics - Develop a

Reporting Period: 2015 - 2016

Improvement: Residence halls

calendar of co-and extra-curricular activities, and engage resident students participations (or active involvement) into these activities. Outcomes of these activities should support social and personal development of resident students as well as compliment instruction.
Target: At least 85% of residents who participate in co-curricular scheduled activities in the residence halls will show higher academic results, stronger relationships in schools and are more likely to lead a healthy and active lifestyle.

Survey - Develop and implement a hall handbook for students outlining residence hall rules and regulations, pertinent college policies and procedures, standards, contact information, facility-use, and others.
Target: At least 85% of the residents will be able to enhance awareness regarding the college policy, residence hall procedures and other necessary information.

Target Met: Yes
 The residence halls continue to provide an array of co- and extra-curricular activities for resident students. These activities include, but by any means not limited to, community outreaches, socialization functions, and socio-educational activities as facilitated by and in collaboration with other units of the student support services. Activities are basically posted in the online calendar of student activities available on the Student Life webpage. (09/06/2016)

Reporting Period: 2015 - 2016
Target Met: Yes
 To guarantee that such policies are consistent with College and other appropriate offices, Rh policy was re-reviewed and revised in Fall 2015 to provide direction to residence hall students and staff as they implement the policy. (08/30/2016)

Improvement: Continue to communicate, monitor, and enforce the student code of conduct and residential life policies and procedures. (08/30/2016)

shall continue to collaborate with other student support services units to facilitating co- and extra-curricular activities that support the college's effort toward promoting student success. (09/06/2016)

Descriptive Statistics - Develop in-house routine and standard operations and procedures geared towards areas, such as cleanliness and orderliness, reporting and response protocols, and others.
Target: At least 85% of the residents will be able to demonstrate a basic knowledge of the residence hall procedures and protocols through residence hall review process twice every semester and at least 90% of

Reporting Period: 2015 - 2016
Target Met: Yes
 For Fall 2015, residence hall wanted to gage how satisfied residents were with the following areas: cleanliness, orderliness, residence hall procedures and services To measure satisfaction, RH utilized the Student Satisfaction Survey to receive feedback on how residents experienced these areas, the data interpretation focused on resident experiences with regard to comfort, utilization of resources, satisfaction with services, peer and professional support, academic support, perceived benefits to on-campus living, and quality of facilities. (08/30/2016)

Improvement: Residence hall will continue to maintain the cleanliness, orderliness and improve more on the services including safety and security of every residents. (08/31/2016)

Improvements

residents will participate in the monthly general clean up.

Descriptive Statistics - Collaborate and coordinate with the college's maintenance, facilities, and campus security office to ensure timely response to identified needs of the residence halls (facility maintenance, security and safety)

Target: work collaboratively with Department of Maintenance and campus security to provide a routine building inspection and fire drill at least once per semester.

Reporting Period: 2015 - 2016

Target Met: Yes

Survey shows that out of 84 residents 92% have agreed that overall experience in the residence hall has been positive. (08/30/2016)

Improvement: Continue to upgrade the residence hall based on the resident needs. Recent/future projects include: replacements of furniture's and mattress, fans including additional bed frames. (08/30/2016)

2015-2016 Student Life- Residence hall. Outcome 2 - Resident students shall demonstrate knowledge of, and compliance with the college's policies on appropriate student conduct as well as rules and regulations of the residence halls.
AUO Status: Active
AUO Assessment Cycle: 2015 - 2016

Survey - Facilitate at least one review session on residence hall's rules per term for all residents including college's policies relating to appropriate student conduct, and the rules and regulations of the residence halls, i.e., August 2015, January 2016, June 2016, and August 2016

Target: At least 85% of the resident student understand the consequences of risky behaviour, demonstrate awareness and understanding, make decision that promote safe and healthy that reduces risk and contribute to a healthy and sustainable campus and community.

Reporting Period: 2015 - 2016

Target Met: Yes

Residence hall staff conducted an orientation to all new and current students in the residence hall in fall 2015 semester. Result of the orientation specific to the residence hall policies and procedure expressed that they have a better understanding and knowledge of the RH policies and procedures. Unfortunately, there was no survey done/made to measure the level of knowledge in regards to the policies and procedures in the RH. (08/30/2016)

Improvement: Continue to enforce the policy in the residence hall as well as the College policies and procedures. (08/30/2016)

Descriptive Statistics - identify and recognize outstanding residents by the end of every semester.

Target: Assess the residents knowledge and compliance of rules

Reporting Period: 2015 - 2016

Target Met: No

Unfortunately, outstanding residents in the past semesters were not identified and recognised. (08/30/2016)

Improvement: Develop an assessment tool to evaluate residents on how knowledgeable they are in terms of policies and procedures of the college and

and procedure in the residence hall at least twice per semester.

Descriptive Statistics - Refine and implement strategies for identifying and intervening with high risk-behavior in collaboration with campus security and safety, Counseling and the College nurse through a comprehensive education programs addressing alcohol use and other high risk behaviours.

Target: At least 90% of resident will increase their knowledge concerning the college policies and residence hall procedure through review sessions on Residence Hall's rules per semester.

Reporting Period: 2015 - 2016

Target Met: Yes

Residence hall staff conducted an orientation to all new and current students in the residence hall in fall 2015 semester. Result of the orientation specific to the residence hall policies and procedure expressed that they have a better understanding and knowledge of the RH policies and procedures. Unfortunately, there was no survey done/made to measure the level of knowledge in regards to the policies and procedures in the RH. (08/30/2016)

Improvement: Continue to collaborate with concerned staff/offices to implement strategies in intervening students with high risk behaviours. (08/30/2016)

compliant of rules and regulations in the residence hall. (09/30/2016)

2015-2016 Student Life - Residence hall Outcome 3 - Residents will demonstrate responsible leadership by organizing a successful event that their group's membership deems important and relevant to the residential community.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Survey - (a) Systematically review existing Residence Hall calendar of activities. Modify or eliminate as necessary.

Target: At least 90% of resident student will indicate satisfaction with academic, social and co-curricular programs and activities in the halls.

Reporting Period: 2015 - 2016

Target Met: Yes

Continue to assess student learning of specific activity conducted on a schedule based on when they occur, and in relation to the residence hall objectives. For example, all new students participating in the scheduled student activity will be required to complete surveys that not only measure their satisfaction with the said activity, but also assess what they learned in terms of content knowledge and skill acquisition. (08/30/2016)

Improvement: Develop

assessment tools to evaluate the effectiveness of activities/programs in the residence halls. (08/30/2016)

Survey - Develop and apply appropriate activities for residence hall in line with goals and objectives, including methods to assess the quality of recreation/co-curricular experience and resource conditions as well as methods to monitor long-term impacts of those co-curricular activities to evaluate if goals and

Reporting Period: 2015 - 2016

Target Met: No

89.3% of respondents reported that living in on-campus housing has moderately enhanced their ability to improve intra personal relationships. (08/30/2016)

Improvement: Continue to

collaborate with Student Body Association, Resident hall Association, and other Student organization on issues related to planning and organising activities ahead of time to ensure wide awareness of activities. (09/30/2016)

objectives are met.

Target: At least 90% of resident students will develop a sense of belonging, loyalty and institutional affinity, intra personal relationships and display responsibility to /for students, possess dedication evidenced thru active participation in college activities and serve as a role model.

2015-2016 Sports and Recreation

Outcome 1 - Students will exhibit the values of sportsmanship, teamwork and camaraderie and demonstrate the basic knowledge in coaching, officiating and organizing a mini-tournament.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Start Date: 07/10/2020

Descriptive Statistics - Recruit interested students in officiating and sport administration by providing training opportunities conducted by the unit staff or other development officers outside of the college before Founding Day Games 2016 kicks off.

Target: At least four interested students will be recruited representing each of the active student's organizations or clubs.

Notes: The intended target was not met due to the recruitment advertisement was not communicated well to all the organization and clubs. There is still room to better improve the advertisement and to reach out to all student organizations and clubs. By fall 2016 we should have a good pool of participants in the officiating clinics.

Reporting Period: 2015 - 2016

Target Met: No

The intended objective was not met due to the advertisement communication did not reach the intended groups timely before the school is out and as a result there were only four students showed for the training. (07/23/2016)

Improvement: As soon as the SBA and other student organization and clubs, the unit staff will meet with the SBA to arrange and to recruit participants to assist with officiating in the fall 2016 intramural games. (07/23/2016)

Follow-Up: A monthly follow up will be implemented to ensure that the target is met (07/23/2016)

Improvement: There is still room to better improve the advertisement and to reach out to all student organizations and clubs. Working through the SBA Office would be a better approach and outreaching to them rather waiting for them to come. By fall 2016 we should have a good pool of participants in the officiating clinics. (09/30/2016)

Reporting Period: 2015 - 2016

Target Met: No

The intended target was not met due to the recruitment advertisement was not communicated well to all the organization and clubs. There is still room to better improve the advertisement and to reach out to all student

Improvement: As soon as the SBA and student organizations are organized, the sports unit will call a meeting with the SBA and student organizations and by that we should have all represents

organizations and clubs. (07/23/2016)
from the intended groups.
(07/23/2016)

Reporting Period: 2015 - 2016

Target Met: No

The intended target was not met due to the recruitment advertisement was not communicated well to all the student organizations and clubs as such the current students that have been assisting the staff with the games are still coming to assist with the games. (09/30/2016)

Descriptive Statistics - Implement a training module in fall 2016 that will complement specific knowledge in coaching, officiating or sport administration.

Target: 90% of the students recruited to represent the student organizations and clubs will demonstrate positive awareness in coaching, officiating and sports administration.

Descriptive Statistics - Facilitate two training sessions in the academic year 2016 and 2017 on Sports and Education Program specifically on community coaching and officials (CC&O) and sports in the community (SIC).

Target: 80% of the participants will exhibit knowledge and will demonstrate the acquired knowledge and skills in their respective local communities.

2015-2016 Sports and Recreation

Outcome 2 - Organize and conduct co-curricular activities to enhance increase of participation from the college community and outside stake holders,

Reporting Period: 2015 - 2016

Target Met: No

As we completed the registration process for the teams participating in the Fall 2016 Intramural Ball Games and as compared to fall 2015 Intramural Registration, the results showed that we only increased by one team so target not

Improvement: Expand the invitation to the national government departments and open registration to student organizations and clubs to register more than two teams if possible

Administrative Unit Outcomes

Improvements

Target: At least four additional teams will be included to the original set of teams that have been participating in the intramural games by Fall 2016.

met. (07/23/2016)

especially bigger groups in Fall of 2017. (10/03/2016)

AUO Status: Active
AUO Assessment Cycle: 2015 - 2016

Descriptive Statistics - Outreach to all local municipalities on island to take part in the college sponsored sports and activities in academic year 2016 and 2017

Reporting Period: 2015 - 2016
Target Met: No
 As the division of sports and recreation outreach to the four local municipalities U, Kitti, Sokehs and Madelenihmw to participate in the Under 19 Summer Hoops Basketball tournament, only U and Sokehs reacted and send boys and girls teams whereas Kitti and Madelenihmw never replied so there were no teams from those two local municipalities. (10/05/2016)

Improvement: Revisit the division's annual sports plan and implement sports competitions that is open to all the local municipalities rather focusing on only the four. (10/05/2016)

Descriptive Statistics - Organize off campus tour to eight local communities to do friendship games in the academic year 2016 and 2017.

Reporting Period: 2015 - 2016
Target Met: No
 The plans for the summer of 2016 to do community visit and to have goodwill games in the villages was never implemented due to the Under19 Summer Hoop Basketball Tournament, instead of visiting the communities we invited them here to participate in the tournament. (10/05/2016)

Improvement: The Division will continue to coordinate with the eight targeted local communities to have a road trip basketball tournament in 2017 and we will invite them here to have our championship games. We will also extend the invitation to other non-fsm citizen communities residing on the island to take part in this road trip basketball experience. (10/05/2016)

Descriptive Statistics - Conduct at least two tryouts in spring 2016 to identify students to represent the college in the state or invitational basketball tournaments.

Reporting Period: 2015 - 2016
Target Met: No
 The college intramural games are ongoing and recruiting players are already in process and through this process we should have a skeleton of what the national would be like and that training should commence. (09/30/2016)

Improvement: On going recruitment and training will commence after the games to prepare the com-fsm national for any basketball competition on the island. (09/30/2016)

Target: By fall 2016 the college should have at least two males and a female national team to represent

Follow-Up: After the intramural games (09/30/2016)

the college in the state and other invitational basketball tournament

2015-2016 Sports and Recreation

Outcome 3 - Ensure services are provided on a daily basis and recreational facilities are adequate and environmentally safe for the college community and all other stakeholders utilizing the services at the FSM-China Friendship Sports Center, National Campus.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Descriptive Statistics - Implement a maintenance and inventory program for weekly monitoring to ensure recreational gears and resources are adequate and safe to continuous use.

Target: 75% of the existing competition and recreational gears will be replaced by academic year 2016-2017

Reporting Period: 2015 - 2016

Target Met: No

The office is currently compiling a maintenance and inventory program for the facility and the sports and recreational equipment and until the completion of this task we should be able to identify the areas of the facility needed to be improved and what sports and recreational equipment needed to be replaced. (07/23/2016)

Improvement: Based on the maintenance and inventory program establish a form to qualify and quantify the current sports and recreation gears and maintenance work that is needed to be carried out in the new budget. (10/05/2016)

Survey - Conduct a satisfaction survey at the end of spring 2016 on the services pertaining physical resources and adequate of the facility.

Target: 80% of the students utilizing the services at the sports and recreation office will participate in the satisfaction survey.

Reporting Period: 2015 - 2016

Target Met: No

A survey was not conducted to assess our services due to other activities and personal reasons that interrupted the scheduling to conduct the survey. (09/30/2016)

Improvement: Plan ahead and assign staff to focus on the the survey and work with IRPO office to assist with the survey by the end of Fall 2016. (09/30/2016)

Follow-Up: Ensure a survey is conducted by the end of Fall 2016, (09/30/2016)

Descriptive Statistics - Provide daily monitoring and mentoring to all students accessing the sports and recreation programs and services.

Target: 80% of all students associated with the sports programs and services daily will show appreciation by following the procedures in utilizing the facility.

Reporting Period: 2015 - 2016

Target Met: Yes

Students that are utilizing our services daily are following the procedures by providing their ID cards, logging in and using their ID Cards to sign out the preferred sports and recreation equipment (09/30/2016)

Improvement: The office will continue to encourage the students to utilize our services and to follow the procedures. (10/05/2016)

Descriptive Statistics - Encourage office staff monthly meetings to identify strengths and weaknesses in the delivery of the office operation.

Reporting Period: 2015 - 2016
Target Met: No
With respect to the scheduling of the facility and the services expected for the unit to provide quality services to

Improvement: Continue to meet monthly to share new ideas and updates on the program services

Target: At least four improvement activities will be identified in the office staff monthly meetings.

Descriptive Statistics - Provide custodial services daily to foster a safe and healthy environment to all facility users.

Target: 80% of the custodial cleaning services check list will be completed by the end of each day.

our constituents, scheduling of staff meetings have been pushed around and meeting minutes are yet to be documented for references. (09/30/2016)

Reporting Period: 2015 - 2016

Target Met: Yes

In preparation for the two biggest meetings, the facility was cleaned with the help of maintenance and outside contractors so it went beyond the targeted percentage. (09/30/2016)

(09/30/2016)

Follow-Up: monthly (09/30/2016)

Improvement: continue to

provide the cleaning services daily to maintain a safe and healthy environment for all facility users. (09/30/2016)

Follow-Up: Daily (09/30/2016)

2015-2016 Office of Student Life

Outcome 1 - Design and implement a structured program which promotes student leadership development and a good working relationship with the Student Body Association and student organizations of all campuses.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Reporting Period: 2015 - 2016

Target Met: Yes

The Office of the Director of Student Life and SBA organized meetings and sessions with students especially on (a) procedure and requirements for registering student clubs and having them recognized by the college; (b) developing the club's calendar of activities including proposed budgets; (c) requesting approval of club-sponsored activities; (d) assessments of club-sponsored activities; and (e) others. student support programs and services; and (e) others.

Improvement: Continue to

provide comprehensive academic, social, health-related, recreational and residential services, activities and events that promote student engagement and supplement student learning and success. (09/29/2016)

As a result, several students are able to secure recognitions of their clubs, SBA coordinate the scheduling and launching of club-sponsored activities, clubs are able to conduct assessments of their sponsored activities to determine how well they achieve their articulated outcomes, and others.

There has been an increase in the number of registered and recognized student clubs, and club-sponsored activities. (09/23/2016)

Descriptive Statistics - Promote awareness of the availability of co-curricular activities through campus wide advertisement and other methods of advertisement.

Target: At least four advertisement methods will be used to outreach

Reporting Period: 2015 - 2016

Target Met: Yes

A calendar of student activities that is continuously updated by Student Life is available online. Calendar provides list of available co- and extra-curricular activities for students that are designed to promote student engagement, and complement learning. (10/03/2016)

Improvement: Continue to

provide comprehensive academic, social, health-related, recreational and residential services, activities and events that promote student engagement and supplement student learning and success.

the college community to promote student life activities.

Explore options to ensure that co- and extra-curricular activities are well-communicated to students to increase participation and engagement by employing array of publications or media. (09/30/2016)

Descriptive Statistics - Develop a yearly student activity calendar in collaboration with all student government and organizations of all campuses to foster consistency of activities.

Target: 90% of the student activity calendar will be completed by academic year 2016

Reporting Period: 2015 - 2016

Target Met: Yes

In collaboration with other student support services units, the SBA, and student clubs, Student Life has developed an calendar of student activities that is available from the college's website. (09/16/2016)

Related Documents:

[On Calendar of Student Activities](#)

Improvement: Continue to update the online calendar of student activities, and explore options to publishing said calendar in variety of formats to ensure access-to-information related to co- and extra-curricular activities available for students. (09/26/2016)

Descriptive Statistics - Facilitate a workshop on leadership and outreach to the SBA and all student organizations and club officers.

Target: At least two workshops will be conducted on student leadership at the beginning of academic year 2016.

Reporting Period: 2015 - 2016

Target Met: Yes

Conducted trainings that were geared at leadership development. For examples, July 27-29, 2015, peer coaches training for fall 2015; and June 24, 2016, peer coaches training for summer 2016; and July 27-29, 2016, peer coaches training for fall 2016. (09/28/2016)

Improvement: Continue to provide workshops or training for SBA and club officers on leadership development and outreach, including assessment. (09/30/2016)

2015-2016 Office of Student Life

Outcome 2 - Identify strategic partnerships with internal and external entities who are engaged in related to capacity building.

AUO Status: Active

AUO Assessment Cycle: 2015 - 2016

Reporting Period: 2015 - 2016

Target Met: No

While Student Life coordinated with the US Embassy especially in addressing request for student state groups to provide cultural presentation during the celebrations of the US Independence Day in 2015, and this year -- there has been no efforts of any outreach made with embassies of foreign governments in the FSM. (09/21/2016)

Improvement: Continue to engage students in conducting community outreach to promote civic mindedness and others. (09/30/2016)

Descriptive Statistics - Outreach to the Embassy on Island to establish partnership for the benefit of the college community.

Target: At least two Embassies on island will show support and will accept to work with the office of student life in the academic year 2016.

Descriptive Statistics - Extend

assessment tool to rate the level of awareness of these services to the college community.

Target: At least 70% of the students will exhibit level of awareness about student life programs and services and are in fully engaged.

Target Met: No

Student Life is yet to development and conduct a survey to determine the college community's level of awareness about available student support programs and services, including identifying the needs of the students. While initial plans were made, the works related to this was temporarily stopped when the director student life's position became vacant. (09/27/2016)

develop and implement an assessment to measure students and the college community's awareness about available student support programs and services, their levels of satisfaction about these programs and services, and the needs. (09/30/2016)

2016-2017_EMSS_N_SLHS: Outcome
1 - The Health Service will continue to provide a variety of basic effective primary and preventive health care services to the college community; as such, students will continue to demonstrate increased awareness and knowledge of positive self-care by seeking and utilizing services provided by the college's health services clinic
AUO Status: Active
AUO Assessment Cycle: 2016 - 2017

Reporting Period: 2016 - 2017

Target Met: No

Tabulated frequency count of visits by students, faculty, and staff to the Health Service showed that:

A. In 2015-16, the Health Service received a total of 4,142 visits

B. In 2016-17, it received a total of 3,737 visits.

C. A decrease of 405 visits; therefore, a decrease by 10 % in the number of visits as compared to prior school year.

D. The established criterion for success was "at least 10% increase in the number frequency counts of visits to the Health Service clinic"; therefore, this criterion has not been met.

Target: Target: 1. 1 Exceed the rate of frequency count of visits for primary and preventive health care services by at least 10% from prior year.

Target 1. 2 At least six offices on campus will be provided stock supplies of first aid kits and over the counter medications.

However, the office log of visits also showed that the Health Service had provided stock supplies of first aid and over the counter medications to six offices on campus. The established criterion for success was "at least six offices on campus will be provided stock supplies of first aid kits and over the counter medications"; therefore, this criterion has been met. (09/11/2017)

Related Documents:

[HS \(2015-2016 and 2016-2017\)Freq Counts of Visits served by Types of Service.pdf](#)

Improvement: Based on the results, the Health Services need to continually improve the delivery of health services and plans to implement the following in the next cycle:

1. Continually provide basic and effective primary and out-patient health care services daily and exceed the rate of frequency counts of visits by at least 10% from prior year.

2. Ensure stock supplies of first aid kits and over the counter medications are provided to all student service office sites to be dispensed to ensure availability and accessibility of treatment for common/minor problems and to exceed the number of offices to at least 8 from prior year.

3. Ensure continuous access to the seasonal influenza vaccines and to increase the rate of students, faculty and staff taking the vaccines by at least 10% from

prior year

4. Organize and facilitate at least one first aid training to student service staff

5. Extend special clinic that provides care and treatment for women-specific problems; and ensure safe and professional health practice and competency through continue upgrading of nursing skills and knowledge including maintaining currency of nursing license.

(10/02/2017)

Improvement: See improvement plan under Strategy I (10/02/2017)

Reporting Period: 2016 - 2017

Target Met: Yes

Tabulated frequency count of visits to the Health Service clinic and office logs on registration of participants to the health activities/workshops hosted and facilitated by the Health Service clinic showed that:

A. In 2015-2016, the Health Service received a total of 295 students, faculty and staff for the seasonal influenza vaccination.

B. In 2016-2017, it received a total of 309 students, faculty and staff for the seasonal influenza vaccination.

C. An increase of 14 in headcounts; therefore, an increase by 4.5% in the number of students, faculty and staff who received the flu vaccinations in comparison to prior school year.

D. The established criterion for success was to “exceed the number of students, faculty and staff taking the seasonal influenza vaccinations by at least 10%” from prior school year”; therefore, this criterion has not been met.

Descriptive Statistics - 2. Ensure continuous access to primary and preventive health care services and treatments that include but not limited to, immunizations, deworming medicines, multi-vitamin supplements, and others.

Target: 2.1 Exceed the rate of students, faculty and staff taking the seasonal influenza by at least 10% from prior year.

2.2 Exceed the rate of students, faculty and staff taking the preventive/prophylaxis treatments by at least 5% from prior year.

However the office logs also showed that:

- A. In 2015-2016, the Health Service received a total of 2,065 visits by students, faculty and staff specifically for treatment of health maintenance/prophylaxis including deworming medicines, multi-vitamin supplements and others.
- B. in 2016-17 the dispensary received 2,235 visits for the same kind of treatment.
- C. An increase of 170 visits; therefore, an increase by 8% in the number of visits for the health maintenance/prophylaxis treatment in comparison to prior school year.
- D. The established criterion for success was to “exceed the number of students, faculty and staff taking the health maintenance/prophylaxis treatment by at least 5% from prior years”; therefore, this criterion has been met. (09/11/2017)

Related Documents:

[HS \(FY2015-2016 and FY2016-2017\). Freq Counts of Visits Served by Types of Service.pdf](#)

Descriptive Statistics - 3. Extend special clinic that provides care and treatment for women-specific problems; and ensure safe and professional health practice and competency through continue upgrading of nursing skills and knowledge including maintaining currency of nursing license..

Target: 3.1 At least two special women’s health clinics will be conducted during the fiscal year

3.2 At least participate in two or three on and off-island nursing or health-related

Reporting Period: 2016 - 2017

Target Met: No

Because of unavailability of appropriate nursing staff qualified to assist in conducting the women’s health clinic this activity could not be implemented.

Also due to scheduling problems and other matters, the nurse was able to participate in only one nursing conference/workshop. The established criterion for success was “participate in at least two or three on and off-island nursing or health-related workshops/conference”; therefore, this criterion has not been met. (10/02/2017)

Improvement: See improvement plan under Strategy I (10/02/2017)

workshops/conferences.

Descriptive Statistics - 4. Continually conduct inventory of medical supplies at least quarterly to ensure timely procurement of medicines and to prevent stock outs; and prepare POs, receive, unpack & redistribute to state campus clinics.
Target: 4.1 At least four inventories of medical supplies will be conducted during the school year.

Reporting Period: 2016 - 2017
Target Met: No

According to stock cards, three physical inventories were carried out on most of the medical supplies. The established criterion for success was “at least four inventories of medical supplies will be conducted during the school year”; therefore, this criterion has not been met. (10/02/2017)

Improvement: See improvement plan under Strategy I (10/02/2017)

2016-2017_EMSS_N_SLHS: Outcome
2 - The Health Service will continue to provide and facilitate health education awareness and well-being outreach programs/activities to the college community; as such students will continue to demonstrate increased awareness and knowledge about current health issues and the role of healthy lifestyle choices in improving and preserving their health.

AUO Status: Active
AUO Assessment Cycle: 2016 - 2017

Reporting Period: 2016 - 2017
Target Met: Yes

The office log on registrations of participants to the health activities/workshops hosted and facilitated by the Health Service clinic showed that:

1. Increase the rate of students' participation in the Health Service program including external health services providers and government agencies.
2. Continue to organize and facilitate at least five health workshops/activities in collaboration with the college's health science program including external health services providers and government agencies.
3. Continue to plan and organize activities at least one month prior to schedule date of events/activities to review progress and to ensure wide awareness of events.
4. Coordinate and facilitate at least two individual health presentations/training/workshops to students and staff.

- A. In 2015-16 the office hosted five health activities/workshops participated by about 1,028 students
 - B. In 2016-2017, the office hosted the same number and types of health activities/workshops participated by about 1,085 students
 - C. An increase of 57 participants in head counts; therefore, an increase by 5.26 % in the number of student participants as compared to prior year.
 - D. The established criterion for success was “at least 10% increase in the number of students, faculty and staff participating in the Health Service facilitated workshop/health activities from prior school year; therefore, this criterion has not been met.
- However, to determine the effectiveness of the Health activities in terms of increased knowledge of students based on their perceptions, specifically with issues on sexually transmitted infections, a survey consisted of five

Improvement: Based on the results of Outcome 2 of Assessment Cycle 2016-17, the Health Service needs to continue to provide as well as improve the implementations of health workshop/activities held on campus. The following are planned to be implemented:

1. Encourage involvement of more students or student clubs in the planning and implementation of activities.
2. Increase the rate of students' participation in the Health Service facilitate health workshops/activities by providing incentives.
3. Continue to plan and coordinate health workshops/activities in collaboration with the college's health science program including

Target: Target 1.1 At least 10% increase in the number of students, participating in the Health Service facilitated workshops/activities from prior year.

Target 1.2 At least 80% positive rating on the results of survey administer to a cohort of participants to the Health Service facilitated workshops/health activities.

Target 1.3 Statistically significant difference between the scores in the pre-tests and post-tests administered to a cohort of participants to Health Service facilitated workshops/health activities.

questions was administered to a sample of 191 non- non- randomly selected cohort of participants to the World Aids Day activities.

The overall results of the survey were positive with 180 (or 94.73%) of the 191subjects perceived the World Aids Day activities as informative with only 9 (or 4.74%) perceived as not informative and 1 (or .53%) with no comment. The results also showed that 186 (or 97.84) of the subjects agreed that participating in the World Aids Day activities had increased their understanding about HIV/AIDS and ways to prevent and control its spread with only 4 (or 2.11%) signifying disagreement. While 186 (or 97.89%) of the subjects agreed that participating in the World Aids Day activities had motivated them to practice safe sex, only 2.10 % expressed disagreement.

The results further showed that 185 (or 97.89%) of the subjects agreed that participating in the World Aids Day activities had motivated them to have screening for sexually transmitted diseases on a regular basis with only 2.12% signifying disagreement.

The results also showed that 61 (or 32.11%) of the subjects perceived the special presentation on the topic on HIV/AIDS most beneficial to them. While 44 (or 23.16%) of the subjects perceived the singing and dancing contests as most beneficial, 30 (or 15.79) and 55 (or 28.95%) of the subjects perceived the dramas and IEC materials as most beneficial to them respectively.

To further determine the level of knowledge of participants about other health issues specifically diabetes, a post survey consisted of five questions was administered to a non-probability sample of 197 participants to the World Diabetes Day activities. The survey was designed to assess the level of basic knowledge of participants about diabetes, its symptoms, ways to prevent and control it, some of the risk factors of diabetes and long-term complications. Basically the results showed that the subjects had some basic knowledge about diabetes with the highest rating of 95.43% on Q4 (e.g., diabetes can be controlled by diet and exercise) and lowest rating of 63.45% on Q3, (i.e., diabetes

external health services providers and government agencies.

4. Coordinate and facilitate at one individual health presentations/training/workshops to students and staff.

5. Continue to plan and organize activities at least one month prior to schedule date of events/activities to review progress and to ensure wide awareness of events.

6. Continually update and provide current health information resources including developing and publishing the unit's IEC materials

7.Continually update and renew current subscriptions to nursing journals and other health magazines (10/02/2017)

means there is too much salt in your blood). The results also showed that 177 (or 89.85%) of the 197 know some of the common symptoms of diabetes indicating “all the above” on Q5 (i.e. signs and symptoms of diabetes include increased thirst, frequent urination, blurry vision, feeling tired, all the above) with only 4 (or 2.03%) of the subjects indicating only “increased thirst” and 2 (or 1.02% and 14 (or 7.11%) of the subjects indicating only “blurry vision” and “feeling tired” as common symptoms of diabetes respectively.

The results further showed that 170 (or 86.29%) of the subjects know some of the risk factors in developing Diabetes Type 2 by indicating “all the above” on Q6 (i.e., some risk factors in developing type II diabetes include a family history of diabetes, lack of physical activities, overweight, all the above) with 21 (or 10.66%) indicating only “a family history of diabetes” and 5 (or 2.54%) indicating only “lack of physical activities” and “overweight”. The results also showed that 170 (or 86.29%) had some knowledge about some of the long-term complications of uncontrolled diabetes by indicating “all the above” on Q7 (i.e., long-term complications of uncontrolled diabetes include stroke, blindness, heart attacks, kidney problems, all the above) with 8 (or 4.06%) indicating only “heart attack” 7 (or 3.55%) only “stroke” and 6 (or 3.05%) only “blindness” and “kidney problems”. (10/02/2017)

[HS \(FY2016-2017\).Health Service Calendar of Activities- Copy.xls](#)

Reporting Period: 2016 - 2017

Target Met: No

The office log on registrations of participants to the health screening activities hosted and facilitated by the Health Service clinic showed that:

- A. In 2015-2016, the office hosted eight screening activities participated by 1, 319 students, faculty and staff.

Descriptive Statistics - 5. Continue to provide and conduct annual health screenings to include but not limited to sexually transmitted infections, diabetes, hypertension and others.

Target: 5.1 Exceed the number of students, faculty and staff participating in the health screening activities by at least 10% from prior

Improvement: See improvement plan under Strategy I. (10/02/2017)

year.

5.2 At least 50% of the students residing in the residence halls will participate in the STIs/HIV/AIDS screening activity.

5.3 Statistically significant difference between the scores in the pre-tests and post-tests administered to a cohort of participants to health service facilitated workshops/programs/presentations.

B. In 2016-2017 the office hosted the same number and types of health screenings activities participated by 1, 230 students, faculty and staff.

C. A decrease of 89 in headcounts; therefore a decrease by 7% in the number of students, faculty and staff participated in the health screening activities in comparison to prior school year.

D. The established criterion for success was to “exceed the number of students, faculty and staff participated in the health screening activities by at least 10%” from prior school year”; therefore, this criterion has not been met.

Also, the office log on registration of participants to the annual screening specifically for the HIV/AIDS and other STIs showed that a total of 111 students and staff participate in the activity. Of the 111, 91 were students of which 40 (or 44 %) of them were from the residence halls. Residence hall records showed a total of 103 residents in the Residence halls. The established criterion for success was “at least 50% of the students residing in the residence halls will participate in the HIV/AIDS/STIs screening activity”; therefore, this criterion has not been met.

FY2017_EMSS_N_Sl: Outcome 1 - Student Life will design and implement an action plan in conjunction with the Student Body Association and student club and organizations that promotes student leadership, student engagement, and student success, and which fosters a positive and open working relationship between the student body and administration.

AUO Status: Active

AUO Assessment Cycle: 2016 - 2017

Project-Group - Student Life will hold an Officer's Retreat to develop an action plan for the year that addresses the needs and concerns of the diverse student population.

Target: Student Life, in conjunction with student officers, will compile a plan and calendar of events for the 2016-2017 academic year by the end of October 2016.

Project-Group - Student Life will facilitate workshops and meetings based around student leadership, engagement and success for club and SBA officers.

Target: Student Life will hold 3 meetings, events or workshops a semester devoted to developing student leadership skills and encouraging student engagement.

Reporting Period: 2016 - 2017

Target Met: Yes

Student Life held a retreat in October of 2016 for the SBA/SBO officers. One of the outcomes of this retreat was the creation of a student calendar of activities for the 2016-2017 school year that reflected the needs and interests of the student body. (09/25/2017)

Related Documents:

[2016-2017 Calendar.pdf](#)

Improvement: Calendars for each month of the year should be printed and posted prior to the beginning of each month. This was only done for Spring & Summer 2017, it should be done year-round. (09/25/2017)

Reporting Period: 2016 - 2017

Target Met: No

Multiple meetings and workshops were held throughout the school year, which promoted student engagement and developed students' leadership skills. For the Fall 2016 semester a total of 7 events were held, for the Spring 2017 semester a total of 3 events were held; however, only one leadership activity was held during the Summer 2017 semester. The events held are as follows:

Fall 2016:

- SBO Meeting (10/5/16)
- Induction Ceremony (10/7/16)
- SBO Meeting (10/12/16)
- Club Fair (10/19/16)
- SBO Meeting (10/21/17)
- Leadership Retreat (10/28 - 10/29/17)

Improvement: More efforts need to be put forth in engaging student clubs during the Summer semester; this includes holding meetings, providing leadership building opportunities, and encouraging club engagement and participation. (09/25/2017)

- SBO Meeting (11/25/16)

Spring 2017:

- SBO Meeting (1/11/17)
- SBO Meeting (3/6/17)
- Leadership Retreat (4/12/17)

Summer 2017:

- Peer Coach Training (7/20-7/21/17) (09/25/2017)

Improvement: The residence hall will continue to provide volunteer programs training to attract more residents to be future student leaders or student staff to facilitate, provide and support residents and other students achieve academic success. (10/02/2017)

Target Met: Yes
 as the result of the volunteer program implemented in the residence hall student leaders gain knowledge and understanding of service and of opportunities to engage in service. (10/02/2017)

FY2017_EMSS_N_SLRH: Outcome 4 -
 RH will play an essential role in helping students to grow/develop their social and communication skills as evidenced by their ability to live and work collaboratively with others, engage in respectful relationships and assume shared responsibility for the common good.
AUO Status: Active
AUO Assessment Cycle: 2016 - 2017

Survey - surveys about living with others, and activities such monthly cleans ups, floor meeting cook out etc.
Target: at least 87% of residents actively participates in monthly scheduled movement outlined for residents including social, spiritual, fun, community and health activities

Reporting Period: 2016 - 2017

Improvement: Continue to work closely with DSL in regards to extracurricular activities including RHO and student RA for the residents planned activities. The residence hall will make an effort to add or increase more activities in the residence hall in the coming semesters. (10/02/2017)

Target Met: Yes
 as a result of effective promotion done by the office of DSL 95% of the residents are engaged in social, spiritual, fun and community health activities. (10/02/2017)

FY2017_EMSS_CTEC_SLHS: Outcome 1 -
 To support students in their pursuit of academic success by providing services that are timely, personalized, accessible and cost effective to fulfill what they need and would recommend to their peers.
AUO Assessment Cycle: 2016 - 2017

Survey - Provide patient satisfaction survey every clinic visits and ensures to complete written evaluation in regarding services provided
Target: Student will indicate an overall satisfaction rating of 85% or higher.

Reporting Period: 2016 - 2017

Improvement: Ensure that surveys are provided in the future to determine the level of satisfaction from the clients after rendering services. (10/02/2017)

Target Met: No
 Unfortunately, CTEC HS are unable to gather enough responses in surveys provided to clients. CTEC HS do not get an adequately completed questionnaire or no information at all from the target population. (10/02/2017)

AUO Assessment Cycle: 2016 - 2017

Descriptive Statistics - Continue to provide updated Health Brochures for all individual who visits the clinic office.
Target: At least 80% will be able to identify the most appropriate resource that is pertinent to their health concern.

Reporting Period: 2016 - 2017

Improvement: Continue to collaborate with Primary health care and re-establish working with the department of health services and other private health sectors to seek support in regards to healthcare. (10/02/2017)

Target Met: Yes
 As a result of a continuous collaboration with primary health care, CTEC clinic has been provided with all the support in terms of educational supplies like brochures and pamphlets of various topics in regards to diseases, health information, including emerging diseases and health alerts. (10/02/2017)

Administrative Unit Outcomes

Assessment Strategies

Results

Improvements

Survey - Continue to ensure that all visits are given necessary information, right treatment and schedule for follow-up care
Target: At least 80% of Student respondents will recognize the need for follow-up care.

Reporting Period: 2016 - 2017

Target Met: Yes

As a result of providing the right services needed for every visit at CTEC student clinic, care plans are developed in order to assess patients needs including a plan that should specifically outline which observations to make, what nursing actions to carry out, and what instructions the family members or patients required for self-care. (10/02/2017)

Improvement: Continue and improve the individualized health care plan to all patients in order to offer the right care and information. Maintain follow-up care to repeat instructions they have been taught about their care for quick recovery and reduce visit of recurring illness. (10/02/2017)

FY2017_EMSS_CTEC_SLHS: Outcome 2 - Health services will continue to provide tertiary prevention as directed services to student who seeks treatment for physical and medical illness and other problems.

AUO Assessment Cycle: 2016 - 2017

Descriptive Statistics - Continue to provide nursing assessment and treatment for minor, chronic/acute illness and injuries.

Target: At least 80% of students will be able to identify at least one way their illness or health issues might affect them to achieve academic success.

Reporting Period: 2016 - 2017

Target Met: Yes

Counseling and health education enhances the ability of patients to remember, and, if necessary, convey to family members, the content of interactions with their caregiver. Supports greater patient engagement in making good choices about healthy behaviors and the self-management of chronic conditions, which is essential to improving clinical- and patient-oriented quality outcomes. (10/02/2017)

Improvement: Continue to collaborate with other health agencies to provide the quality services and right information through transparency, by giving patients and family members an opportunity to see information in their records so they can help the caregiver identify and correct errors. (10/02/2017)

Descriptive Statistics - Continue to collaborate with other medical facilities for referring more extensive and or specialized medical treatments.

Target: At least 90% of students will be to remember where to seek specific medical attention for more extensive and specialize medical treatment.

Reporting Period: 2016 - 2017

Target Met: Yes

As a result of effective working relationships with other health agencies, the patient takes advantage of all services offered, utilize the caregiver-patient relationship to address treatment goals until needs are met, and moves toward full independence until the patient no longer needs help. (10/02/2017)

Improvement: Strengthen the working relationship with other health agencies to support clients needs in terms of health in order to achieve academic success. (10/02/2017)

Survey - Continue to provide students over the counter medications and supply.

Target: At least 90% of students will be able to remember the 5 rights to be safe with every dose of medicine.

Reporting Period: 2016 - 2017

Target Met: Yes

As a result of the monthly medication and supplies inventory, CTEC clinic is able to provide the medication and supplies needed to all clients/ visits regarding their choice and needs. (10/02/2017)

Improvement: Continue to work with college business office and medical pharmacies in a timely manner to ensure that supply at CTEC clinic is always in stock, updated and enough for clients use and need. (10/02/2017)

FY2017_EMSS_CTEC_SLHS: Outcome 3 - Student health clinic will improve and expand web page in order to increase student access to health information, services and educational program/ activities.
AUO Assessment Cycle: 2016 - 2017

Survey - Coordinate with information technology staff and collaborate with other campus nurses to share uniform information regarding services, programs and information of various health and services their campus clinic provides.
Target: At least 85%Students will be able to utilize web technology to accurately and successfully access information in regards to services, programs and other health information.

Survey - By using the enhanced and expanded student health services webpage, students will develop attention to detail and will enhance their computer skills by following specific information in regards to self care and or minor procedure for caring ones self and other health related issues including services available and offered.
Target: At least 80% of students will be able to demonstrate how to navigate the enhanced and expanded student health services web-page.

Reporting Period: 2016 - 2017
Target Met: No
 This objective was not met due to web technology issues at state campuses including the lack of knowledge to design health page. (10/02/2017)

Improvement: Coordinate with NC IT staff regarding developing a centralized web page for health on campus, information regarding clinic and staff. Online health sign-ups and other health care issues and information to support student including staff and faculty health. (10/02/2017)

FY2018_EMSS_N_Sl: Outcome 1 - Student Life will promote College unity among students, by working with the Student Body Association in developing and maintaining open lines of communication and cross-campus collaboration among and between SBA Officers from all six campuses.
AUO Status: Active

Project-Group - Student Life will hold a leadership retreat for SBA representatives from all six campuses, focused on the development of student partnerships, the promotion of teamwork, and the importance of cross-campus communication.
Target: By the end of September 2017, Student Life, in conjunction with the Student Body Association Officer Leadership Retreat was held from Monday, September 11 - Friday, September 15, 2017 at National Campus in Pohnopei. All 6 campuses (Chuuk, CTEC, FMI, Kosrae, National, Yap) were present for the duration of the Retreat. (09/23/2018)

Reporting Period: 2016 - 2017
Target Met: No
 As part of the goal to expand the health services web page, this objective was not met due to web technology issues at the state campus. (10/02/2017)

Improvement: develop a web page for CTEC health services and coordinate with NC IT staff to support the health needs of students including staff and faculty in regards to disease information, clinic operation, Health alerts, Activities and needed information to support daily need of every client. (10/02/2017)

FY2018_EMSS_N_Sl: Outcome 1 - Student Life will promote College unity among students, by working with the Student Body Association in developing and maintaining open lines of communication and cross-campus collaboration among and between SBA Officers from all six campuses.
AUO Status: Active

Project-Group - Student Life will hold a leadership retreat for SBA representatives from all six campuses, focused on the development of student partnerships, the promotion of teamwork, and the importance of cross-campus communication.
Target: By the end of September 2017, Student Life, in conjunction with the Student Body Association Officer Leadership Retreat was held from Monday, September 11 - Friday, September 15, 2017 at National Campus in Pohnopei. All 6 campuses (Chuuk, CTEC, FMI, Kosrae, National, Yap) were present for the duration of the Retreat. (09/23/2018)

Reporting Period: 2017 - 2018
Target Met: Yes
 A Student Body Association Officer Leadership Retreat was held from Monday, September 11 - Friday, September 15, 2017 at National Campus in Pohnopei. All 6 campuses (Chuuk, CTEC, FMI, Kosrae, National, Yap) were present for the duration of the Retreat. (09/23/2018)

Related Documents:
[2017 SBA Report.pdf](#)

Improvement: It is anticipated that the College wide SBA Officer Leadership Retreat will become an annual event, with the location of the retreat shifting, so all campuses may take turns hosting. (09/23/2018)

AUO Assessment Cycle: 2017 - 2018

with the SBA Officers, will compile a list of priorities, initiatives, and plans for collaboration that will be implemented and addressed during the 2017-2018 academic year.

Project-Group - Student Life will hold monthly meetings with SBA representatives from all six campuses, to ensure the continuation of communication and collaboration.
Target: These monthly SBA meetings will be held according to the following schedule: September 2017, October 2017, November 2017, January 2018, February 2018, March 2018, and April 2018.

Reporting Period: 2017 - 2018

Target Met: No

College wide SBA conference calls were held on the following dates:

- September 29, 2017
- October 20, 2017
- November 1, 2017
- February 23, 2018
- March 16, 2018
- April 13, 2018

*SBA missed one conference call date in January of 2018, this was due to needed transitions, which required the special election of vacant SBA positions at multiple campuses for the start of Spring 2018 semester. (09/23/2018)

Related Documents:

[SBA Conference Calls \(2017-2018\).doc](#)

Project-Group - Student Life will work with SBA representatives, to ensure that college-wide events are held in conjunction at all six campuses.

Target: Student Life will hold 2 college-wide events a semester.

Reporting Period: 2017 - 2018

Target Met: Yes

During the Fall of 2017 the following events were held at all COM-FSM Campuses:

- Micro-Green Up Day (10/27/18) *
- Equality Day (11/24/18)

* Please note, Yap Campus and FMI held their Micro-Green Up Days on the same date as their Equality Day.

During the Spring of 2018 the following events were held at all COM-FSM Campuses:

- 25th Anniversary Fundraising Efforts (April 2018)

Improvement: Consistent meeting minutes and agendas need to be kept by the elected Committee Secretary. There were some difficulties in accountability and follow through on the part of the serving Secretary. (09/23/2018)

Improvement: While it would be ideal to hold the same events across all campuses on the same dates, this proved to be difficult and ineffective, given the varied schedules of the campuses, especially for FMI. Moving forward, initiatives and events will be identified with flexibility provided in terms of scheduling dates. (09/23/2018)

- 25th Anniversary Founding Day Celebrations (April 2018)

encourage and promote collaboration between and among students leaders and their advisors, to further develop student leadership skills and knowledge, while at the same time encouraging the development of positive relationships and mentorships.
Target: Student Life will hold one event in the Fall semester and one event in the Spring semester, designed specifically for direct collaboration and teamwork between club officers and their advisors.

Target Met: Yes
 In attempts to help build positive relationships between student organizations and their advisors, as well as, between students, faculty and staff in a more general sense, the following events were held:

- September 13, 2017: Student Induction Ceremony
- December 1, 2017: Academic Talent Show (Chuuk Campus)
- March 27, 2018: RHO Alcohol Workshops (09/23/2018)

Related Documents:

- [Fall 2017 Events.docx](#)
- [Spring 2018 Events.docx](#)

obstacles faced by Student Life is getting more engagement and participation from the advisors (faculty/staff). Moving forward, it is going to become more important to elicit their help and support in terms of providing services to students. More efforts need to be made to identify why they are not participating and what can be done to address this. (09/23/2018)

FY2018_EMSS_N_Sl: Outcome 3 -
 Student Life will foster and encourage student and faculty/staff interactions, in efforts to promote the formation of positive relationships, and to integrate students' out-of-class experiences and interests with their academic goals and aspirations.
AUO Status: Active
AUO Assessment Cycle: 2017 - 2018

Project-Group - Student Life will provide comprehensive activities, services and events, that directly promote and encourage student and faculty/staff interactions outside of the classroom.
Target: Student Life will host 3 events in the Fall and Spring semesters and 1 event in the Summer semester, specifically designed to promote and encourage student and faculty/staff interaction.

Reporting Period: 2017 - 2018

Target Met: Yes

In attempts to promote student and faculty/staff interactions, the following events were held in Fall 2017:

- August 18, 2017: Welcome Back Carnival
- September 6, 2017: Club Fair
- September 13, 2017: Student Induction Ceremony
- September 23, 2017: Campus Clean-Up (Chuuk)
- October 27, 2017: Micro-Green Up Day (All Campuses)
- October 27, 2017: Halloween Movie Night (Yap/FMI)
- October 30, 2017: Halloween Costume Competition
- November, 2017: No Shave November
- November 3, 2017: Nature Conservation Trip (Kosrae)
- November 24, 2017: Equality Day (All Campuses)
- December 1, 2017: Academic Talent Show (Chuuk)
- December 1, 2017: 2nd Annual Talent Show

In attempts to promote student and faculty/staff interactions, the following events were held in Spring 2018:

- January 26, 2018: RHO Welcome Back
- February 7, 2018: Club Fair
- February 10-11, 2018: SBO Retreat

Improvement: While many opportunities are being provided for faculty and staff to join and participate in student activities, there continues to be low turn out from employees. Moving forward, Student Life will need to dialogue and collaborate more with departments and employees to see what can be done to increase their involvement outside of the office and classroom. (09/23/2018)

- March 10, 2018: Day of Service
- March 19 - 23, 2018: Spirit Week
- March 27, 2018: RHO Alcohol Workshops
- April 16, 2018: Dodgeball
- May 9, 2018: Award Day (Yap)
- All Semester: Trivia Nights

In attempts to promote student and faculty/staff interactions, the following events were held in Summer 2018:

- June 8, 2018: Splash Bash
- June 18, 2018: Dodgeball
- June 29-30, 2018: MSO Retreat (CTEC)
- July 6, 2018: Capture the Flag
- July 13 - 14, 2018: Walung Field Trip (Kosrae)
- July 19, 2018: Encouragement & Dedication Ceremony (Chuuk)
- July 31, 2018: SBA Hut Building (Chuuk) (09/23/2018)

continue and increase rapport with residents to help facilitate open lines of communication for questions, problems, and concerns.

2.2 Help students become aware of the College's expectations of them as expressed in the Student Handbook thru general assembly, floor meetings and orientation.

Target: 2.1 At the end of Fall 2017 at least 80% of residents who violates the policy will demonstrate personal responsibility by adjusting their daily routine/ habits in compliance with the policy.

2.2 Residence Hall will hold 3 floor meetings to address questions, issues and concerns.

Target Met: No

Records shows that out of the 104 residents who breached the college polices including the rules and regulations of the residence hall, Only 30% demonstrated personal responsibility by adjusting their daily routine/ habits in compliance with the policy. (09/16/2018)

will continue RH orientation every semester. In addition, floor meetings and residence hall assembly to ensure all students are fully aware of the residence hall rules and regulation, updates, new directives and information comprising college policies.

Increase the dialogue and collaboration with the campus security office, Counseling, Health clinic, office of admission, record and retention to withhold grades or transcripts and office of director of student life in regards to student conduct, prevention and intervention and ensuring that all incidents are documented and addressed appropriately. (09/16/2018)

Project-Group - 2.3 Encourage residents to exercise responsibility through active participation in assisting with policy decisions, addressing disruptive behavior, mediating conflict within the community, and evaluating the residential life program.

Target: 2.3. At least 80% of survey respondents will agree that participation in policy decision addressing issues in the residence hall will provide them information and connect them with resources conducive to their success as students.

Reporting Period: 2017 - 2018

Target Met: No

Additional survey questions are needed to address the outcome in regards to residents participation in assisting policy decisions, mediating conflict with in the community and evaluating residence hall life programs. (09/30/2018)

Improvement: Continue to

collaborate with other peer leaders or groups to develop a program for the term. In addition, Plan, implement and evaluate residence hall programs that encourages participation and developments of residents meeting expectations as established by the residence hall. (09/30/2018)

2017-2018 EMSS N SLHS: Outcome 1

- Students will demonstrate increased awareness of services available at and provided by the Health Services by frequenting the Health Service clinics for information, resources, and basic first aid and immediate emergency treatment as appropriate.

AUO Status: Active

AUO Assessment Cycle: 2017 - 2018

Start Date: 09/16/2018

Descriptive Statistics - Continually

provide basic and effective outpatient and primary health care services to students and staff.

Target: Exceed the rate of frequency visits made by students, faculty and staff to at least 10% from prior school year.

At least 75% of visits made by students, faculty and staff to the Health Service clinic will receive the treatments requested and/or prescribed.

Reporting Period: 2017 - 2018

Target Met: Yes

Tabulated frequency count of visits by students faculty, and staff to the Health Services showed that:

A. In 2016-2017, the Health Services received a total of 3,737 visits.

B. In 2017-2018, it received a total of 2,617 visits.

C. A negative difference of 2,068 visits; therefore, a decrease by 36 % in the number of visits as compared to prior school year.

D. The established criterion for success was "at least 10%" increase in the frequency of visits to the Health Services clinic; therefore, this criterion has not been met.

However, the office log of visits also showed that of the 2,617 visits 2,562 (or 98%) received the treatments requested and/or prescribed.

Improvement: Based on the results, the Health Services need to improve the delivery of health services and plans to implement the following in the next cycle:

1. Continually provide basic and effective outpatient and primary preventive health services.

2. Exceed the rate of frequency visits made by students and staff to at least 20% from prior year.

3. Ensure timely procurement of medical supplies to prevent stock outs.

4. Further develop and update the Health Service webpage in collaboration with the State

The established criterion for success was “at least 75%” of visits made by students, faculty and staff to the Health Services clinic will receive the treatment requested and/or prescribed; therefore, this criterion has been met. (09/18/2018)

campus nurses, the Student Life staff and Information Technology staff to ensure wide awareness of services and programs. (09/18/2018)

Descriptive Statistics - Continually provide health maintenance/prophylaxis treatments that include but are not limited to the seasonal influenza vaccinations, multivitamin supplements, baby aspirin, deworming medicines and others.
Target: Exceed the rate of students, faculty and staff taking health maintenance/prophylaxis treatments by at least 10% from prior school year.

Reporting Period: 2017 - 2018
Target Met: No
The office logs showed that:

A. In 2016-2017, the Health Services received a total of 2,235 visits by students, faculty and staff specifically for treatment of health maintenance/prophylaxis including deworming medicines, multi-vitamin supplements and others.

B. In 2017-2018 the dispensary received a total of 1,149 visits for the same kind of treatment.

C. A negative difference of 1,086 visits; therefore, a decrease by 49 % in the number of visits for health maintenance/prophylaxis as compared to prior school year.

D. The established criterion for success was “at least 10%” increase in the number of visits specifically for treatment of health maintenance/prophylaxis; therefore, this criterion has not been met.

Also, tabulated frequency counts of visits to the Health Services clinic and office logs on registration of participants to the health activities/workshops hosted and facilitated by the Health Services clinic showed that:

A. In 2016-2017 the Health Services received a total of 309 students, faculty and staff for the seasonal influenza vaccination.

Improvement: Based on the results, the Health Services plan to implement the following:

1. Continually coordinate with the Pohmpei State immunization program to ensure the seasonal influenza vaccinations are provided at the clinic and at every health activities held on campus.

2. Ensure health maintenance and prophylaxis treatment such as the multivitamin supplements, deworming medicines, baby aspirin etc., are available and accessible at all times.

3. Increase the rate of students and staff taking the health maintenance/prophylaxis treatment by at least 10% from prior year. (09/18/2018)

B. In 2017-2018 the dispensary received a total of 221 visits for the seasonal influenza vaccinations.

C. A negative difference of 88 number of participants for the seasonal influenza vaccinations; therefore, a decrease by 29 % in the number of students, faculty and staff who received the flu vaccinations in comparison to prior school year.

D. The established criterion for success was to “exceed the number of students, faculty and staff taking the seasonal influenza vaccinations by “at least 10%” from prior school year; therefore, this criterion has also not been met. (09/18/2018)

with the college's health science program and community and government health agencies; and encourage involvement of more students including the Student Body Association and the Student Clubs Organizations in the planning and implementation of activities.

Target: At least 10% increase in the number of students participating in the Health Service facilitated workshops/activities from prior school year.
 Statistically significant difference between the scores in the pre and post-tests administered to a cohort of participants to health service facilitated workshops/activities.

Results

Services clinic showed that:

- A. In 2016-2017, the office hosted five health activities/workshops participated by about 1, 085 students .
- B. In 2017-2018, the office hosted the same number of health activities participated by about 617 students.

C. A decrease of 468 participants in headcounts; therefore, a decrease by 43% in the number of student participants as compared to prior school year.

D. The established criterion for success was "at least 10%" increase in the number of students participating in the Health Services facilitated workshop/health activities from prior school year; therefore, this criterion has not been met.

And to measure the level of knowledge about the TB disease as a result of participation in the World TB Day activities, pre and post tests were administered to a total of 47 participants. The result showed that:

(1) Of the 47 participants taking the test, 40 (or 85.11%) scored >=median and 7 (or 14.90 %) scored < the median in the pre-test.

(2) Of the 47 participants, also 40 (or 85.11%) scored >=median and 7 (or 14.90%) scored <the median in the post test.

(3) Therefore, there is no significant difference between the scores in the pre and post-tests; therefore no significant knowledge gained.

(09/18/2018)

[HS \(2017-2018\) Annual Health Education Awareness and Outreach Programs.pdf](#)

Exam/Quiz - Pre-Post - Continue to organize and conduct annual health screening activities that include but are not limited to sexually transmitted infections, diabetes, hypertension and others.
Target: Exceed the number of students, faculty and staff participating in the health screening activities by at least 10% from prior school year.

Statistically significant difference between the scores in the pre-and post-tests administered to students participating in the health service facilitated screening activities.

Reporting Period: 2017 - 2018

Target Met: Yes

Due to insufficient data, this target could not be analyzed and evaluated.

However, to measure the effectiveness of the screening activities facilitated by the Health Services in terms of increased knowledge about diabetes including risk factors and complications of diabetes etc., pre- and post tests were administered to a total number of 85 students participating in the World Diabetes Day activities. The results showed that:

(1) Of the 85 students taking the test, 65 (or 76%) scored >=median and 15 (or 17.65 %) scored < the median in the pre-test.

(2) Of the 85 student participants, 72 (or 84.71%) scored >=median and 13 (or 15.30%) scored <the median in the post test.

(3) Therefore, a positive difference of 9.0% student participants scoring >=median. (09/18/2018)

mathletics competition with the Math department, and an artist competition with the Education Department.

Project-Group - Student Life will work directly with faculty and staff members to plan and host Forum Lectures that promote and encourage student and faculty/staff interaction, as well as, idea and information sharing.

Target: Student Life will host at least three Forum Lectures in the fall semester and three Forum Lectures in the spring semester which are planned in direct collaboration with faculty and staff.

Reporting Period: 2018 - 2019

Target Met: Yes

Student Life hosted the following Forum Lectures in direct collaboration with faculty/staff:

Fall 2018:

- Ryukyus University (Karen Simion & Denise Oen - 9/5/18)
- Diversity is No Adversity: Kiribati (Tetaake Yeeting - 10/3/18)
- Diversity is No Adversity: Sri Lanka (Walter John & Deva Senerathgoda - 11/7/18)
- Congressional Forum (Dehlina Ehmes - 12/7/18)

Spring 2019:

- Agricultural Forum Lecture (Denise Oen - 1/18/19)
- Wellness Workshop (Brian Mangum & Sandra Harris - 2/11/19)
- Women in Maritime & Law Enforcement (Denise Oen - 4/3/19) (07/16/2019)

Improvement Plan: While Student Life was able to work with faculty and staff throughout the academic year, it would be beneficial to target departments that aren't typically represented in the Forum Lectures, such as the Math and Business Departments.

FY2019 EMSS N SL: Outcome 2 -

Student Life will promote and encourage the formation of strategic community partnerships, providing opportunities for supplemental learning, as well as, the development of positive relationships between students and community members.

Project-Group - Student Life will promote and encourage community service outreach, providing opportunities for students to give back to the wider community.

Target: Student Life will seek 100% participation from student organizations in the execution of

Reporting Period: 2018 - 2019

Target Met: No

Approximately 50% of the student organizations at National Campus held at least one community service event throughout the 2018-2019 academic year. Approximately 75% of the student organizations at CTEC held at least one community service event throughout the 2018-2019 academic year. (07/16/2019)

Improvement: While Student Life was able to work with faculty and staff throughout the academic year, it would be beneficial to target departments that aren't typically represented in the Forum Lectures, such as the Math and Business Departments. (07/16/2019)

Improvement: Student Life needs to hold student organizations more accountable, setting the expectation that they are required to partake in community service opportunities, potentially making it a part of the registration

community service projects and activities.

Improvement Plan: Student Life needs to hold student organizations more accountable, setting the expectation that they are required to partake in community service opportunities, potentially making it a part of the registration process. This holds true for organizations at National and CTEC, as well as at the other state campuses.

process. This holds true for organizations at National and CTEC, as well as at the other state campuses. (07/16/2019)

Project-Group - Student Life will foster and enhance external relationships within the community by reaching out and inviting community members to participate and support student learning opportunities on campus.
Target: Student Life will collaborate and coordinate with at least five separate individuals or businesses/organizations within the community on providing services, activities or events for students.

Reporting Period: 2018 - 2019
Target Met: Yes
 Student Life held the following events and/or activities in collaboration with community members:
 - 9/19/18: Human Trafficking Presentation with Chuuk Department of Justice (SBA Retreat)
 - 10/26/18: Green Up Day with Kosrae Government Environment, Tourism and Health Sectors (Kosrae Campus)
 - 1/23/19: Healthy Dating Relationship Workshop with Yap Attorney General's Office (Yap Campus)
 - 1/28/19: Gender Equality Day with Yap's Women's Interest Group (Yap Campus)
 - 3/7/19: International Women's Day with the Australian Embassy (National Campus & CTEC) (07/16/2019)

Improvement: Student Life needs to continue to expand it's collaborations within the community, reaching out to more individuals and community groups to partner on projects, providing a more diverse offering of activities and events for students. (07/16/2019)

Improvement Plan: Student Life needs to continue to expand it's collaborations within the community, reaching out to more individuals and community groups to partner on projects, providing a more diverse offering of activities and events for students.

with the Student Body Association (SBA) and Peer Coaches will visit public high schools once a year to promote student leadership and assist in COM-FSM recruitment efforts.

FY2019 EMSS N SL: Outcome 3 - Student Life will promote the development of leadership and active student engagement by providing comprehensive trainings, workshops, retreats, activities and services for student leaders active in the Student Body Association and the Student Council across all campuses.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Project-Group - Student Life will provide opportunities for leadership development for SBA representatives from all six campuses that focuses on the development of student partnerships, the promotion of teamwork, and the importance of cross-campus communication.

Target: Student Life will hold at least two college-wide retreats and trainings throughout the 2018-2019 academic year.

Results

student involvement with recruitment. This could include assistance with high school presentations, administration of the COMET test, among others.

Reporting Period: 2018 - 2019

Target Met: Yes

Student Life held a college wide retreat during the Fall 2018 semester from September 15 - 22, 2018; this was held in Chuuk and attended by representatives from 5 out of the 6 campuses (the student representative from Yap Campus was not able to attend due to academic restrictions).

Furthermore, individual retreats were held at all campuses during the Spring 2019 semester; these retreat were held in April 2019 and attended by students from all six campuses. (07/16/2019)

Improvement Plan: It would be ideal if the retreats at the state campuses could be held over a longer period of time, to allow for the further development of leadership skills, as well as community building among the student and staff participants. As it stands, the retreats were only a day long, if they could be extended to even 2 or 3 days, it would be more beneficial for all participants involved.

2018-2019-EMSS-N-SLHS Outcome 1

- Students, faculty and staff will demonstrate increased awareness of services available at and provided by the Health Services by frequenting the Health Service clinic for information, resources, and basic first aid and immediate emergency treatment as appropriate.

AUO Status: Active
AUO Assessment Cycle: 2018 - 2019
Start Date: 10/01/2018
Inactive Date: 09/30/2019

Reporting Period: 2018 - 2019

Target Met: Yes

Tabulated frequency count of visits by students faculty, and staff to the Health Service showed that:

A. In 2017-2018, the Health Service received a total of 2,617 visits.

B. In 2018-2019, it received a total of 3,657.

C. A positive difference of 1,040 visits; therefore, an increase by 40 % in the number of visits as compared to prior year.

Improvement: Based on the results, the Health Service will continue to improve the delivery of health services and plans to implement the following in the next cycle:

1. Ensure the college community's continued access to basic health care and primary preventive health services.

2. Ensure administration of the Client Satisfactory Survey to determine the effectiveness of the

Health Services in providing the essential basic health care and preventive health services; and at least 80% positive rating on results.

D. The established criterion for success was "at least 10%" increase in the frequency of visits to the Health Service clinic; therefore, this criterion has been met.

However, to determine the perceptions of students, faculty and staff in terms of the effectiveness of the Health Services in providing the essential basic health care and preventive health services, the Health Service planned to use the Client Satisfaction Survey instrument, however, due to lack of time this activity could not be implemented. (06/15/2019)

Improvement Plan: Based on the results, the Health Services will continue to improve the delivery of health services and plans to implement the following in the next cycle:

1. Ensure the college community's continued access to basic health care and primary preventive health services.
2. Ensure administration of the Client Satisfactory Survey to determine the effectiveness of the Health Services in providing the essential basic health care and preventive health services; and at least 80% positive rating on results.
3. Maintain or exceed the present rate of frequency visits made by students, faculty and staff to at least 10 % from prior year.

Related Documents:

[HS \(2018-2019\)Frequency Counts of Visits served by Types of Service.pdf](#)

Reporting Period: 2018 - 2019

Target Met: Yes

The office logs also showed that:

A. In 2017-2018, the Health Service received a total of 1,149 visits by students, faculty and staff specifically for treatment of health maintenance/prophylaxis that include but are not limited to the seasonal influenza vaccinations, and others.

B. In 2018-2019 the dispensary received a total of 2,168 visits for the same kind of treatment.

Descriptive Statistics - Health

Services will ensure college community's continued access to health maintenance/prophylaxis treatment that include but are not limited to the seasonal influenza vaccinations, and others.

Target: Exceed the rate of students, faculty and staff taking the health maintenance/prophylaxis treatment by at least 10% from prior years.

Improvement: Based on the results, the Health Service plans to implement the following:

1. Ensure the availability and accessibility of health maintenance/prophylaxis treatment at all times.
2. Continually coordinate with Pohmpei State immunization program to ensure availability of the influenza vaccinations at the

Administrative Unit Outcomes

Assessment Strategies

Results

Improvements

Exceed the present number of students, faculty and staff taking the influenza vaccination health by at least 30% from prior year.

Statistically significant difference between the scores in the pre- and post-tests administered to a cohort of students seeking and receiving health care treatment and services.

C. A positive difference of 1, 019 visits; therefore, an increase by 89% in the number of visits for health maintenance/prophylaxis as compared to prior year.

D. The established criterion for success was "at least 10%" increase in the number of visits specifically for treatment of health maintenance/prophylaxis; therefore, this criterion has been met.

Also, tabulated frequency count of visits to the Health Service clinic and office logs on registration of participants to the health activities/workshops hosted and facilitated by the Health Service clinic showed that:

A. In 2017-2018 the Health Service received a total of 221 students, faculty and staff for the seasonal influenza vaccinations.

B. In 2018-2019 the dispensary received a total of 273 visits for the seasonal influenza vaccinations.

C. A positive difference of 52 in the number of participants for the seasonal influenza vaccinations; therefore, an increase by 24 % in the number of students, faculty and staff who received the flu vaccinations in comparison to prior year.

D. The established criterion for success was to "exceed the number of students, faculty and staff taking the seasonal influenza vaccinations by "at least 30%" from prior school year; therefore, this criterion has not been met.

Also, to determine the effectiveness of the Health Services' activities in terms of increased knowledge of students, faculty and staff based on their perceptions, a pre-test and post-test developed and designed by the Health Service was to be administered during the activities, however, this was somehow overlooked and was not administered. (06/15/2019)

Improvement Plan: Based on the results, the Health

COM clinic and at every health activity held on campus.

3. Maintain or exceed the present rate of students, faculty and staff taking the health

maintenance/prophylaxis by at least 10% from prior year.

4. Exceed the present rate of students, faculty and staff taking the seasonal influenza vaccinations by at least 30% from prior year.

5. Ensure administration of a pre and post test to determine the effectiveness of the Health Services' activities in terms of increased knowledge of students, faculty and staff based on their perceptions. (06/15/2019)

Services plans to implement the following:

1. Ensure the availability and accessibility of health maintenance/prophylaxis treatment at all times.
2. Continually coordinate with Pohnpei State immunization program to ensure availability of the influenza vaccinations at the COM clinic and at every health activity held on campus.
3. Maintain or exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis by at least 10% from prior year.
4. Exceed the present rate of students, faculty and staff taking the influenza vaccination by at least 30% from prior year.

Descriptive Statistics - Health
Services will ensure availability of needed medicines and medical treatment at all times by conducting monthly inventory of medical supplies and the timely procurement of medical supplies to replenish depleted inventory or stocks.
Target: At least four physical inventories will be scheduled and conducted; and at least three orders of medical supplies will be placed during the school year.

Reporting Period: 2018 - 2019

Target Met: No

According to stock cards, three (3) physical inventories were carried out on most of the medical supplies. The established criterion for success was "at least four inventories of medical supplies will be conducted during the school year"; therefore, this criterion has not been met.

However, according to the Health Service records, three purchase requests were submitted for purchasing/re-ordering of medical supplies. The established criterion for success was "at least three orders" of medical supplies will be placed during the school year; therefore, this criterion has been met. (06/15/2019)

Improvement Plan: Based on results, the Health Services will continually ensure availability of needed medicines and medical treatment at all times and plans to implement the following:

Improvement: Based on the results, the Health Service will continually ensure to conduct at least five physical inventories of medical supplies to replenish depleted stocks and to prevent stock outs. (06/17/2019)

1. Conduct physical inventories of medical supplies at least on a quarterly basis.
2. Procure medical supplies in a timely manner to replenish depleted supplies/stocks and avoid stock-outs.

Descriptive Statistics - In

collaboration with the State campus nurses, the Student Life staff and Information Technology staff, Health Services will further develop and/or update its webpage related information and available services.

Target: Updates on related information and available services for the Health Services webpage will be completed and uploaded by May 2019.

Reporting Period: 2018 - 2019

Target Met: Yes

The Health Service webpage with updates on related information and available services has been completed and uploaded. The established criterion for success was “the Health Service webpage will be completed and uploaded by May 2019”; therefore, this criterion has been met.

(06/15/2019)

Improvement Plan: Based on the results, although the webpage has been completed and uploaded, the National and State Campus nurses will continually assess the need for updates at least on an annual basis.

Improvement: Based on the

results, although the webpage has been completed and uploaded, the National and State Campus nurses will continually assess the need for updates at least on an annual basis. (06/15/2019)

Descriptive Statistics - Health

Services will coordinate with Pohnpei State Family Planning/ Maternal Child Health programs to assist in conducting a special health clinic for women at least twice per year; and continually attend at least two workshops/conferences to ensure safe and professional health practice and competency through continue upgrading of nursing skills and knowledge including maintaining currency of nursing license.

Target: At least one special health clinic for women will be held and conducted; and at least two health conference/workshops will be attended by the nurse during the school year.

Reporting Period: 2018 - 2019

Target Met: No

In collaboration with the Pohnpei State Family Planning and Maternal Child Health programs, a special clinic for women, Women Wellness Clinic, was established and officially opened on March 18, 2019. It is scheduled to open for service every other Mondays from 9:00AM-12:00PM. The following are services it offers:

- o Family Planning counseling and consultations;
- o Administration of the contraceptive methods;
- o Antenatal care and follow-up;
- o Pap smear testing/screening and follow-up;
- o STI/HIV testing/screening and follow-up;
- o Breast examinations;
- o Referrals and others.

The established criterion for success was “At least one special health clinic for women will be held and conducted”; therefore, this criterion has been met.

Also, to ensure safe and professional health practice and competency in carrying out the health services, the nurse attended a three day workshop on Family Planning and Visual Inspection and Acetic Acid (VIA) at Pohnpei State

Improvement: Based on the

result, the nurse will ensure participation in workshops/conferences and plans to coordinate with the Pohnpei Nurses Association officers to get information on any health- related conference/workshop held on island and in the region. (06/15/2019)

Hospital. The established criterion for success was “at least two on and off-island conference/workshop will be attended by the nurse”; therefore, this criterion has not been met. (06/15/2019)

Improvement Plan: Based on the result, the nurse will ensure participation in conferences/workshop and plans the following:

1. Keep in contact with the Pohnpei Nurses Association officers to get information on any nursing- related conference/workshop held on island or in the region.
2. Search on line for any nursing-related conferences/workshops held in the region and register to participate.

Follow-UpBased on the results, the Health Service will ensure to participate in at least two conferences/workshops during the school year.

2018-2019-EMSS-N-SLHS Outcome 2

- Students will demonstrate an understanding of their individual health conditions, including their own medical diagnosis and treatment plan.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Start Date: 10/01/2018

Inactive Date: 09/30/2019

Descriptive Statistics - Health Services will educate and provide appropriate health reference materials to all students to help them understand their health conditions, diagnosis and treatment plans and ensure referred students and students seeking treatment on their own at other clinics return to the COM-FSM clinic for further consultations on diagnosis and evaluation of medical visits are completed.

Target: At least 75% of students visiting the dispensary will have an understanding about their health condition and diagnosis and treatment as indicated in their medical visit evaluation forms.

Reporting Period: 2018 - 2019

Target Met: No

Due to limited time this activity could not be implemented. (06/15/2019)

Improvement Plan: Based on the results, the Health Service plans to implement activity in the next assessment cycle and also plans the following:

1. Update and provide current health information.
2. Order/re-order a pamphlets/booklets on various health-related topics.
3. Make copies of other booklet/pamphlets that are available in the dispensary.

Improvement: The Health Service will implement activity in the next Assessment Cycle. (06/15/2019)

2018-2019-EMSS-N-SLHS Outcome 3

- Students, faculty and staff will continue to demonstrate increased awareness and knowledge about current health issues and the relationship between lifestyle choices and wellness as a result of participation in the outreach activities.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Start Date: 10/01/2018

Inactive Date: 09/30/2019

Descriptive Statistics - Health

Services will continually organize and facilitate health education awareness and outreach programs/activities in collaboration with the college's health science and public health program, other on-campus programs/divisions, and the community and government health agencies; and encourage involvement students including SBA, student clubs organizations in the planning and implementation of activities.

Target: Exceed the current number of students participating in the Health Service facilitated health activities/workshops by at least 45% from prior year.

At least 85% positive rating on the results of survey administrators to a cohort of participants to the health service facilitated health activities/workshops.

Reporting Period: 2018 - 2019

Target Met: Yes

The office log on registrations of participants to the health activities/workshops hosted and facilitated by the Health Service clinic showed that:

A. In 2017-2018, the office hosted five health activities/workshops participated by about 617 students.

B. In 2018-2019, the office hosted the same number of health activities participated by about 1, 382.

C. A positive difference of 765; therefore, an increase by 124 % in the number of students participated in the Health Service facilitated health activities/workshops as compared to prior school year.

D. The established criterion for success was "at least 45%" increase in the number of students participating in the Health Service facilitated health activities/workshops; therefore, this criterion has been met.

Additionally, to determine the effectiveness of the Health Service facilitated health activities/workshops in terms of health issues, specially diabetes; a post survey consisted of five true and false questions was administered to a non-random sample (n) of 71 participants to the World Diabetes Day activities. The results showed overall positive ratings with the highest ratings (100%) on Question 7, i.e., some of the risk factors in developing type II diabetes include a family history of diabetes, lack of physical activity and overweight, and the lowest positive ratings (94.37%) on Question 5, i.e., type 2 diabetes can be controlled by diet and exercise. Furthermore, 98.59% of the 71 subjects provided accurate responses to Question 8, i.e., some of the long-term complications of uncontrolled diabetes including stroke, blindness, heart attacks and kidney failures with only 1.41% responded inaccurately. The results also showed that 98.57% of the 71 subjects provided accurate responses to Q 6, i.e., some signs and symptoms of type 2 diabetes

Improvement: Based on the results, the Health Service will continue to improve the coordination/facilitation of health awareness/outreach activities and plans to implement the following:

1. Continue to organize and facilitate health education and awareness activities in collaboration with the college's health science program and community and government health agencies.

2. Continue to encourage involvement of more students including SBA, student clubs/organizations in the planning and implementation of activities.

3. Continue to assess the level of knowledge of participants about health issues/problems by designing and developing surveys in collaboration with the office of the Vice President for Institutional Effectiveness and Quality Assurance (VPIEQA) to ensure good survey outcomes.

4. Exceed the current rate of students participating in the Health Service facilitated health activities/workshops by at least 10% from prior year. (06/16/2019)

include increased thirst, frequent urination, blurry vision and feeling tired with only 1.43% responded inaccurately. While 97.18% of the 71 subjects responded accurately to Question 4, i.e., type 2 diabetes is a chronic disease that causes a person's blood sugar level to become too high as result of the body not creating enough insulin to keep blood glucose (sugar) level in the normal range, only 2.82% responded inaccurately. (06/16/2019)

Improvement Plan: Based on the results, the Health Service will continue to improve the coordination/facilitation of health awareness/outreach activities and plans to implement the following:

1. Continue to organize and facilitate health education and awareness activities in collaboration with the college's health science program and community and government health agencies.

2. Continue to encourage involvement of more students including SBA, student clubs/organizations in the planning and implementation of activities.
3. Continue to assess the level of knowledge of participants about health issues/problems by designing and developing surveys in collaboration with the office of the Vice President for Institutional Effectiveness and Quality Assurance (VPIEQA) to ensure good survey outcomes.
4. Exceed the current rate of students participating in the Health Service facilitated health activities/workshops by at least 10%.

Descriptive Statistics - Health
Services will continually organize and facilitate annual health screening activities that include but are not limited to diabetes, hypertension, obesity, sexually transmitted infections and others.

Reporting Period: 2018 - 2019

Target Met: No

To further determine the effectiveness of the Health Service facilitated health activities/workshops in terms of basic knowledge of students and staff about health issues and problems, specifically HIV and Aids; a post survey consisted

Improvement: Based on the results, the Health Service plans the following:

1. Continually organize and facilitate annual health screening activities to the college

Target: Statistically significant difference between the scores in the pre-and post-tests administered to a cohort of students and staff participating in the screening activities.

of five questions was administered to a non-random sample (n) of 81 participants to the 2018 Worlds Aids Day screening activities. The results showed the highest positive ratings 85.71% (or 72) on Question 7, i.e., having sex with more than one partner can increase a person's chance of being infected with HIV and the lowest positive ratings 26.19% (or 22) on Question 9, i.e., there is a vaccine that can stop adults from getting HIV. The results also showed that 65.06% (or 54) of the 81 subjects responded accurately to Question 10, i.e., a person can get HIV even if she or he has sex with another person only one time; while 10.84% (9) responded inaccurately and 24.10% (20) indicated not knowing the answer. Furthermore, the results also showed that 60.24% (or 50) of the 81 subjects responded accurately to Question 8, i.e., it is possible to get HIV when a person gets a tattoo, only 14.46% (or 12) responded inaccurately and 25.30% (or 21) indicated not knowing the answer. While 37.04% (or 30) of the 81 subjects responded accurately to Q 6, i.e., HIV and AIDS are the same thing, 28.49% (or 23) responded inaccurately and 34.57% (or 28) indicated not knowing the answer. (06/16/2019)

Improvement Plan: Based on the results, the Health Service plans the following:

1. Continually organize and facilitate annual health screening activities to the college community.
2. Continually assess the effectiveness of activities by developing and designing good survey in collaboration the office of the Vice President for Institutional Effectiveness and Quality Assurance (VPIEQA) to ensure good survey outcomes.

AUO Assessment Cycle: 2018 - 2019

Start Date: 10/01/2018

Inactive Date: 09/30/2019

Descriptive Statistics - Health Services will coordinate with the Pohnei State Family Program to ensure continuous access to all the available contraceptive methods on island.

Target: At least 50% of the contraceptive methods available on island will be available in the Health Service clinic.

Reporting Period: 2018 - 2019

Target Met: Yes

The office records showed that:

A. The dispensary has in stock four (4) (or 67%) of the six (6) different kinds of contraceptive methods available on island.

B. The established criterion for success was "at least 50%" of the contraceptive methods available on island will be dispensed in the Health Service clinic, therefore, this criterion has been met.

Improvement Plan: Based on the results, the Health Service plans to:

1. Ensure continuous access to different kinds of contraceptive methods to the college community.
2. Maintain or increase the rate of contraceptive methods dispensed in the Health Service clinic.
3. Increase the rate of students' visits for family planning by 5% from prior year.

Improvement: Based on the results, the Health Service plans to:

1. Ensure continuous access to different kinds of contraceptive methods to the college community.
2. Maintain or increase the rate of contraceptive methods dispensed in the Health Service clinic.
3. Increase the rate of students' visits for family planning by 5% from prior year. (06/16/2019)

Descriptive Statistics - Health Services will coordinate with the Residence Hall staff to ensure accessibility of condoms to the residents.

Target: Provide supplies of condoms to the Residence Halls every month or as needed.

Reporting Period: 2018 - 2019

Target Met: No

According to the Health Service records, condoms were dispensed to the Residence Halls residents only twice during the reporting period. (06/16/2019)

Improvement Plan: Based on the results, Health Services plans the following:

1. Continually provide supplies of condoms to the residents.
2. At least twelve (12) boxes of condoms will be provided to the Residence Halls during the school year.

Improvement: Based on the results, Health Services plans the following:

1. Continually provide supplies of condoms to the residents.
2. At least twelve (12) boxes of condoms will be distributed to the Residence Halls during the school year. (06/16/2019)

Exam/Quiz - Pre-Post - Health

Services will coordinate with staff of the Pohnei State Family Planning Program to conduct at least two presentations on family planning to the residents of the Residence Halls

Reporting Period: 2018 - 2019

Target Met: No

According to log of health activities hosted and facilitate by the Health Services, a presentation on Family Planning and Reproductive Health was held and conducted by the Public health Staff. A total of 45 students participated in the

Improvement: Based on the results, the Health Service plans to implement the following:

1. Health Service will ensure individual presentation on

different health topics including family planning be organized and conducted to the residents in the Residence Halls during the school year; and to develop and design surveys to determine their effectiveness.
 2. Statistically significant difference between the scores in the pre-tests and post-tests administered to a cohort of participants to Health Service facilitated presentation.
 (06/16/2019)

2018-2019 EMSS NC SLRH Outcome 1 Survey - During the 2018-2019 academic year, the Residence Hall will hold three orientation sessions to review the rigors of Residence Hall procedures, rules, regulations as well as the college policies; along with, three floor meetings and at least two general assemblies to provide updates and address any issues and concerns that may arise.

Target: On average, at least 85% of residents who attend the orientation sessions, floor meetings and general assemblies will indicate that they found the meetings to be useful and informative and that they fully understand the College's expectations of them as members of the community.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Reporting Period: 2018 - 2019

Target Met: Yes

As a result of participating in the residence halls orientation, All new residents each semester recognized issues they may encounter, specifically managing relationships including roommates, making the right choices, and adjusting to academic expectations critical to their success.
 (06/28/2019)

Improvement Plan: Residence halls staff need to engage in understanding, discussing, strictly enforce and support all rules and regulations of the residence halls and will review and evaluate how effective the rules and policies are carried out.

Survey - The Residence Hall will meet with residents regarding personal concerns, making referrals to the appropriate offices, as needed.

Reporting Period: 2018 - 2019

Target Met: Yes

As a result, 90% of the residence hall students who were referred for needed assistance, recognized why he/she is on academic and/or progress probation and the key

Target: At least 85% of residents surveyed will indicate that they found their concerns were addressed in a timely manner and that they were given a specific plan to assist them in achieving positive results.

Project-Group - The Residence Hall will provide residents with written literature outlining the rules, regulations, policies, procedures and expectations of living in the Residence Hall.

Target: By the end of the 2018-2019 academic year, the Residence Hall will have completed the creation and publication of a Residence Hall Handbook.

Survey - The Residence Hall will continue to enforce firm policy rules and regulations, referring residents to the proper authorities for disciplinary action in a timely manner.

Target: At least 90% of the residents who violate College policy will indicate that they have learned from their experiences and that they now understand the importance of their actions and decisions, and the impact of those actions and decisions on themselves and others.

FY 2019 EMSS NC SLRH Outcome 2 - The Residence Hall will work to build a sense of community and mutual respect among students and Residence Hall staff members.
AUO Status: Active

requirements for returning to good standing. (06/28/2019)
Improvement Plan: Residence halls will continue to collaborate with other department offices to promote and support academic success, social responsibility, character development, and personal growth through successful interactions with students.

Reporting Period: 2018 - 2019

Target Met: NO

To warrant such policies are consistent with College and other appropriate offices and to provide direction to residence hall students and staff as they implement the rules and regulations of the residence halls. (06/28/2019)

Improvement Plan: Continue to work closely with Student life director in completing the residence halls handbook

Reporting Period: 2018 - 2019

Target Met: Yes

As a result of the continuous residence halls orientation specific to the residence halls rules and regulations including protocols and procedures, All new residents expressed that they have a better understanding and knowledge of the residence halls rules and regulations. (07/01/2019)

Improvement Plan: Conduct surveys to learn about what is important to them, and gather meaningful opinions, comments, and feedback and allows us to dig deeper into our survey to measure and establish a benchmark from which to compare results over time.

Reporting Period: 2018 - 2019

Target Met: Yes

Residence halls attempted to focus more on events that can relate most strongly connection to the residence hall objectives. In addition to specific extra curricular programs, it is important to assess and use the resulting information

AUO Assessment Cycle: 2018 - 2019

will participate in the homecoming and holiday programs.

to improve the overall quality of scheduled events , as well as to ensure that they are in alignment with the residence halls objectives. (07/01/2019)

Improvement Plan: The residence halls will continue to provide an variety of extra-curricular activities for resident students. These activities includes, community outreaches, social events, and other activities as facilitated by and in collaboration with other units of the student support services.

Project-Group - The Residence Hall will provide opportunities for students to establish mutually rewarding relationship with fellow residents and staff members through the implementation of orientation sessions, floor meetings and general assemblies.

Target: During the 2018-2019

academic year, the Residence Hall will schedule three orientation sessions, three floor meetings, and two general assemblies to provide forums for open communication among and between residents and staff members.

Reporting Period: 2018 - 2019

Target Met: Yes

According to the residence halls survey(Fall 2018) overall response of 87% claimed that they are satisfied with their overall experience in regards to services, programs, extra and co-curricular activities including facilities safety and securities. (07/01/2019)

Improvement Plan: Continue to work and collaborate with the, Maintenance Division, and Campus Security especially to ensure timely reponses to identified needs of the residence halls, such as but by any means not limited to facility repairs and maintenance works, security and safety, and others

FY 2019 EMSS NC SLRH Outcome 3 -

The Residence Hall will recruit, select, train and provide general guidance to Residence Hall staff to ensure appropriate and proper guidance, support and discipline is provided to all residents.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Survey - The Residence Hall will

continue to provide learning opportunities for current staff through participation in workshops and trainings, held both on and off campus, in efforts to improve skills and knowledge regarding daily responsibilities and work related assignments.

Target: By Spring 2019, 90% of the staff members surveyed will report that they feel knowledgeable, skilled and confident in providing services to all residents.

Reporting Period: 2018 - 2019

Target Met: Yes

Based on the survey conducted in Fall 2018, respondents reported that they are very much satisfied in terms of services provided, skills, confidence providing services and efficiency of staffs in the residence halls. (07/01/2019)

Improvement Plan: Residence halls will continue to provide opportunities to boost all staff knowledge,skills necessary to perform their job related duties and responsibilities, courteous and more efficient.

FY 2019 EMSS NC SLRH Outcome 4 -
The Residence Hall will provide clean and well- maintained facilities and an environment within the Residence Halls that is conducive to the learning process.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Project-Group - The Residence Hall will process work orders in a timely manner and submit to the Office of Maintenance for prompt action.
Target: At least 90% of the work orders submitted to the Maintenance Office will be completed within 3 working days or less, dependent upon the nature of the work requested.

Project-Group - The Residence Hall will work directly with Director of Maintenance regarding replacement of all old furniture in each of the Residence Hall rooms; e.g. closets, study tables, bed boards etc.

Target: At least 75% of the needed items/requested will be provided by the end of the Spring 2019 semester.

Reporting Period: 2018 - 2019

Target Met: Yes

Survey shows that 90% have agreed that overall experience in the residence hall has been positive. (07/01/2019)

Improvement Plan: Continue to work with Maintenance division in terms of building maintenance, replacing furnitures, and building upgrades (water system, electrical and others)

Reporting Period: 2018 - 2019

Target Met: Yes

Maintenance division provided 90% of the requested items for the residence halls during Fall 2018 semester. These includes, bed frames, bunk beds and ceiling fans. (07/01/2019)

Improvement Plan: Continue to work with the maintenance division in terms of Recent projects- replacements of wooden closet and study tables, additional mattresses, ceiling fans replacements including bunk bed upgrades.

Project-Group - The Residence Hall will perform monthly room inspections and note deficiencies for all residents' rooms.

Target: At least 90% of the residents will report that all items in their rooms are working in very good condition, guaranteeing the safety of the residents and the support of their academic success.

Reporting Period: 2018 - 2019

Target Met: Yes

The overall response from the residents during the fall 2018 survey in terms of safety, functionality and well maintained room are rated satisfactory. (07/01/2019)

Improvement Plan: Residence halls staff will continue to work with the maintenance division in terms of building maintenance and other students needs in the residence halls.

FY2019 EMSS N SLRS: Outcome 1 -
Sports and Recreation will plan, implement and run sports competitions and other recreational activities of interest to the student body and beyond to enhance participation from the college

Project-Group - Sports and Recreation will develop and implement a calendar of events, ensuring that all activities are properly advertised and promoted in a timely manner for the information

Reporting Period: 2018 - 2019

Target Met: Yes

Calendar of events were properly advertised and promoted in a timely manner for all students and the college community. Along with the calendar we also post sports and activities on our website and the turn outs for

Administrative Unit Outcomes

Assessment Strategies

Improvements

community.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Start Date: 07/10/2020

of all student, staff and faculty.

Target: Sports and Recreation will create an activity calendar for the facility on a semesterly basis, this calendar will be posted one month in advance of each semester.

Descriptive Statistics - Sports and Recreation will survey the student body to better determine student interest in new sporting opportunities and other recreational activities. This information will be used in the development of the semesterly calendars.

Target: Sports and Recreation will survey 75% of the student body, in order to better understand the interest and needs of the students.

participation is improving. (08/22/2019)

Improvement Plan: To have a booth set up during registration for awareness of what is going on at the sports and recreation.

Reporting Period: 2018 - 2019

Target Met: No

Interest of the students were not fully met, survey is still in the planning process. (08/22/2019)

Improvement Plan: Work closely with SBA to come up with the survey and use during overall student activities.

FY2019 EMSS N SLR: Outcome 2 -

Sports and Recreation will ensure that students and athletes alike exhibit the values of sportsmanship, teamwork, and camaraderie; as well as, demonstrate the basic knowledge of coaching, officiating and organizing sports competitions and other recreational activities that take place in the facility.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Start Date: 07/10/2020

Reporting Period: 2018 - 2019

Target Met: No

Because of the Micro games and the South Pacific games, cannot invite zone development officer to conduct these workshops. Sportsmanship, teamwork, coaching and officiating is being emphasized by the sports and recreation staffs when the college participate in competitions but not on a high level scale. (08/22/2019)

Improvement Plan: Communicate with our NOC so we can have zone development visit this year.

Reporting Period: 2018 - 2019

Target Met: No

Conflict of w/study students with their classes, not all w/study students are participating in these trainings off campus. (08/22/2019)

Improvement Plan: Bring in these trainings on campus so we can meet the targeted percentage.

Project-Group - Sports and Recreation will provide the resources and preparation that will ensure the Sports and Recreation work study students participate in sports training workshops off campus.

Target: 90% of the work study students, who work in Sports and Recreation, will participate in at least

one off campus workshop a semester.

FY2019 EMSS N SLSR: Outcome 3 - Sports and Recreation will ensure that services are provided on a daily basis, and that all facilities and resources/equipments made available for use are adequate and environmentally safe for the College community and all other stakeholders who may be utilizing the services at the FSM-China Friendship Sports Center at National Campus.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019
Start Date: 07/10/2020

Survey - Sports and Recreation will survey participants in sports competitions and recreational activities, as well as, all other stakeholders utilizing our facilities, to ensure satisfaction for facilities and equipment use.

Target: Sports and Recreation will survey 75% of facility users.

Project-Group - Sports and Recreation will hold monthly staff meetings to identify strengths and weaknesses in the delivery of day to day operations, and will review and prepare for the following month's activity calendar.

Target: Each month, Sports and Recreation will establish 2 goals for the staff as a whole, and will designate duties for the upcoming Student Life and Sports & Recreation events.

Reporting Period: 2018 - 2019

Target Met: No

Survey is still in the planning process, now we are only using verbal communication and appreciation letters from customers to measure satisfaction from students and our valued customers. (08/22/2019)

Improvement Plan: Construct the survey and start using so we know our weaknesses and strengths.

Reporting Period: 2018 - 2019

Target Met: Yes

In fact we sometimes meet twice a month when necessary and turn out of these meetings really show on the staffs effort of complying with it. (08/23/2019)

Improvement Plan: Improvement plan is to get feedback from staffs during our meeting and work together to achieve it.

FY 2019 EMSS SLRH Outcome 5 - The Residence Hall will offer programs to promote community development and active campus involvement in order to serve the interests and needs of the diverse students residing in the Residence Hall.

AUO Status: Active

AUO Assessment Cycle: 2018 - 2019

Survey - The Residence Hall will continue to and increase coordination with the Office for the Director of Student Life regarding greater academic support opportunities for residents, including but limited to, convenient access to events and activities, tutoring, academic success, as well as, mentorship programming in the Residence Hall.

Target: At least 80% of residents who participate in the offered

Reporting Period: 2018 - 2019

Target Met: Yes

There was no assessment made during this reporting cycle, as such, the Residence Halls staff will develop and implement the improvement plans in the academic year 2019-2020. (07/01/2019)

Improvement Plan: Residence halls staff will continue to collaborate with other student support services units to facilitate activities/ programs that support the college's effort toward promoting student success

programs in the Residence Hall will indicate that they feel they reside in a unique living-learning community, one where they are able to reflect on their priorities, practice problem solving skills, utilize strategies and resources, and craft and implement plans for achieving their academic goals, while attending COM-FSM.

2019-2020 EMSS N SLHS: Outcome 1

- Students, faculty and staff will continue to demonstrate increased awareness of services available at and provided by the Health Services by frequenting the Health Service clinic for information, resources, and basic first aid and immediate emergency treatment as appropriate.

AUO Status: Active

AUO Assessment Cycle: 2019 - 2020

Start Date: 10/01/2019

Inactive Date: 09/30/2020

Reporting Period: 2019 - 2020

Target Met: No

Tabulated frequency count of visits by students faculty, and staff to the Health Service showed that:

A. In 2018-2019, the Health Service received a total of 3, 657 visits.

B. In 2019-2020, it received a total of 3, 607 visits.

C. A negative difference of 50 visits; therefore, a decrease by 1.4 % in the number of visits as compared to prior year.

D. The established criterion for success was "at least 10%" increase in the frequency of visits to the Health Service clinic; therefore, this criterion has not been met.

Also, to determine the level of satisfaction with essential basic health care and preventive services provided, the Health Service planned to conduct the Client Satisfaction Survey instrument, however, this activity could not be implemented mainly due to COVID-19 restrictions. (07/04/2020)

Improvement Plan: Based on the results, the Health Service will continue to improve the delivery of health services and plans to implement the following in the next cycle:

1. Health Services will ensure college community's continued access to essential basic health care and primary preventive health services; and continue to assess the effectiveness and level of satisfaction of students with

Improvement: Based on the results, the Health Services will continue to improve the delivery of health services and plan to implement the following for the next cycle:

1. Health Services will ensure the college community's continued access to essential basic health care and primary preventive health services; and ensure stock supplies of hand sanitizer, first aid kits and treatment of minor injuries and emergencies are provided to Residence Halls and other offices on campus.

2. Exceed the present rate of frequency visits made by students, faculty and staff to at least 10 % from prior year.

3. At least 75% of the offices on campus including the Residence Halls will be provided with stock supplies of hand sanitizer, first aid kits and treatment of other common minor problems and emergencies.

these services.

2. Health Service will continue to provide stock supplies of hand sanitizer and first aid kits to residence halls and other offices to ensure accessibility to cleansing agents and treatment of common minor injuries and emergencies.
3. Health Services will ensure college community's continued access to health maintenance/prophylaxis treatment that include but are not limited to the seasonal influenza vaccinations; and continually coordinate with Pohnei State immunization program to ensure availability of the influenza vaccinations at the COM clinic and at every health activity held on campus; and continue to assess the level of knowledge of students about health care services and treatment provided by the Health Service.
4. Health Services will ensure availability of medical supplies and treatment by conducting quarterly inventories of medical supplies to ensure timely procurement of medicines and other supplies and to prevent stock outs.
5. Health Services will ensure safe and professional health practice and competency by ensuring the nurse continued participation in workshops/conferences held on and off island to upgrade nursing skills and knowledge including maintaining currency of nursing license.
6. Health Service will continue to provide special clinic that provides care and treatment for women-specific problems.

facilitate annual health screening activities that include but are not limited to diabetes, hypertension, obesity, sexually transmitted infections and others.
Target: Exceed the current rate of students, faculty and staff participating in the health screening activities by at least 10% from prior school year.

Statistically significant difference between the scores in the pre and post tests administered to a cohort of participants to the sexually transmitted infection screening activity.

Results

The office logs showed that:

A. In 2018-2019 the Health Service received a total of 1, 759 students, faculty and staff participating in the health screening activities.

B. In 2019-2020 it received a total of 1,039 participants to the health screening activities.

C. A negative difference of 720 in the number of participants; therefor, a decrease by 41% in the number of students, faculty and staff participating in the health screening activities in comparison to prior year.

D. The established criterion for success was to exceed the current rate of students, faculty and staff participating in the health screening activities by “at least 10%”; therefore, this criterion has not been met.

Also, to determine the level of knowledge of participants to the sexually transmitted diseases, a pre-test and post- test was administered to a cohort of participants to the sexually transmitted disease screening activities. Results will be posted when tabulation and evaluation of results are completed. (07/08/2020)

collaboration with academic advisors to survey students, seeking feedback, input and ideas on improving student participation outside of the classroom.

Research - Student Life will work with registered organizations to research transportation barriers preventing student involvement outside of the classroom.

Target: Student Life will develop an action plan, in collaboration with students, faculty and staff aimed at improving and expanding transportation options for off-campus students.

Reporting Period: 2019 - 2020

Target Met: No

Student Life had the opportunity to dialogue with representatives from CTEC and National Student Organizations at the annual Leadership Retreat, but due to covid-19 there was no follow up done with the advisors and officers due to communication barriers faced. (06/29/2020)

Improvement: Student Life will use the data received from the Student Council Leadership Retreat discussions as a guide for future dialogue with the Organization officers and advisors to collaboratively develop an action plan to address the issue of transportation for off-campus students and how it directly impacts their involvement in campus events and activities. (06/29/2020)

Project-Group - Student Life will provide a variety of events meant to target participation from various groups of students, working to identify those events that illicit the most involvement.

Target: Student Life will host four events focused on social, cultural, physical and mental activities, conducting surveys during each to track the profile of students in attendance.

Reporting Period: 2019 - 2020

Target Met: Yes

Student Life successfully reached this target by providing a diverse range of events targeting social, cultural, physical and mental activities. The kick-off event for the Fall 2019 semester was the second largest social event of the semester, after the Annual Talent Show. The annual Involvement Fair showcased various culture groups, highlighting their uniqueness and welcoming new students to join their organization and learn more about their culture. The Wellness Project's Salsa Dancing with community member's Mabel and Marta in addition to the local rainforest walk organized by the Director ISLET, offered the physical activity components so many of our students requested. The Wellness Project's yoga and meditation offered mental and spiritual exercises to those interested. (06/29/2020)

Improvement: Student Life will continue to expand and diversify the events and activities offered based on feedback and student interest. (06/29/2020)

Residence Hall will have completed the creation and publication of a Residence Halls Handbook

feedback. (06/10/2020)

Survey - Residents will acquire knowledge and skills that will make them self- sufficient and capable to tackle everyday challenges
Target: As a result of participating in the residence halls programs or events, at least 85% of the residents will be able to practice problem-solving skills, utilizing strategies and resources provided by the residence halls.

Reporting Period: 2019 - 2020

Target Met: Yes

In attempts to help in providing opportunities to enhance students knowledge and skills, the following events were held in collaboration with counseling office:

Test taking tips- February 22, 2019

Resume and interview workshop- March 13 and 15, 2019

Student success and life skills- January 22, 2020

Education USA transfer workshop- March 11, 2020

(06/11/2020)

Survey - Enhance the out of classroom experience for residents by growing the living learning experience in residence halls..

Target: Continue to work with SL office to provide co- curricular and extra curricular activities to the residence halls students .

Reporting Period: 2019 - 2020

Target Met: No

During the course of the year, it feels as if there are few opportunities for the residence halls community to come together. In part, this is due to conflicting schedules and obligations. Related, events often overlap, which may decrease their attendance and impact. In part, it is due to the fact that students are so often preparing for their next assignment or exam, filling all of their available time with work. (06/16/2020)

offices and to provide direction to residence halls students and staff as they implement such rules and regulations of the residence halls. (06/11/2020)

Improvement: Continue to collaborate with Director of student life, counselors and other department in providing educational opportunities for all residents. (06/11/2020)

Improvement: Continue to to coordinate with Student Life director, student leaders and Student organization and other department/division so that the schedule does not become fragmented and overwhelming. In addition, all events for residents (including “de-stress” events and health and well-being focused activities) and particularly college events need to be well communicated to encourage community engagement. (06/16/2020)

2020-2021 EMSS NC SLRH Outcome 1

- Residents halls will continue and improve support in regards to academic success, careers, and professional responsibilities in an increasingly complex world to all residence students

Survey - Residence halls will

continue to promote learning through programs, events, training and services with an emphasis on academic support, wellness, and achievement.
Target: at least 85% of residents

Reporting Period: Summer 2021

Target Met: Yes

As a result, 87% claimed that they learned a lot from the activities provided for them during Fall 2020 semester and they had fun. Though 13% of the residence halls population claimed that activities provided for residents are not enough and suggested to request more fun activities to

Improvement: Residence halls Continue to work with Student life office in creating or developing ideas that can involve all of the residents and other members of the college community specially

who will participate will demonstrate the ability to evaluate, integrate, and apply appropriate information from various sources. in addition, increase their knowledge regarding values, practices promoted by programs, training or event.

create bonds or allow the student to open up to each other and get to know each other better. (07/30/2021)
Improvement Plan: Although we met our target in promoting programs and events in the residence halls, we will continue to provide and create a co-curricular and extra curricular activities with clearly articulated learning outcomes at least 90% satisfaction rate or higher in the coming semesters.

Survey - Residence halls will continue to provide skill enhancements, training opportunities for staff to become more efficient with their work and effective in providing assistance when responding to student-needs and concerns.

Target: 90% of Residence halls staff will be expected to provide extensive services, feel adequately prepared to respond in emergency situation, increase satisfaction with services and improve timeliness of services deliveries.

Reporting Period: Summer 2021

Target Met: Yes

Skill development and training can result to acquiring the knowledge basic skills like communication, customer services, report writing, emergency response training etc. As a result, all staff in the residence halls have completed the 2 hours basic CPR training etc, New staff members gained new knowledge and skills in performing their roles, apply their knowledge regarding the residence protocols including college pertinent policies. (07/30/2021)

Improvement Plan: Despite the fact the we have provided a must need staff training, continues improvement is one of our priorities. In the coming months and years to come, we will continue to offer training to staff focusing on customer services and other area due to the regular changing environment and ensuring we provide quality services to all residents at least 95% of residence halls staff will be expected to provide quality services, feel adequate to response in any given situation including emergency responses, and improved timeliness of services deliveries.

Improvement: Staff will be regularly evaluated to assess staff strength and weakness and to determine what type of training they needed. This will ensure the staff is meeting unit's expectations. Trainings provided for the staff will be made each semester to best meet the needs of the unit with the current needs of students each semester. (07/30/2021)

2020-2021 EMSS NC SLRH Outcome 2
 - Residence halls will continue to work more closely with the Student Life program to create more community education and strategies for learning for school year 2020-2021.

AUO Status: Active
AUO Assessment Cycle: 2020 - 2021
Start Date: 10/01/2020

Survey - Residents will be challenged to create a retreat that submerges students in a learning experience that involves services and leadership growth opportunities.

Target: At least eighty percent (80%) of residents in the residence halls will be able to articulate ways to help build inclusive communities.

Reporting Period: Summer 2021

Target Met: Yes

Residence halls is responsible to nurture and foster the development of inclusive community so that our students feel valued and known. as a result, 80% claimed that the residence halls encourages respectful dialogue and personal growth, commitment to kindness, empathy and respect. (07/30/2021)

Improvement Plan: Notwithstanding the fact that we met our target, Residence halls will continue to create inclusive

Improvement: Residence halls will continue to collect residents and staffs feedback including the college community to involve them in shaping the residence halls so they feel more attached and helps create a stronger relation with residents. Reinforce open-mindedness, provide

2020-2021 EMSS N SLHS: Outcome 1

- Students, faculty and staff will continue to demonstrate increased awareness of services available at and provided by the Health Services by frequenting the Health Service clinic for information, resources, and basic first aid and immediate emergency treatment as appropriate.

AUO Status: Active

AUO Assessment Cycle: 2020 - 2021

Start Date: 10/01/2020

Inactive Date: 09/30/2021

Reporting Period: 2020 - 2021

Target Met: No

Tabulated frequency count of visits by students, faculty and staff to the Health Service showed that:

A. In 2019-2020, the Health Service received a total of 3, 607 visits.

B. In 2020-2021, it received a total of 3,124 visits.

C. A negative difference of 483 visits; therefore, a decrease by 13 %

D. The established criterion for success was "at least 10%" increase in the frequency of visits to the Health Service clinic; therefore, this criterion has not been met.

However, to ensure accessibility to treatment of common minor injuries and safe practice of basic health hygiene, the Health Service had provided first aid kits and supplies of hand sanitizer and masks to about 76% of all the offices on campus.

The established criterion for success was "at least 75%" of the offices on campus including the Residence Halls will be provided with stock supplies of hand sanitizer, first aid kits

Improvement: Based on the results, the Health Service will continue to improve the delivery of health services and plan to implement the following in the next cycle:

1. Health Services will ensure the college community's continued access to essential and effective basic primary and preventive health care; as such, students demonstrate increased awareness and knowledge about their individual health problems including diagnoses and treatment and continue to assess the level of satisfaction of students with the essential basic health care and preventive services.

2. Exceed the present rate of frequency visits made by students, faculty and staff to at least 25 % from prior year.

client's satisfaction survey.

and treatment of other common minor problems and emergencies; therefore, this criterion has been met.

And to determine the level of satisfaction with essential basic health care and preventive services provided, the Health Service planned to conduct the Client Satisfaction Survey, however, this activity could not be implemented during the reporting cycle. The Health Service plans to administer the survey in the next cycle. (09/10/2021)

Related Documents:

- [HS \(2020-2021-2019-2020\) Frequency Counts of Visits served by Types of Service.pdf](#)
- [HS Updates to the July 6 2021 BOR Meeting.pdf](#)

3. At least 80% of students seeking medical treatment will complete the medical encounter forms signifying their understanding the diagnoses and treatment provided.

4. At least 80% positive rating on the client's satisfaction survey (09/13/2021)

Improvement: Although the target rate of frequency visits was not met, the Health Service was able to provide more than 75% of the offices on campus with first aid kits, supplies of hand sanitizers and face masks and others; and due pandemic restrictions, satisfaction survey could not be administered. (09/28/2021)

Exam/Quiz - Pre-Post - 2. Health Services will ensure college community's continued access to health maintenance/prophylaxis treatment that include but are not limited to the seasonal influenza vaccinations, multivitamin supplements, baby aspirin, deworming medicines and others; and continually coordinate with Pohncpei State immunization program to ensure availability of the influenza vaccinations to the college community ; and continue to assess the level of knowledge of students about health care services and treatment provided by the Health Service.

Reporting Period: 2020 - 2021

Target Met: No

The office logs showed that:

- A. In 2019-2020, the Health Service received a total of 2,563 visits by students, faculty and staff specifically for treatment of health maintenance/prophylaxis that include but are not limited to the seasonal influenza vaccinations, and others.
- B. In 2020-2021 the Health Service received a total of 1,525 visits for the same kind of treatment.
- C. A negative difference of 1,038 visits; therefor, a decrease by 40% in the number of visits for health maintenance/prophylaxis as compared to prior year.
- D. The established criterion for success was "at least 10%"

Improvement: Based on the results, the Health Service plans to implement the following in the next cycle:

1. Continue to provide treatment of health maintenance/prophylaxis that include but are not limited to the seasonal influenza and Covid-19 vaccinations, multivitamin supplements, deworming medicines and others; and continue to coordinate with Pohncpei State and FSM Health immunization program to ensure availability of the influenza and Covid-19 vaccinations to the

- Target:** 1. Exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis by at least 10% from prior year.
2. Exceed the present rate of students, faculty and staff and the residents of the Residence Halls taking the seasonal influenza vaccinations by at least 10% from prior year.
3. Statistically significant difference between the scores in the pre- and post-tests administered to a cohort of students seeking and receiving health care services and treatment.

increase in the number of visits specifically for treatment of health maintenance/prophylaxis; therefore, this criterion has not been met

Also the office logs showed that:

A. In 2019-2020 the Health Service received a total of 288 students, faculty and staff for the seasonal influenza vaccinations.

B. In 2020-2021 it received a total of 95 visits for the seasonal influenza vaccinations.

C. A negative difference of 193 in the number of participants for the seasonal influenza vaccinations; therefore, a decrease by 67% in the number of students, faculty and staff taking the influenza vaccination in comparison to prior year.

D. The established criterion for success was "at least 10%" increase in the current rate of students, faculty and staff taking the influenza vaccination; therefore, this criterion has also not been met. (09/10/2021)

college community.

2. Exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis by at least 40% from prior year.

3. Exceed the present rate of students, faculty and staff taking the seasonal influenza vaccinations by at least 20% from prior year.

4. At least 98% of all eligible students will be fully vaccinated with the Covid-19 vaccines.

5. At least five (5) physical inventories are scheduled and conducted during the the school year. (09/13/2021)

Improvement: Due to the COVID-19 pandemic, the target rates of students, faculty and staff taking the maintenance/prophylaxis and the seasonal influenza vaccination were not met. However, thirty three (33) students and staff were able to receive the Covid-19 vaccinations during the reporting period. (09/28/2021)

Descriptive Statistics - 3. Health Services will continually schedule and conduct physical inventories of medical supplies to ensure timely procurement of medicines and other supplies to replenish depleted stocks and to prevent stock outs; and

Reporting Period: 2020 - 2021
Target Met: No

The office stock cards showed that:

A. Four (4) physical inventories were conducted on most of the medical supplies during the reporting cycle.

Improvement: Based on results,

1. The Health Service will continue to schedule and conduct physical inventories of medical supplies to ensure timely procurement of medicines and other supplies to

prepare at least two purchase requests of needed medical supplies during the school year.
Target: 1. At least five physical inventories will be scheduled and conducted during the school year.

2. At least two purchase requests of needed medical supplies will be prepared and submitted for processing.

Descriptive Statistics - 4. Health Services will ensure safe and professional health practice and competency by ensuring the nurse's continued participation in on and off- island health-related workshops/conferences to upgrade nursing skills and knowledge including maintaining currency of nursing license; and coordinate with the Pohnpei State Family Planning and Maternal Child Health programs to ensure the Women's Wellness Clinic continues to provide the needed services for women-specific problems

Target: 1. The nurse will participate in at least two on and off- island health workshops/conferences during the school year.

2. Exceed the rate of women visiting the Women's Wellness Clinic for appointments and treatment by at least 5% from prior school year.

B. The established criterion for success was "at least five" physical inventories of medical supplies will be scheduled and conducted during the school year; therefore, this criterion has not been met.

However, the office records showed that at least eight (8) purchase requests of medical supplies were prepared and process during the reporting period. The established criterion for success was "at least two (2)" purchase requests of needed medical supplies will be prepared and submitted for processing; therefore, this criterion has been met. (09/10/2021)

Reporting Period: 2020 - 2021
Target Met: No

The office logs showed that:

- A. In 2019-2020 a total of 52 visits were for the women-specific problems.
- B. In 2020-2021 it showed a total of 58 visits/consultations for women-specific problems.
- C. A positive difference of 6 visits; therefore, an increase by 10% in the number of visits for women's health problems from prior school year.
- D. The established criterion for success was "at least 5%" increase in the number of visits specifically for women's problems; therefore, this criterion has been met. (09/10/2021)

replenish depleted stocks and to prevent stock outs.

2. At least five (5) physical inventory will be conducted during the school year. (09/13/2021)

Improvement: Based on results, The nurse will participate in workshops/conferences held on/off island to upgrade nursing skills and knowledge including maintaining currency of nursing license; and continue to coordinate with the Pohnpei State Family Planning and Maternal Child Health programs to ensure the Women's Wellness Clinic at the college continues to provide the needed services.

1. The nurse will participate in at least four (4) on and off- island health workshops/conferences during the school year.

2. Exceed the rate of women visiting the Women's Wellness Clinic for treatment by at least 10% from prior school year. (09/13/2021)

Improvement: Due to the pandemic restrictions, the nurse was not able to participate in any

on and off-island health-related workshops/conferences during the reporting cycle. However, the Women's Wellness Clinic continued to remain open but only on a part time basis. Consultations were done virtually. (09/28/2021)

2020-2021 EMSS N SLHS: Outcome 2

- Students will demonstrate an understanding of their individual health problems, including their own medical diagnosis and treatment plan.

AUO Status: Active

AUO Assessment Cycle: 2020 - 2021

Start Date: 10/01/2020

Inactive Date: 09/30/2021

Reporting Period: 2020 - 2021

Target Met: No

The office logs showed that:

- A. A total of 324 students (in headcounts) visited the dispensary for various health-related reasons.
- B. Of the 324, 100 (or 31%) of them were explained and provided information about their health problems and treatment; and had signed encounter forms signifying their understanding about their health problems and treatment.
- C. The established criterion for success was "at least 75%" of the students visiting the dispensary will have an understanding about their diagnoses and treatment; therefore, this criterion has not been met. (09/10/2021)

Improvement: Based on the result,

- 1. The Health Service will continue to educate and provide health related information and resources to help students understand their health problems; and to ensure medical encounter forms are complete signifying their understanding about their health problems and treatment.
- 2. At least 80% of students seeking medical treatment will complete the forms (09/13/2021)

2020-2021 EMSS N SLHS: Outcome 3

health agencies; and involve more students including the Student Body Association (SBA), student clubs and organizations in the planning and implementation of activities; and continually assess the effectiveness of Health Services facilitated awareness activities and outreach programs in terms of increased knowledge and awareness of participants about health issues/problems that affect their lives.

1. Exceed the current rate of students participating in the Health Service facilitated health activities/workshops by "at least 15%" from prior year.

2. At least 90% positive rating on the results of survey administered to a cohort of participants to the Health Services facilitated health activities/workshops. (09/13/2021)

Reporting Period: 2020 - 2021
Target Met: No
The office logs showed that:

A. In 2019-2020 the Health Service received a total of 231 students, faculty and staff participating specifically in the TB/Leprosy screening activities.

B. In 2020-2021 it received a total of 171 participants.

C. A negative difference of 60 in the number of participants; therefore, a decrease by 26% in the number of students, faculty and staff participating in the TB/Leprosy screening activities in comparison to prior year.

Exam/Quiz - Pre-Post - 2. Health Services will continually organize and facilitate annual health screening activities to the college community that include but are not limited to diabetes, hypertension, obesity, sexually transmitted diseases and others; and continually assess the level of increased knowledge by participating in activities.

Target: 1. Exceed the current rate of students, faculty and staff participating in the health screening activities by at least 10% from prior

Improvement: Based on the results,

1. The Health Services will continue to organize and facilitate annual health screening activities to the college community; and continue to assess the level of increased knowledge by participating in activities.

2. At least four (4) health screening activities will be

school year.

2. Exceed the rate of students participating in the sexually transmitted disease screening activities by at least 5% from prior year.

3. Statistically significant difference between the scores in the pre- and post-tests administered to a cohort of students participating in the sexually transmitted disease screening activities.

D. The established criterion for success was to exceed the current rate of students, faculty and staff participating in the health screening activities by "at least 10%"; therefore, this criterion has not been met.

And due to scheduling problems, the annual sexually transmitted disease screening activities could not be implemented and therefore, an assessment of the level of knowledge of participants to the screening activities could not be evaluated either. (09/10/2021)

organized and held during the reporting period.

3. Exceed the current rate of students, faculty and staff participating in the health screening activities by at least 20% from prior school year. (09/13/2021)

Improvement: Due to the limited number of health screening activities held during the reporting, the target rate of students, faculty and staff participants was not met. (09/28/2021)

Descriptive Statistics - 3. Ensure the currency of information in information, education, and communication (IEC) and continually update health information resources/materials for students, faculty and staff.
Target: 1. Exceed the rate of students requesting and using health information/resource materials by at least 5% from prior year.

Reporting Period: 2020 - 2021

Target Met: No

The office logs showed that:

A. In 2019-2020 the Health Service received a total of 209 students requesting and using the health information/resources materials.

B. In 2020-2021it received 159 students.

C. A negative difference of 50 students requesting and using the health resources/materials; therefore, a decrease by 24 % in the number of students.

D. The established criterion for success was "at least 5%" increase in the current rate of students requesting and using health resources/materials; therefore, this criterion has not been met. (09/10/2021)

Improvement: Based on the result,

1. The Health Service will continue to provide health information materials, and ensure the updated and currency of information in information, education, and communication (IEC).

2. Exceed the rate of students requesting and using health information/resource materials by at least 10% from prior year. (09/13/2021)

2020-2021 EMSS N SLHS: Outcome 4

- Students will continue to demonstrate increased knowledge and awareness about their sexual and and Maternal Child Health programs

Descriptive Statistics - 1. Health

Services will continually coordinate with Pohnpei State Family Planning and Maternal Child Health programs

Reporting Period: 2020 - 2021

Target Met: No

The office logs showed that:

Improvement: Based on the results, the Health Service plans to implement the following in the next cycle:

Assessment Strategies

reproductive health needs by making healthy and appropriate decisions that impact positively on their lives.
AUO Status: Active
AUO Assessment Cycle: 2020 - 2021
Start Date: 10/01/2020
Inactive Date: 09/30/2021

Target: 1. Exceed the current rate of students using the family planning services by at least 10% from prior school year.

2. At least 5 % of the family planning service visits made by students will be for contraceptive methods.

Also the office logs showed that of the 156 visits for family planning, 32 (21%) were using the contraceptive methods. The established criterion for success was "At least 5 % " of the family planning service visits made by students will be for contraceptive methods; therefore, this criterion has been met. (09/10/2021)

Descriptive Statistics - 2. Health Services will coordinate with Pohinpei State Family Planning program to ensure stock supplies of condoms are regularly provided for the Health Service clinic; and ensure accessibility of condoms for the Residence Halls residents.

Target: 1. At least two (2) boxes of condoms will be distributed to the Residence Halls monthly or as needed.

Exam/Quiz - Pre-Post - 3. Health Services will schedule and facilitate individual presentation on family

Results

A. In 2019-2020 the Health Service received a total of 288 visits made by students for the family planning services.

B. In 2020-2021 it received a total of 156 visits made by students for the family planning services..

C. A negative difference of 132 in the number of students for the family planning services; therefore, a decrease by 46%.

D. The established criterion for success was to exceed the current rate by at least 10%"; therefore, this criterion has not been met.

Also the office logs showed that of the 156 visits for family planning, 32 (21%) were using the contraceptive methods. The established criterion for success was "At least 5 % " of the family planning service visits made by students will be for contraceptive methods; therefore, this criterion has been met. (09/10/2021)

Reporting Period: 2020 - 2021

Target Met: No

The office logs showed that:

A. Five (5) boxes of condoms were distributed to the Residence Halls during the reporting cycle.

B. The established criterion for success was "At least two (2) boxes" of condoms will be distributed to the Residence Halls monthly or as needed; therefore, this criterion has not been met.. (09/10/2021)

Reporting Period: 2020 - 2021

Target Met: No

Due to the pandemic restrictions and in compliance with

Improvements

1. Continue to coordinate with Pohinpei State Family Planning and Maternal Child Health programs to ensure access to all the available contraceptive methods on island; and encourage more students to use the family planning services available to them.

2. Exceed the current rate of students using the family planning services by at least 10% from prior school year.

3. Exceed the rate of students using specifically the contraceptive methods to at least 10% from prior school year..

4. Provide at least 4 boxes of condoms to the Residence Hall monthly. (09/13/2021)

Improvement: See improvement plan under Strategies and Action Steps1 (09/13/2021)

planning and related topic to the residents in the Residence Halls during the school year; and assess the level of increased knowledge of participants about topics presented.
Target: 1. At least one presentation on the topic of family planning or related topic will be scheduled and presented to the Residence Halls residents during the school year.

2. At least 50% of residents will participate in presentation.
3. Statistically significant difference between the scores in the pre-and post-tests administered to a cohort of participants.

the COM-FSM Covid-19 Emergency Response Plan, these activities could not be implemented. The Health Service plans to implement these activities in the next cycle. (09/10/2021)

next cycle:

1. Health Services will coordinate and facilitate individual presentation on family planning and related topics to the residents of the Residence Halls during the school year.
2. At least 50% of residents will participate in presentation.
3. Statistically significant difference between the scores in the pre-and post-tests administered to a cohort of participants. (09/13/2021)

2020-2021 EMSS N SL: Outcome 1 - Student Life will foster and encourage student and faculty/staff interactions, in efforts to promote the formation of positive relationships, and to integrate students' out-of-class experiences and interests with their academic goals and aspirations.

AUO Status: Active

AUO Assessment Cycle: 2020 - 2021

Start Date: 10/01/2020

Inactive Date: 09/30/2021

Survey - Student Life will seek direct feedback, concerns, and ideas from faculty and staff on providing services and activities that promote student interaction.

Target: Student Life will survey faculty members from all academic departments, seeking feedback, input and ideas on improving student and faculty/staff interactions outside of the classroom.

Notes: Collaborate with VPIEQA's Office to develop a survey targeted for faculty and staff member feedback to integrate more student, faculty and staff experiences on campus.

Reporting Period: 2020 - 2021

Target Met: No

Student life goal is to foster students and faculty/staff interaction to promote positive relationship and to integrate students' out of class experiences with their academic goals and aspirations, survey on direct feedback, concerns and ideas from faculty and staff in providing services and activities was not fully met. To support the ongoing services at student life which is the virtual hours will come up with a strategy in fulfilling our results. (09/06/2021)

Improvement Plan: Come up with more services along with our virtual hours that will help foster interaction to promote positive relationship to enhance students out of class experiences with their goals and aspirations.

Project-Group - Student Life will work directly with faculty and staff,

Reporting Period: 2020 - 2021

Target Met: No

Improvements

as well as students to identify barriers that limit active participation in Student Life events and activities, working together to create new opportunities, which expand offerings and increase involvement.
Target: Student Life will encourage participation from 75% of registered organization's officers and 100% of advisors in this research.

Student Life needs to work with a wider variety of faculty members, in order to support the learning and interactions with positive with positive relationship. Future collaborations that could create new opportunities. Target was not met due to the fact that most of the class were shift from in person to on line. (09/07/2021)
Improvement Plan: Now that we are beginning to shift to in person classes recommendation is to continue work with wider variety of faculty members.

2020-2021 EMSS N SL: Outcome 2 -
 Student Life will promote and encourage the formation of strategic community partnerships, providing opportunities for supplemental learning, as well as, the development of positive relationships between students and community members.
AUO Status: Active
AUO Assessment Cycle: 2020 - 2021
Start Date: 10/01/2020
Inactive Date: 09/30/2021

Project-Group - Student Life will encourage the formation of positive relationships between current student leaders and future COM-FSM students, promoting the development of student leadership and participation.
Target: Student Life, in collaboration with the Student Body Association and Peer Coaches, will visit public high schools once a year to promote student leadership and assist in COM-FSM recruitment efforts.

Reporting Period: 2020 - 2021
Target Met: No
 The goal of forming the positive relationships between current student leaders and future COM-FSM students, student life needs to collaborate more closely with OARR to identify more opportunities for student involvement with recruitment.
 (09/07/2021)

Improvement Plan: Student Life needs to collaborate more closely with OARR to identify more opportunities for student involvement with recruitment. This could include assistance with high school presentations, administration of the COMET test, among others.

Project-Group - Student Life will organize a community give back day once a semester to foster the spirit of the head, heart and hands service.
Target: 100% of registered student organizations will participate in one of the organized community give back days

Reporting Period: 2020 - 2021
Target Met: No
 Plan on community give back day was not executed as planned and student life wish to continue as planned.
 (09/07/2021)

Improvement Plan: Based on recommendation student life will try and implement the planned activity.

2020-2021 EMSS N SL: Outcome 3 -
 Student Life will foster the development of an active student body, targeting inactive student populations in order to increase

Survey - Student Life will seek direct feedback, concerns and ideas from students on providing services, activities and events, which promote and increase student participation.

Reporting Period: 2020 - 2021
Target Met: No
 The survey on direct feedback, concerns and ideas from students on providing services, activities and events, to promote and increase student participation was a very good

Target: Student Life will work in collaboration with academic advisors to survey students, seeking feedback, input and ideas on improving student participation outside of the classroom.

idea but was not fully met because of the pandemic. (09/08/2021)
Improvement Plan: Place one suggestion box in students life center and one with the faculty and staff to get direct feedback, concerns and ideas from students on providing services, activities and events.

2020-2021 EMSS N SL SR: Outcome 2

- Students will exhibit the values of sportsmanship, teamwork and camaraderie, and demonstrate the basic knowledge in coaching, officiating and organizing a mini-tournament.

AUO Status: Inactive

AUO Assessment Cycle: 2020 - 2021

Descriptive Statistics - Facilitate at least two trainings for students on officiating and sports administration.
Target: 90% of the students who participated in the trainings will demonstrate skills and adeptness in officiating and sports administration.

Reporting Period: 2020 - 2021

Target Met: No

Sports and recreation aim to exhibit the values of sportsmanship, teamwork and camaraderie, and demonstrate basic knowledge in coaching, officiating and organizing mini-tournament through trainings for the students. This involve social gathering and participation which leads us not to meet our goal. (09/06/2021)

Improvement Plan: Findings and recommendation is to partner up with our National Olympic committee so they can invite our students to their available online sporting events.

2021-2022 EMSS SLRH Outcome 1-

Encourage personal growth -

Residence halls will continue to promote, support academic success and personal growth through successful interactions with residents including development and implementation of programs that accommodate these goals.

AUO Status: Active

AUO Assessment Cycle: 2021 - 2022

Start Date: 10/01/2021

Inactive Date: 09/30/2022

Descriptive Statistics - Residence halls will continue to coordinate with student life in developing after class programs including weekend events each semester.

Target: As such, at least 80% of the residents who participated in the scheduled weekend events will gain new knowledge, skills and more meaningful learning experience while further their ongoing education.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result of the spring 2022 satisfaction survey, 95% of students claimed that activities provided in the residence halls gave them an opportunity to learn new skills and knowledge and socialize with other peers. (05/16/2022)

Improvement Plan: Although we met our target in regards to students gaining new skills and knowledge and having fun, Residence halls will continue to offer more activities that support student personal growth, opportunity to explore different areas of interest, increase self-confidence, build leadership skills and even improve grades.

Improvement: Residence halls will continue to work closely with the director of student life and other student services staff offering a variety of activities to residents giving them opportunities to improve their leadership and interpersonal skills while also increasing their self-confidence. Extracurricular involvement allows students to link academic knowledge with practical experience, thereby leading to a better understanding of their own abilities, talents, and career goals. (05/16/2022)

Descriptive Statistics - Residence halls will continue to maintain consistency in all residence halls

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, 93% of residents claimed that the residence hall

Improvement: Residence halls will continue to meet with students monthly to ensure that all

Improvements

procedures and protocols in an effort to teach the values and concepts of good citizenship to our resident students.

Target: As such, activities focused on education and information sharing will be increase to 85% and student violation will be decreased by 15% every semester.

staffs are consistent in implementing residence hall procedures, protocols, rules, and regulations. With the consistent implementation of the residence hall rules and regulations including College pertinent policy, infractions in the residence halls has decreased to 12%. (05/16/2022)
Improvement Plan: Even though we met our target of ensuring protocols and procedures are properly implemented and followed consistently, we will continue to maintain consistency and increase communication thru emails, posters, and face-to-face meetings with the residents ensuring all residents are fully aware of the said policies, protocols, and procedures in the residence halls.

information is shared, decisions are made and that staff can work in an environment that is supportive, yet challenging. This may open up opportunities for mutual support and collaboration. This will also allow staff to align current priorities and goals. (05/16/2022)

2021-2022 EMSS SLRH Outcome 2 - Staff trainings and development.

Residence halls will continue to resume and enhance current and new staff trainings in order to provide proper support and guidance to all resident students.

AUO Status: Active

AUO Assessment Cycle: 2021 - 2022

Start Date: 10/01/2021

Inactive Date: 09/30/2022

Reporting Period: 2021 - 2022

Target Met: Yes

As a result of the in-house training given to staff, 90% of staff have learned new skills and knowledge about their duties and responsibilities tailored to the requirements and necessities in the residence halls. Training includes (1) orientation training mainly consists of welcoming and introducing your new employees to the job site, and (2) onboard training or ongoing skills training to familiarize/improve their knowledge and skills including all the software and hardware that they will use job skills, and address all the topics that employees need to do their job well .(3) soft skills training, a combination of personality traits, behaviors, and social attitudes. These skills allow staff to communicate, collaborate, and manage conflict effectively. (05/16/2022)

Improvement Plan: Although we covered some of the necessities and requirements of student services assistant required skills, we will continue to collaborate with other departments to offer opportunities for all residence halls staff to gain new knowledge, skills, and improvement of the skills and knowledge they already acquired pertaining to providing services to residents and others.

Improvement: Residence halls will continue to offer training to all new and current staff to enhance their knowledge and skills pertaining to the requirements and necessities in the residence halls as well as to learn new skills in completing their tasks and responsibilities including new protocols and current policies rules and regulations with excellent results. (05/16/2022)

Descriptive Statistics - The unit will continue to assess and evaluate current resources and processes to ensure efficiency in delivering

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, all 9 staff in the resident's halls have gained new knowledge and skills in regard to the in-house training

Improvement: Residence halls will continue to collaborate with other departments and outside agencies

Administrative Unit Outcomes

Improvements

services in the residence halls.
Target: As such, all staff in the residence halls will be able to address any emergent situation, student concerns or needs efficiently and consistently in a timely manner and be able to set priorities.

provided for them. (05/16/2022)

Improvement Plan: Although staff in the residence halls gained knowledge and skills from the in-house training provided, we will continue to offer them training to enhance their current skills and knowledge in order to provide excellent services and support to all residents.

for available training for the residence halls staff to ensure a continuous improvement of services and leveling up the status of all staff in the residence halls to become more efficient workers. (05/16/2022)

2021-2022 EMSS SLRH Outcome 3 - Foster social responsibility. -

Residence halls will continue to focus on providing opportunities for residents to attain knowledge and skills to become leaders and socially responsible.

AUO Status: Active

AUO Assessment Cycle: 2021 - 2022

Start Date: 10/01/2021

Inactive Date: 09/30/2022

Descriptive Statistics - Residence halls will continue to provide equity through the implementation of programs that promotes safe, inclusive and respective environments for all residents.

Target: As a result, 80% of residence halls participate in the residence halls offered programs will be able to demonstrate proactive involvement for positive change in shared community interest.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result of the satisfaction survey of spring 2022, 92% who participated in the residence halls offered programs/events demonstrated a proactive involvement for a positive change in the shared community interest. (05/16/2022)

Improvement Plan: Even though the residence halls faced a lot of challenges in scheduling programs, events, and activities for residents, we manage to encourage students to participate in those scheduled activities with the support of other student services staff and Administrators. We will continue to work with other offices to ensure that we provide more fun and engaging activities for residents in the coming semesters.

Improvement: Residence halls will continue to offer a variety of fun activities that support academic excellence and personal growth in collaboration with other departments and outside agencies. (05/17/2022)

Descriptive Statistics - Residence halls will continue to encourage residents to actively participate in organisational and leadership position, service learning, community service, student employment, leadership and development programs.

Target: As such, 85% of students who participates in residence halls programs will develop new knowledge and skills and apply the knowledge in order to advance academic, personal and future career growth.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, 85% of residents who participated in service-learning, community services, and student employment programs have acquired new knowledge and skills by engaging in office work and conducting managerial assignments in the different facilities of the College. (05/17/2022)

Improvement Plan: Even though we met our target goal, we will continue to provide students with educational learning experiences that enable them to develop intellectually, build career-readiness skills, and access adequate services and support.

Improvement: Residence halls will continue to collaborate with other offices and departments to ensure that students have access and opportunity to freely participate in diverse, educational, community-building programs outside of the classroom with peers, faculty, and staff. (05/17/2022)

2021-2022 EMSS SLRH Outcome 4 -

Quality facilities. - Continue to offer high-quality facilities and ensure physical access and safety within an environment that is inclusive to students and others with disabilities.
AUO Status: Active
AUO Assessment Cycle: 2021 - 2022
Start Date: 10/01/2021
Inactive Date: 09/30/2022

halls will continue to work with maintenance department to discuss disability related access are addressed.
Target: At least eighty percent (80%) of respondents will be satisfied in terms of overall status of the facilities in support of academic and personal, including psychological aspects, i.e concentrate on studies, privacy, level of openness and comfort safety and accessibility.

Target Met: Yes
 As a result, the overall satisfaction rate in the residence halls' spring 2022 survey result is 93%. but, addressing the concerns about accommodating students with disability in the residence halls due to lack of disability access to the shower room or even a short ramp in the female residence halls. we will continue to communicate these concerns to Administrators to allocate funds in the next budget year. (05/17/2022)

Improvement Plan: Even though the overall satisfaction rate in the residence halls is 93% in regards to services, amenities, and others. providing disability access in residence halls must be constructed as soon as possible to accommodate students with a disability in the residence halls. We will follow thru with maintenance staff and the Administrators to ensure funding for the needed disability access is constructed including a wheelchair ramp at the female hall entrance and disability access in the shower stalls on the first floor in both halls.

Descriptive Statistics - Create a unique indoor and outdoor spaces for residents use.

Target: As such, the residence halls will to continue to strive to meet these goals and work to find creative solutions to improving revenue and offering furnishings that best meet the students needs and desire as a result, 90% of respondents will report high level of satisfaction with the overall condition of the residence halls and available resources to meet their needs.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, 93% of the students during the 2022 spring survey results claimed that their overall experience in the residence halls has been positive. We have provided spaces for them to dine in during the night, and space for them to study and complete their assignments including uninterrupted internet connection and fast computer desktops. (05/30/2022)

Improvement Plan: Although we go beyond our target goal, Residence halls will continue to work with other departments for support to ensure we provide creative solutions meeting the student's academic needs and including personal growth and development by providing unique in-door and outdoor spaces for them to use.

Improvement: Continue to work with the maintenance department in allocating the budget for new furnishing or replacement furniture in the residence halls that best meet the student's needs in support of their academic success, personal growth, and development. (05/30/2022)

2021-2022 EMSS SLRH Outcome 5 - Conducive to living learning environment. - Residence halls will continue to improve and maintain safe and secured residence halls.

Descriptive Statistics - Residence halls continue to work with maintenance department to add more lighting outside the residence halls to enhance the safety and

Reporting Period: 2021 - 2022

Target Met: Yes

As a result of the spring 22 survey, 96% of the respondents claimed that they feel safe staying in the residence halls (05/30/2022)

Improvement: Additional security lights must be installed around the college residence hall premises to ensure a high level of safety and security for all

games etc.

Target: At least 80% of respondents will report that they have a safe and secured environment in which they live and learn, as well as overall satisfaction with how safety and concerns are addressed.

including fire and disaster training to ensure all residents a fully knowledgeable about following protocols in terms of urgent emergencies.

2022-2023 EMSS SLSR Outcome 2- Life Skill -

Students will exhibit the values of sportsmanship, teamwork and camaraderie, and demonstrate the basic knowledge in coaching, officiating and organizing a mini-tournament.

AUO Status: Active

AUO Assessment Cycle: 2022 - 2023

Start Date: 09/06/2022

Descriptive Statistics - Allocate resources specifically with the urgent needs in the residence halls including minor renovations ,repair supplies, furniture replacements and others.

Target: As such 85% of the urgent needs in the residence halls will be able to process or complete with in the given time frame avoiding delay.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, 92% claimed that their maintenance problems or concerns are done in a timely manner (05/30/2022)

Improvement Plan: Even though the correspondents claimed that their maintenance problems and concerns are addressed in a timely manner, 8% of the total residence hall population, claimed that their request is not done in a timely manner Residence halls will ensure that the residence concerns regarding facility issues are addressed in a timely manner by submitting a maintenance request without delay upon and constant follow-up.

Improvement: Residence halls will continue to work closely with the maintenance department to ensure the residence halls' facility needs are done in a timely manner. We will continue to provide an inventory and inspection checklist to the department head to ensure minor renovations, repairs, and replacements are done in a timely manner. (05/30/2022)

Descriptive Statistics - Track renovation schedule for needed repairs, urgent needs and safety concerns.

Target: At least 85% of the project or task are completed in a timely manner or make adjustments to achieve the goals.

Reporting Period: 2021 - 2022

Target Met: Yes

As a result, 90% of the tasks identified in the residence halls are completed in a timely manner which includes, the removal of broken furniture or fixture, replacements of new appliances, additional computers and desks, printers machines, installation of ceiling fans with the assistance from maintenance staff, removal and replacements broken room doors and others. (05/30/2022)

Improvement Plan: Although we completed most of the minor tasks in the residence halls and most of the major tasks like additional bed frames and wooden closets were not accomplished. residence halls will follow up and dialogue with the administration department to provide funding for the needed furniture in the residence halls for students' use. for the Fall 2022 semester.

Improvement: Residence halls will continue to work closely with administration officials to ensure replacement furniture including bed frames, closets, and study tables is provided in a timely manner prior to fall 2022 semester. (05/30/2022)

2021-2022 EMSS SLSR Outcome 1- Sports & Recreational Activities -

Descriptive Statistics - Sports and Recreation will develop and

Reporting Period: 2021 - 2022

Target Met: No

Administrative Unit Outcomes

Assessment Strategies

Results

Improvements

Sports and Recreation will plan, implement and run sports competitions and other recreational activities for the students. Sports competitions and recreational activities will follow the interest of the student body and beyond to enhance participation from students and the college community.
AUO Status: Active
AUO Assessment Cycle: 2021 - 2022
Start Date: 08/01/2021

implement a calendar of events, ensuring that all activities are properly advertised and promoted in a timely manner for the information of all student, staff and faculty.
Target: Aim for Sports and Recreation is to try and capture participation (at least 80% to 100%) of students, faculty and staffs to participate in sports and recreational activities of the college.

In line with the pandemic, sports and recreation were able to plan, implement and run co curricular sports and activities to the college community with the best interest of the student body association. (05/24/2022)
Improvement Plan: Based on observations, sports and recreation will have to improve the awareness, out reach and advertisement of the sports and activities in order to meet the target. Recommendation, not to limit communication on social media but also use old school style of communication in order to reach out to everyone.

Reporting Period: 2021 - 2022

Target Met: Yes

Sports and recreation were able to foster the involvement student, faculty and staff by communication, announcement and strong message from some department heads encouraging everyone to show support during activities. (05/25/2022)

Improvement Plan: Yes target was met but my

recommendation is to focus more on the strong message from the department heads and Vice presidents on encouraging everyone to show full support during activities and even college functions.

Descriptive Statistics - Sports and Recreation will foster the

involvement of students, faculty and staff in planning, implementing and running sports and recreational activities in order for them to grasp and use the experience in their daily life skills.

Target: Sports and Recreation will schedule at least one two workshops each semester in planning, implementing and running sports and recreational activities.

2021-2022 EMSS SLR Outcome 2-

Life Skills - Students will exhibit the values of sportsmanship, teamwork and camaraderie, and demonstrate the basic knowledge in coaching, officiating and organizing a mini-tournament.

AUO Status: Active

AUO Assessment Cycle: 2021 - 2022

Start Date: 08/01/2021

Reporting Period: 2021 - 2022

Target Met: No

Sports and recreation were able to organize mini-tournaments to exhibit the values of sportsmanship, teamwork and camaraderie but not able to improve basic knowledge in coaching and officiating due to lack of certify zone development officer because of the lock down of our airport. (05/25/2022)

Improvement Plan: Work closely with our National Olympic committee to bring in certify zone development officer for coaching and officiating hoping that our airport will open in the near future.

2021-2022 EMSS SLR Outcome 3-

Descriptive Statistics - Sports and Recreation

Reporting Period: 2021 - 2022

Services and Resource Utilization - Recreation will survey participants in sports competitions and recreational activities, as well as, all other stakeholders utilizing our facilities, to ensure satisfaction for facilities and equipment use.
Target: Sports and Recreation will survey 75% of facility users.
 who may be utilizing the services at the FSM-China Friendship Sports Center at National Campus.

AUO Status: Active

AUO Assessment Cycle: 2021 - 2022

Start Date: 08/01/2021

Descriptive Statistics - Sports and Recreation will hold monthly staff meetings to identify strengths and weaknesses in the delivery of day to day operations, and will review and prepare for the following month's activity calendar.

Target: Each month, Sports and Recreation will establish 2 goals for the staff as a whole, and will designate duties for the upcoming Student Life and Sports & Recreation events.

Target Met: No
 Sports and recreation were not able to do survey for all student activities and other stakeholders utilizing our college facilities and this will become one of our major goal to make it part of the student activity request and stakeholders package request. (05/25/2022)
Improvement Plan: From observations and findings in order to meet the target, will make the survey part of the student activity request and stakeholders as part of the package deal. Sports and recreation will come up with the survey and make sure students and stakeholders complete the survey at the end of their activity.

Reporting Period: 2021 - 2022

Target Met: No

Sports and recreation were able to hold staff meetings, deliver day to day operations and prepare activity calendar. Monthly meetings to identify strengths and weaknesses works really well and will continue doing this to keep staffs motivated. (05/25/2022)

Improvement Plan: My observation, finding and recommendation, to change the target from monthly to semester to give more time to the staffs accomplish goals and duties that they came up with.

2021-2022 EMSS SLHS Outcome 1- Quality primary and preventive health care services - The Health Service will continue to provide a variety of basic effective primary and preventive health care services to the college community; as such, students will continue to demonstrate increased awareness and knowledge of positive self-care, including their own medical diagnoses and treatment by/utilizing services provided by the college's health service.

Descriptive Statistics - Health Services will ensure the college community's continued access to essential and effective basic primary and preventive health care; as such, students demonstrate increased awareness and knowledge about their individual health problems including diagnoses and treatment by completing the medical encounter forms at the end of visits; and ensure timely procurement and replenishment of depleted medical supplies to prevent to

Reporting Period: 2021 - 2022

Target Met: No

Tabulated frequency count of visits by students, faculty and staff to the Health Service showed that:

- A. In 2020-2021, the Health Service received a total of 3, 124 visits.
 - B. In 2021-2022, it received a total of 2, 146 visits.
 - C. A negative difference of 978 visits; therefore, a decrease by 31% .
 - D. The established criterion for success was "at least 15%" increase in the frequency of visits to the Health Service clinic from prior year; therefore, this criterion has not been met.
- Also, the office logs showed that:

Administrative Unit Outcomes

Assessment Strategies

AUO Assessment Cycle: 2021 - 2022

Start Date: 10/01/2021

Inactive Date: 09/30/2022

prevent stock outs.

Target: Exceed the present rate of frequency visits made by students, faculty and staff to at least 15 % from prior year.

At least 80% of students seeking medical attention will completed the medical encounter forms.

At least five (5) physical inventories will be scheduled and conducted during the school year.

A. The Health Service received a total of 1, 178 students in headcount.

B. Of this number, 850 (72%) completed the encounter forms indicating an understanding of their problems and treatment.

C. The established criterion for success was “at least 80% of students seeking medical attention will be completing the medical encounter forms; therefore, this criterion has not been met.

The office stock cards showed that:

A. The Health Service had conducted two (2) physical inventories on most of the medical supplies during the reporting cycle.

B. The established criterion for success was “at least five (5) “ physical inventories of medical supplies will be scheduled and conducted during the school year; therefore, this criterion has also not been met. (05/31/2022)

Improvement Plan: Services will continue to improve the delivery of health services and plan to implement the following for the next cycle:

1. Health Services will ensure the college community’s continued access to essential basic health care and primary preventive health services; and ensure supply of first aid kits and treatment of minor injuries and emergencies are provided to Student Service offices on campus.
2. Exceed the present rate of frequency visits made by students, faculty and staff to at least 15 % from prior year.
3. Continually educate students about their individual health problems/issues and treatment so at least 80% of them will complete the encounter forms at the end of their visits signifying their understanding of their health problems and treatment given; and schedule and conduct physical inventories of medical supplies at least quarterly to ensure timely procurement of medicines and other supplies to replenish depleted stocks and to prevent stock outs.

Reporting Period: 2021 - 2022

Target Met: No

The office logs showed that:

- A. In 2020-2021, the Health Service received a total of 1, 636 visits by students, faculty and staff specifically for

Descriptive Statistics - Ensure

college community’s continued access to health

maintenance/prophylaxis treatment that include but are not limited to

multi-vitamin supplements, baby aspirin, deworming medicines and others; and continually coordinate with FSM Health and Pohmpei State immunization program to ensure availability and accessibility of the seasonal influenza and Covid-19 vaccines to the college community.
Target: Exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis and influenza vaccination by at least 15% and 20% respectively from prior year.

At least 98% of all eligible students will be fully Covid-19 vaccinated.

Statistically significant difference between the scores in the pre- and post-tests administered to a cohort of students participating in the screening activities.

treatment of health maintenance and prophylaxis that include but are not limited to the seasonal influenza vaccinations, and others.

B. In 2021-2022, the Health Service received a total of 1,212 visits for the same kind of treatment.

C. A negative difference of 424 visits; therefore, a decrease by 26 %.

D. The established criterion for success was to exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis by “at least 15%” from prior year; therefore, this criterion has not been met. The office logs also showed that:

A. In 2020-2021 the Health Service received a total of 95 students, faculty and staff for the seasonal influenza vaccinations.

B. In 2021-2022, it received a total of 35 visits for the seasonal influenza vaccinations.

C. A negative difference of 60 in the number of participants for the seasonal influenza vaccinations; therefore, a decrease by 63% in the number of students, faculty and staff taking the influenza vaccination in comparison to prior year.

D. The established criterion for success was “at least 20%” increase in the current rate of students, faculty and staff taking the influenza vaccination; therefore, this criterion has also not been met.

However, the office records showed that:

A. The college had enrolled a total of 865 students during Spring Semester. Of this number 756 or (87%) had completed their Covid-19 vaccinations.

B. The established criterion for success was “at least 98%” of all eligible students will be fully Covid-19 vaccinated; therefore, this criterion has not been met.

However, although the established criterion of success has not been met, the percentage (87%) of students who completed their Covid-19 vaccinations has exceeded the COVID-19 herd immunity percentage according to experts. “Experts estimated early on that we would need between 70% and 85% of people to be vaccinated to achieve herd immunity.” (05/31/2022)

Improvement Plan: 1. Health Service will continually provide treatment of health maintenance and prophylaxis and coordinate with the FSM Health and Pohnpei State immunization program to ensure availability of the influenza and Covid-19 vaccinations at every health activity held on campus.
2. Exceed the present rate of students, faculty and staff taking the health maintenance/prophylaxis by at least 15% from prior year.
3. Exceed the present rate of students, faculty and staff taking the seasonal influenza vaccinations by at least 20% from prior year; and maintain or exceed the current rate of eligible students taking the Covid-19 vaccination.

Reporting Period: 2021 - 2022

Target Met: No

Due to the demands and restriction of the pandemic, the nurse was not able to participate in any on and off-island health-related workshops/conferences.

Also, the the Women's Wellness Clinic had been closed temporarily due to shortage of manpower; therefore, part of activity could not be implemented. (05/31/2022)

Improvement Plan: The Health Services will ensure safe and professional health practice and competency by ensuring the nurse continued participation in online workshops and continue education courses to upgrade nursing skills and knowledge including maintaining currency of nursing license; and to continue to seek assistance from Public Health Family Planning program to reopen the Women's Wellness Clinic for service.

Descriptive Statistics - Health Service will ensure continued safe and professional health care practice and competency by upgrading knowledge and skills including maintaining currency of nursing license; and continue to coordinate with Pohnpei State Family Planning and Maternal Child Health programs to ensure the Women's Wellness clinic continues to provide the needed service.

Target: The nurse will participate in at least four (4) on and off island workshops and conferences.

Exceed the rate of women visiting the Women's Wellness Clinic for treatment by at least 10% from prior school year.

2021-2022 EMSS SLHS Outcome 2- Health education awareness and knowledge. - The Health Service will continue to provide and facilitate health education awareness and

Descriptive Statistics - Health Service will continue to organize and facilitate health education awareness activities and outreach programs in collaboration with the

Reporting Period: 2021 - 2022

college's health science and public health program, other on-campus programs/offices, and the community and government health agencies; and ensure the currency of information in information, education, and communication (IEC); and continually assess the effectiveness of Health Services facilitated awareness activities and outreach programs in terms of increased knowledge and awareness of participants about health issues/problems that affect their lives.

Target: At least five (5) health activities/workshops will be organized and facilitated by the Health Service during the school year.

Exceed the rate of students requesting and using health information/resource materials by at least 10% from prior year.

At least 85% positive rating on the results of survey administered to a cohort of participants to the Health Services facilitated health activities/workshops.

FSM Health Fair) were organized and facilitated by the Health Service in collaboration with the Health Science Division and other on and off campus programs and health-related services and activities. World Aids Day activities planned could not be implemented due to scheduling problems.

B. The established criterion for success was "at least five (5) health activities/workshops will be organized and facilitated by the Health Service during the school year; therefore, this criterion has not been met. The office logs also showed that:

- A. In 2020-2021 the Health Service received a total of 159 students requesting and using the health information/resources materials.
- B. In 2021-2022, it received 408 students.
- C. A positive difference of 249 in the number of students requesting and using health resources/materials; therefore an increase by 64%.

D. The established criterion for success was "at least 10%" increase in the current rate of students requesting and using health resources/materials; therefore, this criterion has been met.

To determine the effectiveness of the Health activities, a post Health Fair survey was conducted to evaluate the level of effectiveness of activities implemented based on the perception on the subjects. Results of survey is yet to be evaluated. (05/31/2022)

Improvement Plan: 1. Health Service will continue to organize and facilitate health education awareness activities and outreach programs; and ensure the currency of information in information, education, and communication (IEC).

2. Exceed the current rate of students requesting and using health information/resource materials by at least 15% from prior school year.

3. At least 85% positive rating on the results of survey administered to a cohort of participants to the Health Services facilitated health activities/workshops

Reporting Period: 2021 - 2022

Target Met: NO

Descriptive Statistics - Health Service will organize and coordinate

First Aid training/workshop to the college community.

Target: At least 30 people will be certified in the First Aid.

Descriptive Statistics - Health

Services will continually organize and facilitate annual health screening activities to the college community that include but are not limited to diabetes, hypertension, obesity, sexually transmitted diseases and others; and continually assess the level of increased knowledge.

Target: At least four (4) health screening activities will be organized and held during the reporting period.

Exceed the current rate of students, faculty and staff participating in the health screening activities by at least 20% from prior school year.

The Health Service is in the process of organizing a session in First Aid training/workshop in collaboration with Student Life and CTEC. Date and time are yet to be decided. (05/31/2022)

Reporting Period: 2021 - 2022

Target Met: NO

The office logs showed that:

- A. The Health Service had organized and conducted five (5) health screening activities during the reporting period.
- B. The established criterion for success was “at least four (4)” health screening activities will be organized and held during the reporting period; therefore this criterion has been met.

The office logs also showed that:

- A. In 2020-2021, the Health Service received a total of 171 participants specifically to the TB/Leprosy screening activities.
- B. In 2021-2022, it received 140 participants
- C. A negative difference of 31 participants; therefore, a decrease by 18 %.

D. The established criterion for success was “at least 20%” increase in the number of participants to the TB/Leprosy screening activities from prior school year; therefore, this criterion has not been met. (05/31/2022)

Improvement Plan: 1. Health Services will

continually organize and facilitate annual health screening activities to the college community and continually assess the effectiveness of activities.

- 2. Exceed the rate of students, faculty and staff participating in the health screening activities by at least 20% from priority school year.

2021-2022 EMSS SLHS Outcome 3- Sexual and reproductive health awareness and knowledge - The Health Service will continue to provide quality family planning and reproductive health services; as such, students will demonstrate increased

health and wellness activities, student life, and others.
Target: 95% positive rating on the student engagement survey.

engage in all student life activities in order for them to feel ownership. Student life also ensure the engagement of Student Body Association in collaboration with the student organizations, student representative and peer coaches to take lead in activities like volunteer services (orientation), health and wellness activities (health day), student life and other activities (forum lecture, founding day etc.).

Improvement Plan: Plan and recommendation is to make the student engagement survey as an exit form of every semester in order to get majority of the students.

Reporting Period: 2021 - 2022

Target Met: No

Student life is expanding leadership development programs by working closely with other agencies to conduct workshop to support active and innovative student leader, example the youth leadership summit with IOM. (05/27/2022)

Improvement Plan: Work with IOM and other agencies so they can extend their services to campuses.

Descriptive Statistics - Develop and improve facilities that support student programs, services, and activities.

Target: 90% positive rating on satisfaction survey conducted.

Reporting Period: 2021 - 2022

Target Met: No

Student life was able to submit request to the maintenance to develop and improve facilities to support student programs, services and activities. (05/27/2022)

Improvement Plan: Rating on the satisfaction survey was not properly conducted, observation is to revisit the survey and come up with strategy on how to properly conduct the survey so it can be more effective.

Descriptive Statistics - Increase opportunities for student engagement in local, regional, national, and global communities.

Target: Increased engagement for students on community involvement or outreach, vis-a-vis prior cycle.

Reporting Period: 2021 - 2022

Target Met: No

Student life was able to increase opportunities for student engagement by accepting invitations and even reaching out for available opportunities at different levels. (05/27/2022)
Improvement Plan: Target was not met because of the pandemic especially on community involvement and outreach, plan is to keep working closely with entities at the different levels to build relationship and wait for the right time and save time to roll out.

adequate stock of residence hall furniture assess and advocate for continued major residence hall improvement projects.

Target: At least 85% of residents will report satisfaction with the overall physical condition of the residence hall including furnishing and residents' safety and security.

Survey - Students living in on-campus housing are asked to report maintenance concerns to help contribute to a safe community of care and encourage respect for campus facilities.

Target: At least 80% of residents will report satisfaction in terms of maintenance concerns, and response time including compliance with fire safety and health issues safety guidelines.

2022-2023 EMSS SLRH Outcome 3

Student life programming -

Residence Hall will continue to provide education and social programming that contributes to their overall growth and development.

AUO Status: Active

AUO Assessment Cycle: 2022 - 2023

Start Date: 10/01/2022

Inactive Date: 09/30/2023

Survey - Residence halls will provide programs consisting of several sessions that include various speakers, activities, and discussions that will help students identify and develop leadership qualities that will serve them in their work or employment. Topics include mentorship, communication, team building, and more.

Target: As such, 87% of residents actively participate in monthly scheduled movements, including social, spiritual, fun, community, and health activities.

Survey - Residence halls will continue to provide active and passive programming in many forms

to give students the opportunities to connect with their peers and grow in areas that include independent living, diversity, social, health, and wellness.

Target: As such 90% of residents will be able to gain new knowledge, skills, and effective strategies as a result of successfully completing the program/ activity.

2022-2023 EMSS SLRH Outcome 4-

Leadership qualities - Residence halls will continue to provide opportunities to identify and develop leadership qualities through participation in an emerging student guidance program offered every semester to help students to grow/develop their social and communication skills as evidenced by their ability to live and work collaboratively with others, engage in respectful relationships and assume shared responsibility for the common good.

AUO Status: Active

AUO Assessment Cycle: 2022 - 2023

Start Date: 10/01/2022

Inactive Date: 09/30/2023

Descriptive Statistics - Residence hall will continue to incorporate cultural awareness and respect further training residence hall staff on how to be an effective leaders.

Target: As such 90% of the staff will report an understanding of positive customer service and will be able to identify at least one thing they have learned about the training.

Descriptive Statistics - Residence halls staff will continue to participate in annual basic life training, Semestral fire drill, and other topics related to how to effectively evaluate and act on safety concerns, and strategies for responding to a variety of crisis/emergency situations, including mental health, safety-related concerns, the importance of self-care, and provides tools, strategies for time management and prioritization.

Target: As such 90% of the residence hall staff will meet course objectives set by the residence halls; passing written and skill assessments to receive a certification(basic life training), report improvement in

leadership skills and knowledge; knowledge acquisition, cognitive complexity, intrapersonal development, interpersonal competence, and practical competencies.

2022-2023 EMSS SLRH outcome 5- involvement and leadership -

Residential hall will continue to aim for all residential students to experience a sense of belonging and social connectedness by promoting active engagement and leadership in their communities.

AUO Status: Active

AUO Assessment Cycle: 2022 - 2023

Start Date: 10/01/2022

Inactive Date: 09/30/2023

Survey - Residents will be provided with an environment that includes programs and services that promote learning broadly, with an emphasis on academic support and personal development.

Target: at least 90% of Students who participates in the Student life programs/activities will be able to identify at least one area of personal growth from participation (effective leadership, better understanding, and respect for other cultures).

Survey - Residence halls will continue to provide support to student learning, while at the same time teaching and encouraging student responsibility and accountability.

Target: at least 85% of incoming freshmen and transfer students who participate in residence halls orientation will demonstrate, through self-report, an understanding of rules and regulations and how to prevent experiencing negative consequences for violating any of college residence halls rules including the college pertinent policies.
